Wow! Wonderful addition to this series.

Connie hated that her best friend moved away but was so happy, and jealous, that she found her mate. Even though it was due to Connie contacting Gerri, owner of Paranormal Dating Agency, to help her best friend find happiness. And Gerri never gets it wrong.

Connie's sadness eases when she gets permission to move off pack lands and into town.

Connie gets a call from Gerri telling her she needs to apply at the bakery at 9:30 the next morning but won't tell her why.

Rocky, the owner of Heavenly Scents, was left short handed when Gerri and her nephew, Theron, told Rocky's part time help that she won an all expenses paid trip. And then proceeded to order a large amount of baked goods that were needed in 4 days.

When Connie arrived, Theron pushes to get her hired. But she doesn't understand why, and Rocky is nothing but rude to her. At then end of the day Connie let's Rocky have it about his attitude.

Rocky understands the situation even though Connie is at a loss and when things seem to be working out Connie's past come to bite her in the backside and ruin her plans and her future.

Can Rocky get her to figure out the truth before it's to late? Will she survive her past to have the future she has always wanted? Will her parents and her Alpha allow any of it?

Great addition. Looking forward to more in this series and more from this author.

After helping Connie's best friend find her mate Gerri Wilder is now on a mission to find Connie the love she desperately wants and as usual Gerri knows just the man, well, in this case, lion !

Rocky owns and runs the Heavenly Scents bakery but there's no scent sweeter than that of a Mate, something these two loners are about to find out.

Another wonderful addition to the PDA series.

YAY! Connie's getting her mate even though she doesn't know it!! Connie is having a hard time lately and decides to move to town and gets permission from her Alpha. When she gets there she has her apartment now to find a job. Rocky left his pride and now runs a bakery in town and when his employee wins a trip and he needs help with a large order he has to hire Connie. The thing is he knows she's his made and also knows she's a wolf, and a wolf lives in a pack. But Rocky doesn't realize that Connie prefers not to live in the pack.

I love this author and this story doesn't disappoint! Full of great characters and story. My only complaint would be that I wish it was longer. Guess I'll just have to wait for more from this series!

Melanie Hawkins says

Well I am sure everyone fell in love with Connie in the last Silver pack book...I know I did. I loved how they tricked Rocky and Connie into meeting each other. Good ok Connie telling off Rocky. We felt their emotions as the two of them were figuring out what was going on between them.

I did love the drama that came about with the bad guy in the book, but I just wishes there was more too it.

Until Next Time.... Tabi

Connie asked Gerri to help and offered her services as payment. Now Gerri is calling in that favour. Only this task will change Connie's life for the better. That's if all goes to Plan..

Love the PDA Series ♥?

This story is cute, hot, funny and it fits right in as the second story in the Paranormal Dating Agency. Connie was willing to do anything to help her best friend find her mate, but little did Connie know there were forces at work to help her find her mate and you need to read this book to find out how that happens. I recommend this book and look forward to the next PDA story in the series.

What a GREAT installment of the paranormal dating agency.. that does not leave you disappointed! This one is a fast paced, life changing story. It is for the most part lite heart-ed read. Near the end there is a bit of heart stopping action but not overly much.

You will want to read this book in one sitting. So don't start this before bed as it will keep you up till its finished. Parts will make you laugh and others may want to make you gash your teeth. Great job on another must read book!

The Start Of A New Love Can Be Tough Even With Mates. GREAT BOOK!!

Heavenly Scents is Book 2 Of The Silver Streak Pack, part of The Paranormal Dating Agency. When Connie

had contacted Gerri, owner of the Paranormal Dating Agency, to find a love for her friend Cyndi, she never would have guessed Gerri would also find Connie her mate. Heavenly Scents shows us that even when two people/shifters are soulmates, love can begin in a way that is less than ideal. Connie had lived with her pack her whole life but was feeling down, sad, and unfulfilled. She asked her parents and her Alpha for permission to leave and live on her own in town and since they knew she wasn't happy, it was granted. Rocky was a lion who owned and operated Heavenly Scents bakery. Like Connie wanting to be away from her pack, Rocky had left his Pride as soon as he could. He couldn't stand the fact of living in a group. That was the reason when he met Connie and realized she was his mate he had no plans on mating with her. He knew she was a wolf and figured she would be going back to her pack and he couldn't live with a pack. Then she told him she didn't want to live as a part of a pack either, and the rest, as they say, is history! With the blessing of Connie's parents and her Alpha, Connie and Rocky waited a few days until life slowed down and Rocky could take time off from the bakery until they could fully mate.

I was really excited to read this book after reading book 1, and while I enjoyed this story I was disappointed in the editing. There are two peripheral characters named Chad and Cody and in more than one instance the author mixes up their names, it really pulled me out of the story and I had to backtrack and double check who the author was talking about.

I also felt that in comparison to the first book the story was a bit rushed. However, I liked the characters and humor.

REVIEW

Well our Gerri is at it again. She never forgot that crazy she-wolf Connie who had offered herself up to her back in a previous book. Well it's time to pay it forward or back? lol.

Connie doesn't want to belittle her bestfriends happiness but lately she is feeling out of sorts. She feels lost. She wants to move out into town away from the pack. Will Chad her alpha allow it?

Rocky has never lived within a pack. When he reached adulthood him/and his lion decided to make their own way. He loves baking and has a little shop in town. Well he finds himself in a pickle when the young girl who works for him wins a prize and the Alpha of the local wolfpack wants a large order. What to do ...What to do

Well pickup your copy and find out what happens. You won't be disappointed.

Connie's best friend has moved to be with her mate in another pack. Cyndi has started a new life but left Connie behind and she's struggling to find her place in the pack. When it's suggested maybe she needs a change and living in town might just be what she needs she jumps at the chance. Living in town will keep her close to her parents but give her the change she needs to find herself. Connie has found the perfect apartment she just needs to find a job and that seems to land right in her lap working the bakery. Connie finds more than just a job at the bakery as she learns that the owner just happens to be her mate.

I love Connie she was willing to do anything to help out her friend which I think is wonderful. She may be a werewolf but I found her to be very girl next door and paired with a stubborn shapeshifter it just works. They have the instant love chemistry I expected when a matchmaker is using her gift to bring them together. I really enjoyed reading Connie's happy ever after as we get to know her in the first one. The author has done a great job creating a fast-paced steamy story that is hard to put down. I finished it in one sitting because I had to know how it would end.

Tena Barnes says

A sweet little read

Connie just felt like she, well she really didn't know why she felt so angry. When the healer told to move to town and see if that would help her. She thought that was a good ideal and she did. Looking for a job was a little harder than she thought. But Gerri can through for her and got her a temp job. Rocky was a baker and a loner. Connie had a funny feeling and she didn't know what it was. It was funny how the author wrote all the feeling that the characters had.

Ana says

On Cloud Nine.....

Gerri, is up to no good, or rather good again, but this time it's her last client who she can't get out of her mind. She didn't have much interaction with Connie when she begged Gerri to find her BFF mate, but she just couldn't forget the sadness she saw in Connie's eyes. So she hatches a plan to get rid of that sadness and you know how Gerri's plans wind up.....:p

Now that Connie no longer has her BFF to hang with, or to cheer her up, she really feels out of place in the pack and follows some very sage advice and moves into town. If Connie had imagined that moving into town would lift her spirits so, she should have done it sooner. Just one day in town and already her wolf starts to act up at the slightest scent and it's heavenly! To top it all off she gets a job and look out cause the heavenly scent is back and she gets to enjoy it everyday at her new job.

Lion shifter Rocky Silver is a loner, so much so that as soon as he could he left his pride and he has been doing just fine at what he loves, baking. That is why when he realizes that his new employee aside from being his mate is also a wolf, he is heartbroken.....Will Rocky sacrifice his life long ways to be with his mate

whom belongs to a pack, or will he forever deny himself?

Look out Rocky because Gerri will not be daunted!

Niki Driscoll says

The best Matchmaker in the Universe, Gerri Wilder has decided it is time to give Connie her HEA. Connie is feeling lost since she helped hook up her BFF, lonely, sad and kind of jealous she is floundering until someone gives her the pep talk she needs to take control of her life. Moving away from the pack is scary but she has never felt like she belonged, taking control of her life and growing up is just what the matchmaker ordered. Rocky loves his bakery Heavenly Scents, he is a lion living among wolves, likes his solitude and has no idea Gerri Wilder has him in her sights. Another mating dance that will keep you entertained, smiling and laughing as these two work out the kinks. I just love how well the two characters are suited to each other, each thinking they are not normal because they don't deal well with pack or pride dynamics. We can't have things working out without having some kind of hiccup, so adding in some dark and twisted intentions from a previous encounter keep things balanced. Fast paced , easy to read , quick and entertaining. I am truly enjoying the antics of the Paranormal Dating Agency and Gerri Wilder. I look forward to who will be in her sights next.

I volunteered to read this story for my honest opinion.

My Rating: Five Deliciously Cute Stars*****

I'm a big fan of Milly Taiden's Paranormal Dating Agency Series, so when I heard the whispers across Facebook about the possibility of Taiden opening up her PDA World for a Kindle World Collection, I was beyond excited, but I did have reservations. Several authors have syndicated their series and invited other writers to pen stories in their world, some successful and, unfortunately, some not. I'm a dyed in the wool Gerri Wilder/PDA fan and was concerned that another author would not be able to capture the true essence of this series, its world, premise, characters, and all the little details that make it great, but after discovering A.K.Michaels would be one of the participating authors, my doubts were assuaged. I knew if anyone could satisfy my standards for the Paranormal Dating Agency Kindle World Collection, it's Michaels and she totally nailed it - AGAIN! Heavenly Scents is a wonderful addition to the Paranormal Dating Agency Kindle Worlds Collection and another fabulous story from Michaels! But let's talk details!

Heavenly Scents is a well-crafted, fast-paced, easy-to-follow, lighthearted, standalone sexy romp filled to the brim with heart-stopping danger, nail-biting drama, laugh-out-loud humor, sweet romance, and steamy passion. This story is novella length and a relatively quick read but packs quite a punch. The narrative is beautifully written in the third person with multiple perspectives, which isn't at all unusual for Michaels and one of the things I enjoy most about her writing. I love knowing what's going on in the minds of all the major

characters but in this story, the primary points of view are from the two protagonists, lovely, bubbly, selfless, sometimes mischievous, but always sweet wolfshifter Connie Davidson and hot, handsome, introverted lionshifter Rocky Silver. Naturally, we also have a perspective from the world's best matchmaker, Gerri Wilder. Oops, my mistake - Gerri is the galaxy's best matchmaker! lol... The dialogue is smart, snappy, well-executed, at times hilarious, and flows effortlessly. And the characters are an absolute delight! I was immediately smitten with Connie and Rocky. We met Connie in Her Purr-fect Surprise, the first book of the Silver Streak Pack, when she contacted Gerri Wilder and volunteered to indenture herself as Gerri's 'slave' in lieu of payment if the famous matchmaker would find a mate for her best friend Cyndi. As a result, Cyndi is now happily mated and living with her soulmate and his pack, leaving Connie unhappy, lonely, and depressed. Connie has never been particularly comfortable living within the pack and is struggling to adjust to the changes in her life without her best friend. Rocky is the hardworking, determined-to-succeed owner of Heavenly Scents Bakery in the nearby town and has always been a loner, and prefers his privacy over living with a Pride. And make no mistake, Rocky may be a big cat, but he's no pussycat. He's a lean, mean, fighting machine, willing to do whatever it takes to claim and protect what's his, including his mate, even if it means squaring off against a rogue. Oh my! Rocky may not be a wolf, but he's all alpha male and king of the jungle. Okay, maybe not a real jungle, but he's king of the asphalt jungle, which brings me to another thing I love about Michaels' stories - diversity and variety. Sometimes they're dark and suspense-filled with lots of danger, action, and adventure, and sometimes they're cute, humorous and lighthearted, but no matter the genre, world or archetype, they're always original, imaginative, and creative with heartwarming storylines and endearing characters. Did I like this book? No, I LOVED it! Was it perfect? No, but it was perfect for me! There were a few minor boo-boos but nothing that distracted me from the story and certainly didn't affect my enjoyment of this book. Would I recommend it? You bet and I am but only for adult readers, especially ones who enjoy sexy romance filled with cutesy humor, a sprinkling of danger, and a generous measure of heartwarming romance, steamy passion and lots of sweet heat! Will I read this author again? Absolutely! And finally, was I entertained? Completely! Fabulous entertainment and an awesome read!

Twenty-three-year-old shewolf Connie Davidson is sick and tired of her life with the pack, especially now that her best friend Cyndi is happily mated and living with her new mate's pack. She's so lonely and, truth be told, she's also a little envious of Cyndi's happiness. Why can't she have been the one to find love with her mate? After finally admitting her feelings to Caitriona, the pack healer, Connie realizes she needs to stop being an airhead and do what Cyndi always suggested - be sensible. That means making some big changes in her life, and the first would be to move to town, away from the security of her parents and pack. She wants to finally become an independent, self-sufficient adult by getting a job and home of her own. Maybe then, other parts of her life, like happiness, contentment, and possibly even love, would fall into place. But is Connie strong enough to do it on her own? Well, maybe she won't have to! Cue the music and enter Gerri Wilder! Gerri has been unable to forget the lovely, sweet Connie Davidson and knows she'll never be able to rest until she finds a mate for the selfless little shewolf. What does the talented matchmaker have up her sleeve this time? Maybe a little finagling here, a little clandestine interference there, a few favors, a little family help, and a whole lot of determination- oh my! Will Gerri be able to work her magic again? But a wolf and a lion? We'll see!
