I loved these books growing up. The nostalgia sweeps me off to far away places. I remember the redhead freckled face girl that would lay in the bath for hours soaking up the seducing, alluring, morbid but oh so fascinating V.C Andrews

I read this a long time ago, but as with all VC Andrews, it was well written, a good story and fast paced. Make sure to read all in this series.. 1D

These books are from The Casteel Series. It tells the story of the Casteel family, starting with a girl named Heaven, ending with her death, and continuing with the story of her daughter. Very good overall and would have loved to read even more generations of this family.
