Cathy says

Much better than the previous book in this series, has more story and the characters have more depth. Really enjoyed it, even though it was short and the story could have been developed into a longer book. Already purchased the next in the series.

Emma says

Once again a good 'take your brain out' erotic read by Ms Blake. If anything, this offering has the best story development in the series so far. It isn't just about the sex (which is plenty hot when it does happen.) Violet is not a simpering heroine, but gives as good as she gets. About time the Cajun Were's met there match because the other heroines so far have been all about the damsel in distress. A nice twist by the author.

Laurent is determined to awaken her memories and her undying passion before danger steals her away again. I fell in love with Laurent. Violet was a different story. The only reason i stuck it out with her was, #1 i didn't write the story and didn't have much choice. and #2 i realized she was a victim in this whole situation.

Maybe she could persevere. I highly recommend this book. 4 stars.

Rinny Rainwind says

This book was wonderful. It gave such good character development. You felt for the main characters. You were so caught up in the story it was like actually being part of the pack. I must admit, I wasn't sure a Vampire and Werewolf could mate. A must read.

Taisha says

This is the third book in the series and the only one so far that had some plot and thought to the story. I was actually intrigued when Laurent met his long lost love after 200yrs and she had no idea who he was but a mark. This book was again a good rainy day read but I did enjoy it. I am a sap for romance!!

Denise Koopman says

This was a short story and I really did like it and it was a nice follow up to all the other books.

Netanella says

3 1/2 stars.

This third part in the "Stormy Weather" series is much better than the first two, mainly because it has a real plot, as opposed to just hot Cajun sex. It has that, too, and jambalaya as well. A fun, short read.

Natalie Frampton says

Seduced by a Cajun Werewolf is the third in the series.

Laurent is feeling a little down, now that his pack master has a mate he is beginning to miss the love of his life that he lost 200 years ago.

When after staying late at a bar ...he is taken captive by none other than that same woman. Violet has been sent to kill Laurent and has no memory of who he is.

Laurent thought Violet had died in a terrible house fire and has mourned her ever since.

Laurent is a beautifully written character. We really feel the love he has for Violet and the loss that he felt when he thought she had died.

Laurent and his family have to try and get Violet to remember her past so she can join the Deveraux family and be where she belongs.

Joie says

it was good of course when i got it it was free I'm not sure if i liked it enough to have paid for it

Susan says

Laurent thought his only true love had died over 200 years ago, until she shows up to kill him. Cayenne is a vampiress, and a hunter. . . bounty hunter. She is sent to kill Laurent Deveraux, but when she captures him, she finds he is the man she has been dreaming about. Determined to get some answers, she keeps him bound and at her mercy . . . until the tables turn. . .

Wow, a vampiress who can't remember her human past, and a hot sexy werewolf who swears she is his true love who supposedly died 200 years ago. This is quite a the story! A strong, dynamic female character and a frustrated, sexy male werewolf. The tension, drama and seduction kept me reading to the end. Another great story in this Stormy Weather series! One of my favorites in this series.

Felicia says

I think the story was well written, I like the romance in it, and the intrigue was great. You think you know whats going to happen and then your not so sure. I would definatley recommend it to anyone.

Ambulur says

I love this series! totally dig these cajun werewolves!

Shelley Chastagner says

Seduced by a Cajun Werewolf has lots of mystery, action, struggles by all members of the pack to let go of anger and pain. The battle scene at the end leads to a sweet ending. There is still that little mystery that is being added to as well from the first two books. It pokes it's head into the story to let you know that it is still there. There is something more going on behind the scenes. The author has really done a great job of making each story in this series better than the last.

Adult read

Nickcole says

Stars: 3.5

Overall: I want to say that i was IN LOVE with Cayenne's character because she was a beat you first, get your name later kind of woman. The sex between her and Laurent was so damn steamy and sexy which made the book kind of amazing. My only problem with it, like the first one was that things happened WAY TO FAST. I just wanted things to slow down and so that the action could really have a chance to be something bigger than what it was. Other than that i really enjoyed the story and i can't wait to read the next book in the story.

Selena Blake kicks up the heat in the already hot series. **SEDUCED BY A CAJUN WEREWOLF** is a very good book, a quick read that keeps you entertained. I am not a big werewolf fan, but I am enjoying this series, this is book three and by far the best one. And just let me add that any of the Deveraux men can seduce me anytime...sizzling hot alpha males, mmmm.
