Moments like this were magic, where their fantasies wound together into a perfect tapestry. All the dirty things they wanted to do, all the dirty things they wanted done to them.

The Beyond series has been my guilty pleasure for as long as I can remember, making this series one of my auto-buys. So I was beyond excited that this was waiting for me to read! This raunchy read features my all time fav's of the series, the ones who started it all, Dallas, Lex, Noelle and Jasper. When these four get together you are guaran-damn-teed a fucking awesome time... just remember this book does NOT come with batteries, LMAO!

"That's right." He cradled her head between his hands. "This is me, being selfish. Using Noelle to get you off. Using Jas to fill you up. I'm always selfish when it comes to you coming."

Plus the added bonus, looks like there is more to come in the **Beyond Happily Ever After** vignettes.

Thanks to Kit Rocha for this yummy delicious gift, you guys are AMAZING!!!

That was wicked hot. Jas, Noelle, and Lex give Dallas some stress relief. Very short, just one helluva sex scene. Looking forward to more.

Closed Doors is a very short story set in **Kit Rocha's** Beyond series that can be downloaded for free from their website or purchased on Amazon. It isn't meant to be read as a stand alone, it's just a VERY hot little slice of life starring some of the characters fans will have met in previous books. I am totally addicted to this series, the books are scorchingly hot and continuously push my boundaries but I can't get enough of them so any chance to revisit favourite characters is always going to be welcome in my book.

Dallas, king of the O'Kane gang, has been under a lot of stress lately but luckily his queen Lex knows just what he needs to unwind and she's recruited their friends Jas and Noelle to help her. I really don't need to say much more than that, if you're familiar with this series seeing those four names together will give you more than a hint of what to expect and if you've not read any of these books yet here is not the best place to start so walk away now and buy a copy of **Beyond Shame** immediately. **Closed Doors** is everything you could want or expect from a short set in this world and I loved every minute of it!

*** 4 HEDONISTIC STARS ***

ONE of my favourite ever series....

Dystopian books would never be my go to read but I came across the first book back in 2013 and have been hooked ever since and have never lost interest at all.

Dallas, the Sector leader is under pressure and what better than a night of passion with his partner, Lex and another couple Jasper and Noelle.

There are SEX scenes that are fast, down and dirty and that's great but the scenes in these books are just so

erotic.

It's another quicky..only about 30 mins,but free to download from Authors website and fans of this amazing series won't want to miss this.....

Becca Reads says

A quick story about one night with Dallas, Lex, Noelle and Jas. If you know the characters, I needn't go any further.

MaggieReadsRom says

Kit Rocha is in a league of her own. No one (yes I'm saying it!), NO. ONE. writes filthy dirty sexy as well as Kit! But dirty sexy alone wouldn't cut it and make me want to immerse myself in these Beyond books, novellas and shorts until I drown in them. Within this sexy scene of 26 pages Rocha managed to infuse emotions, love, trust and kinship. While giving me the most sexy sex scene I've read in a long time.

I love Dallas, I love Lex, I love Jas, I love Noelle and I adore Kit Rocha. And that is all...

Someone needs to give Bree and Donna everything they wish for just so they can keep writing these stories!

No matter how hot & dirty the smut, Kit Rocha always manages to give it heart as well, and that is what makes me a fan of this series.

MischaS_ says

Wow, I just loooooove this series. It was really nice to see the "old" couples back in the spotlight. Because it felt like with how the series progressed the couples from the first books just disappeared.

Eleanor (The Book Hammock) says

Hottest 20 minutes read you'll ever get. Ever.
My eyes even misted for a second there at the end.

Gotta love these four.

Packy Pie says

'No matter how impossible the task ahead of them, she'd always find a way to make him feel like he could take on the world. Because she'd take on the world with him.'

OH... Declan (I fucking quiver at this name and the rare times it's used in the most intimate of moments between Dallas & Lex) & Alexa... POWER COUPLE OF SECTOR FOUR FTW!!!! I can NEVER EVER get enough of them. I'll always be thirsty for more.

Stellar home run! Another one smashed right out of the park but one of my fave writing duos, Kit Rocha. I love that this small piece was a direct illustration of how hard work pays off (well at least in their world). Dallas is the most hard working, respectable leader Sector Four has seen. The only thing he loves more than his job as leader and loving and protecting his family 24/7 is his queen, Lex. Since the very first book in this series, regardless of whose turn it was to twll the story, he's always been the mastermind behind the scenes, making sure things work and that his Sector never crumbles or falls into ruins.

A job of this magnitude might feel like it never ends, because it really doesnt. And Dallas will go down, blood, sweat, and tears to make sure that no harm comes to the people he loves the most and is sworn to protect. As a result, he's been working relentlessly, and so in this short story, it's his right hand lady, Lex who takes things into her own hands (heh) to give him a night off. And this night off contains of pleasure like you'll never know, as only the O'Kanes do. I was literally sitting on my knees, legs bent up under me as I read. There's no denying that Kit Rocha writes some of the most powerful, dynamic, STEAMING FUCKING HOT sex scenes. And even though, the scenes were Dallas, Lex, Noelle and Jas, there was no mistaking the intimate moments between each couple, separately, as well as their union together. I love that they never fail at achieving that.

What I loved about his too, was the fierce showing of Dallas & Jasper's allegiance. What the two have is such a brotherhood, even beyond work, and Lex having Jas share that moment with them was A+++.

I don't have to tell you how much I love Declan and Alexa together right? Because 1) I DON'T HAVE WORDS TO DESCRIBE and 2) If I did, this review might continue on for another 10000 words. I could write a damn thesis on the thing, to be honest.

Anyway, if you're not a part of this O'Kane world, I'm gonna have to assume that you're either out of your mind or have never heard of the books. Because besides, crazy plots and even crazier sex, there are few books that deliver insanelly addicting characters that you can never tire of.

All the stars to Kit Rocha for another great O'Kane installment. The only thing I didn't fancy is the fact that this felt so final. And these are characters I'll struggle with leaving alone.

O'Kane hangover, anyone?
