As the free world stands united against the ruthless onslaught of global terrorism, a covert, action-ready force known only to the President operates behind the scenes, on red alert. A crack cybernetics team works tirelessly assessing and fielding intelligence to the commandos on the hellgrounds of a grim, high-stakes war. Stony Man's dedication to the values of freedom and justice remain the core of its efforts to defend and protect.

FLOATING DEATH

Four freighters, armed with missiles to be launched from mobile systems at four unidentified targets, have left port in South Africa. The payload is a lethal chemical agent and the resulting death toll would be incalculable. For Stony Man, it means the speed, skill and intelligence of its operatives will be pushed to the limits in a race to stop those who wish to see the innocent burn in the fires of fanaticism.

My suggestion

Good action keeps you interested to see what is coming. I like the stonyman series but I would like to see a joint op where able team, Phoenix force and Mack Bolan all work together instead of as separate teams.
