Enslaved

Evangeline Anderson

Enslaved Evangeline Anderson

Enslaved is book number 14 in the Brides of the Kindred series. It is a plus-length novel of around 168,000 words

Anything for you Mistress...

Thrace S'ver is an unwilling slave. Drugged and bound, he is taken to the Flesh Bazaar and put up for sale to the highest bidder. But this is not the first time Thrace has been on the auction block—he has a past full of horrors he doesn't intend to repeat. Desperate to be free, he swears he'll kill whoever buys him.

Lonnara Trin is the Captain of a merchant ship from the all female planet of Zetta Prime where sexual relations with a male are considered unnatural and wrong. She has no use for males personally, but she needs a big, muscular slave or her business will suffer—Thrace fits the bill.

Soon Mistress and slave are embroiled in a desperate conflict which draws them intimately together. To her surprise, Trin actually begins to have feelings for her slave. And though Thrace swore to be free, he finds himself devoted to his new Mistress. When their differences threaten to tear them apart, Trin tries to grant Thrace his freedom. But she doesn't realize that his heart has already been... Enslaved.

Twin Sisters Rockin' Book Reviews says

Overall Rating: 4.5 Rockin' ★★★★★?

What would happen if a slave and his mistress fell in love? What if they were from two very different worlds, one all female and one all male? Could it really work out? Enslaved book fourteen in the Brides of the Kindred series by Evangeline Anderson, once again brings us to the collectively created world of Kindred Warriors, strong women and bonds created by the Goddess herself.

Continuing the storyline from the last novel, we are thrust into a story that will have you in stitches one moment, in tears the next and yearning for more until the very end. Ms. Anderson's creative mind will blow you away as you read page after page. The visions she develops, both captivates and inspires.

Thrace S'ver is a Havoc. The Havoc long ago were a part of the Kindred race, but renounced their partnership and declared never to bond with any female. The Havoc much like the Kindred are huge males, who protect those they care about. When Thrace was young he was sold as a slave. It was a dark and horrific experience for him. However, after finding himself on the auction block again he vows to kill whoever buys him. Then he meets his new mistress, Trin and unwillingly, everything changes for Thrace.

Lonnara Trin is from Zetta Prime an all female world. She is the captain of her own ship and has found herself in need of a male for business purposes, of course. Trin must acquire a male from the Flesh Bazaar to serve as her slave so that she may sell her goods to a dominating sister world, Yonnie Six. Instantly when she sees Thrace up for auction she is drawn to him. Although she doesn't understand this desire he creates in her, they set out on an adventure that only the Goddess herself could've predicted.

When push comes to shove, Evangeline Anderson delivers time after time. Her masterful art of penmanship has me enthralled as a reader. I can't seem to get enough of her Brides of the Kindred series. This book as well as the rest of her series is a must have in any library. With every word and every page I become more deeply entrenched in her novels. Hoping that the stories will never end. I can't wait to see what happens in the next novel.

Enslaved
Evangeline Anderson

Nickcole says

Stars: 5+

Overall: Trin is in the skin market to get a slave that can back her up when she is making deals with the Yonnettes. When she first sees the men, she passes over the big guy because she doesn't think that she will be able to control him, but the slaver starts to talk to her and before she can decide if she wants to buy him or not the slaver starts to kill with him the pain collar. Trin ends up paying 50,000 credits for him, so that she doesn't have to go to jail. When she first brings him aboard the ship, she is wary as is her crew, but after paying that price she feels that maybe if she treats him like her pet horses that she can tame him. After a week or so of getting to know each other, Trin realizes that he is not like the pets that she has on her planet and plans to free him ,but after she makes the deal at the Demon Eye. While at the Demon Eye she gets

drugged by Two and Thrace comes and saves the day just in the nick of time. After this point, Thrace and Trin make an agreement that she will free him once he feels like his debt is paid to her. They head down to Yonnie Six to make a deal with a Lady, but before that can be done their beliefs and religions are put to the test in more ways than one. Thrace has to find a way to let go of his past and Trin has to find a way to forget everything that has been taught to her and start a new way of thinking. Towards the end there is a lot of disturbing things that happen to Trin, but the Mother of All Life makes Trin see things for what they really are and Thrace and Trin get their HEA. The story also gives you an upcoming look at to what the next couple are going to be about. I'm so excited and I can't wait to read it.

Pros: I just want to start out by saying that I'm so glad the author took us back to Yonnie Six and in a whole new way. It was an exciting journey and a book I wish I could jump into and enjoy with the characters. I really loved how strong and loving of a character that Trin was. Even though her beliefs were different, she tried her hardest to make sure that everyone was safe and taken care of. I really like Thrace and how he tried his hardest not to let his past take over his future. It was crazy to read about his flash backs and to read about what happened to him and then see all the things he did with Trin. Ms. Anderson did not disappoint with this book and I can't wait for the next one.

Cons: I personally didn't have any Cons with this story.

Characters: Trin & Thrace

Page Turner: YES!!

Series Cont: YES!

Recommend: I HIGHLY RECOMMEND THIS BOOK AND SERIES!

Melissa Weeks says

I loved this book another amazing book from Evangeline Anderson she takes us back to Yonnie 6 where the women rule and the men are less than dirt in most places but where adventure takes us surprised me Trin is from zetta prime a sister world to yonnie 6 the difference is they think sex with men is disgusting she is at a slave trade market because in order for the yonites to take her seriously she must have a body slave while providing she come by a merchant who is selling Thrace a havoc a distant cousin to the kindred they are different they don't bond with women because it shortens their life spans and it just something they don't do they don't want to be tied down to any women when Thrace refuses to obey a command the trader who is selling him uses the pain collie a fight happens and 50,000 bucks or I forgot the pay thing but Trin has spent all her crew's money and hers so they must buy power crystals in a dangerous place called the Devils Edge where she desires to go alone her crew didn't trust Thrace so the medical officer holds him at gun point tells him to leave he asks where Trin is and he freaks and saves her they get the crystals and he deduced he will repay his debt That cost her and her crew money he agrees to be her body slave and they go to Yonnie 6 we're she must sell the power crystals to make up for the money lost I tell you this book was great I loved it and I couldn't put it down Will Trin and Thrace become a couple or will her beliefs of nit being penetrated by anyone get in the way will she sell the power crystals and who is the mysterious master x to find out I strongly suggest you buy this book it is worth every penny 5 gold stars
I received this arc for an honest review

Jeanne Johnston says

Meh. BTDT. This is all just kind of running on a loop for awhile. It's kinda sad when the sex gets so predictable, it's not even titillating anymore.

The characters (though once you've got your match, you're mostly relegated to a walk-on with the occasional doughnut or crying baby), the sex, the talking dirty (do the Kindred teach that routine in school? 'cos they all have the same moves and lines), even the lame psychological impediments and improbable situations that always force people to rationalize what they're doing "wrong" are all pretty much the same. "Gee, everything I've known tells me this is wrong, but I guess I have no choice here. I'll do this but it won't count because I wouldn't normally wanna. Reluctance makes it kosher, right?"

Most remarkable to me is that someone could be writing for a living with such a feeble grasp of the English language. I thought by #14, she would have figured out the spellcheck wasn't catching the awful homophones. PAY A PROPER EDITOR, FER CRYIN' OUT LOUD! Spellcheck can't tell if you're using the wrong word and whilst I applaud the increasing use of a thesaurus now and then, an editor could also help you figure out how to tighten things up and quit using the same material over and over. Whether you honestly don't know what you're saying or using some crappy speech recognition app to screw it up for you, many of these stopped being funny ten books ago.

Oddly enough, watching for the goofs has become the most entertaining part of these books. I really should start taking notes because I always think I'll remember later, but they're so ridiculous that my brain won't let me recreate them when it's time to point and mock. There were a couple new doozies here, too. I was getting pretty sick of seeing the old "peeled versus pealed" goof over and over and got a strange thrill when a fresh typo popped up. Maybe you could start writing on your iPhone. My autocorrect is always making me look stupid and it always makes my friends laugh. Then, even if the sex doesn't get better, there will at least be humor.

Gossamerblu says

This is book 14 in the series, so the world author places her characters in is well set, and getting more and more diverse, so in spite of these books being erotic romances, they have much to offer in other aspects too. Personally, I can't wait to see what kind of otherworldly place she'll imagine next.

Here we meet another surprised, unsuspected and unexpected couple coming from different cultures that by rule complicate anything and everything connected to sex. And when we finally think that we saw everything on our planet Earth, Anderson invents a whole new set of twists and kinks, for all x-rated tastes. At least one side has to be reluctant when it comes to newly-forming relationship, and in her books it's often both (or more) sides, so it's a miracle they manage to come together at all.

We also have a proverbial villain that will do his best to complicate lives of the couple, a set of less important bad guys, and in the background, a cavalry consisting of heroes and heroines from the previous books and Goddess in charge.

This all wouldn't be enough if our heroes wouldn't have a goal, and in this case it is to make a deal that will get our heroine out of financial trouble she found herself in after she bought off our hero from ruthless slaver who tried to kill him.

Thrace is a Havoc, a race close to Kindred, but they don't willingly bond and don't take mates. Trin is from Zetta Prime, where there are no men, and relationships between two genders are considered sacrilegious. Thrace has been enslaved and heavily abused before, but he still accepts to be her willing slave until they get back money she paid for him. She needs to earn a lot of money, and fast, but it's not easy, and she needs Thrace's help to do it.

That's where the usual fun part starts. It's impossible not to admire all the ways the pair will be sexually exposed, humiliated, forced to overstep boundaries they have set and simply enjoy the whole craziness around them, no matter what their original convictions and beliefs are. We're also introduced to a whole new set of sex's healing uses and properties.

And all along, while it's impossible not to admire Thrace and his willingness to do anything for the girl he's falling in love with, for the life of me I can't understand what he sees in her, cause she never accepts him willingly, and she's ready to leave him in any given moment, pushing him away throughout the book. And there lies the problem with a number of authors' characters in the series. They're rarely ready to fight for people they supposedly love, they change their intentions to stay or go faster than they can turn around. There's no sense of devotion in them, they give up at the first sign of trouble, and they generally represent people that mothers warn their children about. Seems like without all the bonding stuff those relationships would fall apart in a blink, because those couples would never even be together without peer pressure. Too many flighty women that can't decide what to do, capable of confusing even the best of men (and let's face it, men get confused with far smaller issues).

However, when it comes to this book, Trin wasn't the only irritating (and generally standard unwilling and insecure, superficial woman, who claims to be a fighter but is too dumb to live) thing. I was on the edge of screaming with number of times words "penetrated" and "unpenetrated" were used. If they were part of drinking game, it would turn ugly all too soon.

But, aside of Trin's character flaws and some verbal repeating, it's entertaining, imaginative book that will appeal to romance readers who love their romances hot and dirty and set in the science fiction setting. It's good to see some old characters reappearing and see how they're advancing in their own lives, and the feeling of the incoming threat is enough to make readers want to read the next book in the series.

Three out of five stars. Some stronger and more decisive characters would improve the whole series.

Boundless Book Reviews says

Let me start of by saying you really need to read this as a series. Its not meant to be a stand alone novel. There are too many past characters that if you didn't start from the beginning with Claimed (which is free right now on Kindle!) you are missing a ton of back story! You could read Enslaved on its own but it wouldn't be as fulfilling!

This was yet another highly erotic journey into Mrs Anderson's world of the Kindred! Who I personally fell in love with back at book one, Claimed. What women doesn't love the idea of attractive, huge, emotionally devoted, protective, well endowed, stallion of a lover, who will treat her like she is the center of his world! This is the trait of all bonded Kindred!

"I imagine tasting you lower too. Spreading your Thighs and taking my time, lapping your pussy with my tongue until you moan and pull my hair. I want to feel your juices all over my face... want to feel your quivering against my mouth."

Holly smuttiness! This was one hot erotic read!!! I fell in love with both Thrace and Trin and I was right there with them through this entire story. I was a little worried it was going to get dark delving into Thrace's wounded past, however, I was pleased with how it was presented and the amount. I really liked how Trin battled with herself ever step of the way in her relationship with Thrace. She really struggled with her religious beliefs and I felt horrible for both her and him. Thrace, like any Kindred male no matter what tried to come between them loved Trin so much he would do anything for her even if it meant his own defilement of disfigurement just to protect her.

One of the things I love best about all the Kindred novels, they are so wonderfully written with a fantastic stories that keep you engaged the entire way. You care about all the characters and you are brought into the Kindred world so thoroughly it is tough to put the book down and go to bed! You also dream about 6'8" hunky dream men who always put your needs in front of their own! Um sign me up!

I can not wait for the next novel Kindred 15 Targeted due out this spring!....Sara

Sophia Triad says

Main characters: Thrace S'Ver & Lonnara Trin

Type of Kindred bonding: Havoc and Zetta Prime

Trin buys Thrace as a slave when she needs to visit Yonnie Six for negotiations in order to sell a shipment of Jaxite crystals. In Yonnie Six, a love slave is the perfect accessory for a successful woman. As a result, together they will visit this spiteful planet that we all know and we all love to hate. A planet where men are treated as animals or pleasure objects. Thrace has agreed to accompany Trin as a willing love slave. A great adventure and a great love is about to start.

Thrace, besides being a slave temporarily, has his own problems and issues. First of all, he is Havoc (Havoc are Kindred distant relatives) and as a rule Havocs do not bond. It is their code. Secondly this is the second time he is a slave. He was a love slave of an old discusting man when he was a teenager until he broke free. Thus, it is difficult to bond and it is difficult to trust - no matter how much in love he will be.

On the other hand, Trin is almost certain that she is asexual. She does not like other females as it is the norm at her planet and she is not allowed to have a relationship with a man. She has even taken an oath about it. This is until the primal masculine fragrance of Thrace takes over and then it becomes difficult for her to think how important it is to remain "unpenetrated" and pure. Oh yes, there is a new planet for me to hate: Zetta Prime.

I really hope that both Yonnie Six and Zetta Prime will be blown to pieces in one of the next books!

In the story there is also evil villain Two (and Six's worst enemy) who is back and now he has a new face as Lord X.

Plus, we also see a lot of the main characters of the previous books and we learn about their life nowadays.

Trin's completely stupid behaviour made me wanna stop reading towards the end and there were also moments where the book was painful to read (I am just saying that I simply cannot tolerate cruelty to animals and I just leave it there.)

Anyway I am glad I finished the book. Thrace is either in chains or wearing collar in most of the book and he is willingly doing this for Trin. And I seriously love willing men in chains ;)

Finally, I would like to add that most of the books in Kindred Brides series have a hidden message. The moral of this particular story is: A man who was repeatedly raped when he was a teenager, is not less of a man...

Raine says

I didn't like this book as much as the others. I was a little confused about the future.

Rosebud says

Captain Lonnara Trin needs a male body slave if she wants to deal with the inhabitants of Yonnie Six, a matrilineal planet of women who believe men should be submissive in all ways to women. As a diplomat for the Zetta Prime ruling body and a merchant, her successful negotiations require her to conform to their norms so if a body slave is what she needs, a body slave is what she'll get.... for appearances only as she has taken a sacred holy vow to remain an unpenetrated female. A vow that if broken will bring disgrace to herself and her family and severe consequences.

Thrace S'ver can't believe he's been captured by slavers who intend to auction him off. As a Havoc, a genetic cousin of the Kindred, he could escape if not for the fact he is fitted with a pain collar. Regardless, whoever buys him will be in for a shock as he plans to kill them at the first opportunity as he will never willingly consent to being a slave ever.

How far the mighty have fallen when Thrace is purchased by Trin and he feels he should give her equal value for his purchase price by playing the role of her body slave while she completes her negotiations on Yonnie Six. Mistress and slave will need to put on a very convincing act to convince the Mistresses that all is as it seems as Trin's very future is at stake.

* * *

This is the 14th installment in the "Brides Of The Kindred" series where the action returns to *Yonnie Six*, a femdom type hierarchy planet. Not a standalone installment as the series builds off the previous installments so important facts and history would be lost if you haven't read and/or followed the series to this point.

I have enjoyed this series and the many many different Kindred stories but this one isn't a favorite. I will probably be in the minority in this but for me it is heavy on the smut and light on plot premise/story line. It does touch on multiple controversial morality issues and ethics but for the most part the story features way too many adult content driven intimacy scenes between the main characters. It became a bet on how soon until they'd next do the nasty versus trying to determine any mystery/suspense slanted conclusion.

As for the plot and story line itself. I tried to think of an analogy that made sense and the closest I could come to was this resembled an erotica sci-fi version of *Alice In Wonderland*. From the dream-sphere fountain, shromp, passion berries, blood stone phallus, Pompa, B'Rugh, Lady Tam-tam, Lord X, etc. it was just way too over the top and fanciful to be taken seriously. This will appeal to some but not me.

I did appreciate seeing the various characters from previous series make cameo appearances. It's always a plus for me to integrate the old and new to provide series continuity. Of course some of the returning characters not so much but you have to take the good, bad, and evil characters in stride as life mimics the blending of those who bring pleasure to one's life and those who you'd rather just communicate on a yearly basis via Christmas Card exchanges.

Lastly, show don't tell. I want to be pulled into a story by making the different scenes come alive through action, sensory descriptions, feelings, and vivid imagery versus utilizing dialogue to accomplish the same. Enough with the "I'm gonna _____" and all that. Dirty talk is one thing but a running commentary of events..... so not a fan. I've noticed this trend in the last several installments but hadn't thought to mention it until now. Success for me is when I can picture the story in my mind and embellish on it versus having it presented as fact accomplished. An example: what would a six legged, two heart, four sex organ animal look

like? And why should I care? Vague non-spoiler reference to think about. :D

I'm enjoying the series as a whole and the Kindred men. After all. The bigger they are, the harder they fall (for Earth women) right. :D

Robin says

Every time a new Brides of The Kindred book is released I wonder what wonderful new worlds Evangeline Anderson will take us to and which awesome, strange or scary ones we will be revisiting. What is totally miraculous is infinite amount of creativity and imagination the author possesses and pours into each book, so that each story is totally unique and mind blowing.

So welcome back to the world of the Kindred, book 14 focuses on Thrace, a Havoc, which is a cousin of the Kindred, and Trin, half earthling/half Zetta Prime (extreme feminist offshoot of the Yonnie 6 planet).

Thrace is a Havoc, they do not believe in bonding to a female as it will shorten their long lifespan. At 16 he had been captured and bought by an evil sadistic male who killed. Then he repeatedly raped Thrace while trying to force his devotion. He finally escapes years later.

Thrace has been living as a free man now for many years a successful, proud Captain of his own space vessel. Still the nightmares he has lived through have never dimmed.

Despite his history Thrace has grown into a good man, strong, loyal and trustworthy, all alpha but still empathetic and sensitive to others needs. A gorgeous male, seven feet of honed muscle with blue/black hair and hypnotizing ice blue eyes.

Trin is a strong female who is captain of her own space ship, she is an interplanetary trader who appears intelligent and fearless, willing to put herself at risk for the sake of her crew. She is from a planet that views men as little more than animals, too low to even keep as slaves like they do on the female run Yonnie six. Above all she prides herself on being one of the unpenetrated, not even desiring to bond to another female as most do on her planet. She has been raised in an all female cult, that brainwashes their children against any sexual encounters with men as a crime against their Goddess of Judgement.

Needing a male slave to help her image while trading with the Yonnites, Trin sees Thrace in danger at the auction and ends up rescuing him.

Despite the severe circumstances Thrace is unable to deny his attraction to Trin. She is not so easy to be convinced although she knows there is something there. How do two people who are never supposed to come together find a way to overcome the biggest challenges of their lives as well as overcome prejudices ingrained in them from childhood?

The plot takes on many twists and turns with wild adventures in many different fantastical places, lots of suspense, tension and excitement. There is the return of the evil Two (Enhanced), new characters such as the voyeuristic Lady TamTam on Yonnie Six and many more unexpected surprises. Celebrations involving dream bubbles (I want them at my next party), and lots of major hot sexy romance.

The book deserves a 10 on my "O" scale of hotness. The sex scenes are plentiful, mesmerizing and really woven well into the story.

In my opinion nobody writes romantic erotica like Evangeline Anderson. From the sexy hot language to

blushing behind my iPad love scenes the author truly knows her female readers. Above all the story is about love, loyalty and the "humanlike" spirit. Thrace's love and devotion for Trin despite so many odds against them melted my heart.

This is an awesome story that also paves the way for several other plots and storylines to come. Also love how the characters from the other books play important and sizable roles, again making this more like a saga than just a series.

If you haven't read any of this series start with book one, Claimed. Read in order enjoy the awesome journey. Before you know it you'll be like me impatiently awaiting book 15.

Jessie Potts says

So I really enjoyed it (there needs to be more male slave/servant books) but the heroine was just sooooo naive I mean really....

Firstpella says

2.5

2,500 kindle pages too long.

Nothing original vs all other stories in this series but I liked the H more than most.

The h drove me butt-f crazy with her religious stupidity...but that was the point.

Can always count on Anderson for light smexy smex in the alien world.

Sarah says

This book got very mixed reviews but I absolutely loved it. This is first book where both H/h are aliens. Thrace is Havoc and Trin is Zetta Prime both dislike the other sex. Havoc are part kindred and they believe not to bond themselves to a female which shortens his life to hers. Trin is a Zetta Prime daughter which are originally from Yonnie Six but they have no contact or use for males and have belief that it will send them to hell if they are penetrated by a male. So both have major hang ups but surprisingly work really well together. Have a serious hate for Yonnie Six but thankfully this has a lot less male torture in it. Great HEA.

Robyn says

I keep reading these. I'm not entirely sure why.

Marta Cox says

I absolutely adore this series and it was with great delight that I spotted the author offering copies to fans to

read for free! This is a series of books that I've had such fun reading and yes I'm the first to admit that the reader needs to suspend all sense of belief when devouring these stories but it's sci fi romance so for me anything goes !

This the fourteenth book picks up where the previous story Cursed left off with a Havoc warrior (distant cousin to the Kindred) being offered up for auction as a slave. Thrace the very unwilling slave has spent years putting his unpleasant past behind him and is determed to kill whoever buys him and reclaim hs freedom. What he hadn't expected was to be bought by Trin, an honourable young woman who simply wants hm as back up. When Trin finds herself in danger Thrace rescues her but their ordeals are only just beginning and pretty soon being a slave to Trin is not the worst thing that could happen to Thrace because losing her is far far worse!

This is a series that I find totally irresistible with it's take charge heroes who are often damaged and heroines who are perhaps not always kickass but nevertheless tie these big strong guys up in knots. This story had the sexy scenes that this author excels at although I'm not such a huge fan of the whole voyeur vibe that these characters seem to have to go through . Ms Anderson gives us a heroine with strong moral fibre and it's an unusual twist as she struggles with coming to terms with the possibilities of a male in her life. Thrace has an awful lot of baggage to deal with but his developing feelings for Trin make it very hard for him to despise his mistress and indeed he quickly comes to realise that she has in many respects been brain washed by the society she has grown up in. I think this is where a much darker tone takes over the story and there will be some readers perhaps uncomfortable wth certan events . No spoilers here but it's quite difficult to read without feeling emotional but happily the Kindred always support each other.

So the world building as usual is amazing and the authors imagination just keeps stretching until it clearly knows no bounds. Whether it's items of clothing, physical descriptions or unusual food stuffs there's always something new to picture in the readers minds eye. New worlds , amazing adventures and yes very erotic encounters , add in an old enemy of the Kindred and this series just does not run out of steam. I thoroughly enjoy these books and cannot wait to find out what will happen next.

I was gifted a copy of this in exchange for an honest review

Tamara Rose Blodgett says

Great like usual, the macaroni and cheese of reading~

Tiffany says

This was a different spin on BoK. The H is Havoc-descended from Kindred who do not bond or dream share with mates. The h is from Zetta prime where there is no male interaction. Both are forced together as mistress and slave on Yonnie Six. They have to pretend to be in love, they are forced to do things way out of character and comfort, but learn to trust each other. They also learn pleasure from having a mate and male to take care of you. Two is the big bad from Enhanced,cloned as Lord X. The prophesy and Goddess are pretty cryptic,so I have to stay tuned for Targeted with the Verrak assassin and the Earth school teacher.

NhaughtyV says Damn the Zon Save the Reviews says

Fans of this series will not be disappointed in the 14th installment!! All the elements that we have grown to luv are here and if you are a newbie to this one, be sure to start from the beginning with Claimed or you may be a wee bit lost.

Enslaved introduces us to Thrace, a Havoc aka cousin form of Kindred, and Trin, a trader and Captain of her own space craft from Zetta Prime, an all female clan who have nothing to do with men. Trin finds herself in need of a body slave in order to trade with the females of Yonnie Six, and goes to the flesh market to procure one. Don't want to spoil anything, so you'll have to read the story to see how she ends up buying Thrace. Thrace and Trin face several trials during their journey to Yonnie Six, which brings them closer together as a couple, as well as elements that drive them apart.

I highly recommend this series!!!

Julie Bryan says

Please make the woman stronger!

These stories could be so good. But the women end up being annoying and weak, and ruin the plot for me. Trin was raised in a society that thought men were no more than animals and wanted nothing to do with them. But she needed a slave to trade with a woman dominated society, so she went to a slave auction. While there she found Thrace, and in the process he nearly dies from a pain collar and she buys him, using all her money in order to keep her from jail and him alive. After that it all goes downhill. Somehow, this woman who is a captain of her own crew of women, just isn't strong enough to break away from her religion, even though she'd been living away from it for years. I found this hard to believe. Other things begin to happen and she just ends up looking weak and stupid in my eyes.

I didn't give it one star because I did finish it, and it held my interest for the most part. I may not read any more of this series though...

Sci-fi Reader says

I love, love Evageline Anderson and her other books but I hated this one! I felt like there was zero spark between Trin and Thrace. She buys him as a slave and then BOOM he's just magically in love with her? There was really no build up of them getting to know each other.

The unpenetrated and weird religious stuff was just too much.

I felt like it only got good in the end when some of the old characteres came back.
