**Put A Ring On It** Nya Wampaze  
(Interracial Romance BWWM)

On this fateful evening, she was strolling along the shores of the Indian Ocean waiting for darkness to fall so that she could venture into town and look for sex-starved tourists who paid big bucks for a piece of the Kenyan women.

Prostitution was illegal in Kenya and was culturally a taboo. But what was a young orphaned girl with little education to do when she had to fend for three of her younger siblings? As she watched the waves hit the shores, she noticed a young handsome man staring at her from a distance.

He had a great body and smooth black hair which he let down to his shoulders. The wind blew his hair away from his shoulders and brought it back in perfect harmony. He was well built and had a tattoo on his left arm.
