## **Until We Collide** Charlotte Fallowfield

*What do you do when the guy you're in love with is seeing someone else?*

That's the dilemma facing Paige Taylor. All of her life she's only ever had eyes for the gorgeous Alec Wright, but despite their undeniable chemistry, their timing has always been off. Fast approaching her thirtieth birthday, Paige despairs of ever finding love and a happy ever after. Her best friend Poppie tells her that she can either watch life pass her by, or grab it with both hands. She convinces Paige to throw herself back into the dating pool, or she could be waiting for Alec forever.

What Paige didn't expect was the catalogue of dating disasters to follow. A neck brace, jelly fish, stitches, flashing and an encounter with a gorilla were some of the most memorable. Despite some downright hilarious, humiliating and cringe worthy dates, her biological clock is ticking and Paige is determined to keep trying until she finds *the one*.

Was Alec Wright always her Mr. Right, or is he still out there waiting to be found?

*Join Paige in her quest to find the ultimate prize. Love.*

## From Reader Review Until We Collide for online ebook

### ItaPixie says

This book made me laugh out loud, there is never a dull moment with our heroine.

Paige Taylor is a funny and sweet girl, not so lucky with the men she meets, this is a white lie because she met her soulmate, Alec, long ago but it wasn't the right moment for them to begin a romantic relationship because they were just about to start their adult lives, so they choose to part their ways with a promise "Until We Collide".

We follow Paige during her journey towards her Prince Charming through disastrous dates and awful boyfriends always believing that Fate will let her find her real happiness sooner or later.

This was the first time I've read this author and I've really liked this rom com, can't wait to read more amazing stories written by Charlotte Fallowfield.

---

### Gitte TotallyBookedBlog says

#### 4.5 feelgood stars!

*"I'm Paige calamity Taylor. You've seen me in action. I'm the girl who gets sprayed with cow poo, falls in rivers and get coated in mud, and snorts water all over her date."*

Oh we do love our romantic comedies but sadly they're few and far between so when this one landed on our kindles we jumped straight in. It was just what we needed and let us tell you that this is Brit Rom Com at its finest as we laughed and swooned in equal measure. It's a calamity of dating disasters for our heroine when really true love has already reared its romantic head.

*"So, this is it? We're over before we even started?"*

*"I don't think we'll ever be over, Paige Taylor."*

Timing is everything and in Until We Collide it's agonisingly apparent that Paige and Alec need and should to be together but circumstances, other people and life in general always seem to get in the way. Don't get us wrong whilst we were rooting for these two to get together we had so much fun on the journey experiencing the dating disasters of Paige in the meantime.

*"We need to get you back on the horse."*

*"I was never actually on the horse, Poppie. I never rode him. We never even made it out of the stable."*

Oh and her Bessie mate Poppie stole our hearts – these two best friends had a brilliant and beautiful friendship and had us in stitches at their banter and escapades. For some the number 13 is an unlucky number but in this book 13 is nothing but magic. You'll find out why when you pick it up.

**'We were never going to collide. It was a stupid dream by two young kids who didn't know that life didn't always work out the way they wanted it to.'**

Paige quickly became one of our favourite heroines – she literally stole our hearts. Sure we wanted to grab her and say just go for it, go get Alec, can't you see he loves you!!! But.....she was so endearingly oblivious in her romance quest and teamed with her innocence, her severe case of bad luck as well as her huge heart; we fell for her charm!

*"Are you frigid? Vagijawsitis?"*

*"What the hell is vagijawsitis?"*

*"When your piranha vagina is so tight, it bites off his head. It puts a lot of women and men off, so I hear."*

*"That's not a real word, surely?"*

*"It's vagi-something. I have no idea, I'm all about cock, darling. So what's the problem?"*

There are copious laugh out loud moments in this book, too many to count. It was a breath of fresh air and felt like a cheeky indulgence. We loved every single minute which took us around the world and back again, falling in love with Paige and Alec as well as the rest of the characters. Sure we would have loved more 'afters' as it was a long time coming and then a mere snapshot, but the epilogue had us in fits of laughter. What a hilarious way to end it. Definitely recommend Until We Collide and here's to hoping we get more from this Author and the characters we met.

---

## Sabrina says

*"We were never going to collide. It was a stupid dream by two young kids who didn't know that life didn't always work out the way they wanted it to."*

Two people destined to be together, but who don't have the luck to actually be together. That's what Alec and Paige are. Since they were teens they have had a strong chemistry between them, but it seems that life just isn't on their side since whenever one of them is available, the other one isn't. But can these two down-on-their-luck lovers finally have a change of luck and get their love?

I don't think I have laughed so hard with a book the way I laughed with this one. Paige had to be one of the unluckiest women in the universe and it was hilarious some of the things she got herself into. I really liked how the author added a lot of humor but it wasn't done in a over the top way that seemed fake or just too ridiculous to be funny. I wonder if Ms. Fallowfield was a comedian in another life, because it's certainly plausible.

Even if you aren't the type to sit back and enjoy a fun, humorous kind of book I think this is still a story that

you should give a chance. And if you are looking for that type of book than you're still in for a big surprise with how much you will end up loving this story.

A fateful Collision of 5 well deserved Stars!

OMG! OMFG! OH.MY.GAAAAAWD! I LOVED this book, like, completely 110% fell in love with it! I want to have this books babies!! Ya know when you start a book and you get -THAT- feeling, the one that's like "Oh, yeah! This is going to be really good."!?! Well, I was wrong. It was freaking AMAZING!! SO AMAZING! I devoured it in only a couple hours, amazing. Ok, now that I've let my inner manic book nerd fan-girling self out...I'll try to contain it...albeit briefly ;)

Until We Collide. Wow! Just, wow! A brilliant Rom-Com debut from Charlotte Fallowfield. I swear the woman could write a spellbinding story about a paper bag that would be captivating. Talented it what she is. There wasn't a single thing I didn't love about this book. From the super fun cover to the synopsis, I found myself being sucked in to the story with every flip of the page. Ever changing, never losing pace. Completely captivated.

I laughed a lot...cuz, duh. It's a romantic comedy!  
I cried...out of frustration for Paige. AAAAAH!!!!  
I swooned...Hello, Alec!!!!  
Had my heart broken a few times...damn you, Alec!  
BUT...I couldn't wipe the smile off my face.

Unlike Paige Taylor, there aren't any calamities in regard to this story-line. Paige has that one under control \*LOL\* The girl is a "walking disaster", especially when it comes to the studly Alec Wright. I prefer to call him Mr. wRIGHT. He's the one who always "gets away" as the timing never seems to be "right" when they collide. Ah, yes! The moment when the title clicks!!! Loooooove!

Paige, she's one of the best heroines I've read in a long time. Her character is brutally realistic and that's what I love so much about her. Is it ok to have a fictional BFF?! Cuz, she'd be mine. So klutzy and self conscious when it comes to her appearance. Tall, blonde and curvy. A total knock out! Hell, she's essentially me minus the knock out part lol.

Until We Collide takes place over 13...well, 14 years.  
BUT  
THIRTEEN YEARS of longing and regret.

THIRTEEN YEARS of hilarious dating disasters.  
THIRTEEN YEARS of trying to get over her soulmate.  
THIRTEEN YEARS of never colliding at the right time.  
THIRTEEN YEARS of good luck never being a friend of hers.

Thirteen bloody years!

He loved her since he first laid eyes on her. He let her go so he wouldn't be the reason she stayed and later came to resent him. Boy, he's one stupid mother f\*\*\*\*\*! But I can't help but love him! He has serious swoon factor. He's willing to play the fate game. If they were truly meant to be, that one day, they'd collide. But until then... THIRTEEN YEARS!!!!!!

Full circle. Ending where it began and OMG it was perfect!!!  
Oh, Hello, Hangover! I'm seriously craving more! FALLOWFIELD!! I NEED MORE!

*"We hadn't just collided, we merged. I had no idea anymore where I ended and he began, and I never wanted to find out."*

<3 <3 <3 <3 <3 \*sighhhhhhhhhhhhhhhhhhh\* <3 <3 <3 <3 <3

## Elle's Book Blog says

**Release Date:** February 21, 2016

**Genre:** Chick Lit

**Actual Rating:** 2 stars

Unfortunately, this book didn't work for me. While I love the way the author builds her characters up and makes them fun, this book was missing something. I think it's the fact that I was unable to relate to the heroine for starters. There simply wasn't enough background for her and I had trouble connecting with her. Even more, there was so much time passed in between chapters and I didn't feel like I was able to be a part of the journey. How after so many years and so many "chance" meetings did these two NOT see how much they loved each other? It came off as unrealistic and downright frustrating. Finally, there was way too much going on in such a short book. Had the author taken the time and made this a full length novel and built the characters up more then I would have liked it.

While this book didn't personally work for me, I will tell you that I love the Dilbury Village series (also by the author). I certainly plan to continue the novels in that series as they release and am quite frankly really excited to dive back in.

\*\*\*\*\*FIVE STARS\*\*\*\*\*

{ARC Generously Provided by Author}

**My hands started shaking, my heart was racing, and my stomach fluttered as I drank him in. I was going to be in love with this man until I took my last breath, there was no point fighting it.**

I am a really huge Rom/Com lover and consider myself so lucky to have been offered an arc of this lovely book. My biggest regret is that I took so long to get to it but I'm so happy that I finally got the chance to read it. **UNTIL WE COLLIDE** was an utterly delightful story with the most lovable Heroine and beyond swoon worthy Hero! I have found a new author to stalk because after having read this book that I consider perfection, Charlotte Fallowfield has now become an automatic must read for me.

**UNTIL WE COLLIDE** could be categorized as a *friends-to-lovers & second chance romance* story. Although I have to advise that the relationship between Paige and Alec spans over thirteen years. Thirteen years of never being on the same wavelength. Thirteen years of seemingly unrequited love! My heart hurt for these two time and time again.

Paige and Alec meet when they are both members of Shropshire's Young Farmers Club. Paige was only seventeen when she fell hard for the beautiful Alec Wright, who was four years older than her. But at the time he was dating a really horrible girl who took pleasure in being cruel, especially towards Paige. On her senior prom night, Paige's best friend, Poppie, sets her up with someone. To Paige's utter surprise and delight, her mystery date turns out to be Alec. He's finally single and has had a crush on Paige since he first met her at the YFC, even though she is a hopeless clutz who has a tendency to wind up being center stage during highly embarrassing moments. The girl actually had the misfortune of being showered in cow poo during a club competition. But just as things seem to be starting between them a once in a lifetime job opportunity is given to Paige which will take her to a different country, far from London, where Alec is going to be starting his career in photography. So the two end up going their separate ways and what could have been a truly special romance ends before it even had a chance to get started.

Three years later, Paige is back home and on a whim she goes to London to apply for a modeling job. She had run into Alec once while she was visiting her parents and he had suggested that she become a model. Paige ends up getting the job because of her look and also due to the fact that the owner of the agency happens to be a very close friend of Alec's. She soon runs into Alec once again. Three years have passed but the feelings she has for him are still strong, but Alec is moving to New York and has a girlfriend, which totally breaks Paige's heart. They do manage to remain friends and Alec even rents out his London apartment to her and Poppie.

For the next ten years, these two will never get it right. When Paige is single and wanting to give it another go with Alec, he will be involved with another woman, and when Alec is available then Paige isn't. I nearly lost my mind!! You can't help but root for these two to finally get their acts together. Ten years they waste being involved with the wrong people. Living in complete denial. How they both couldn't see that they were perfect for each other, was beyond me!! Paige does get involved with a series of losers and ends up in more than one embarrassing situation, which had me in stitches!! The poor girl never seemed to catch a break.

**UNTIL WE COLLIDE** was a truly enjoyable read, filled with a ton of hilarious moments and has one of the most endearing heroines that will steal your hearts! This book is a hidden treasure that deserves to be shared by all!! I HIGHLY recommend this one!! You will not be disappointed.

**Claire Robinson says**

5 - **"I'm game if you are."** Stars!

*Until We Collide* is definitely a book that needs to come with a disclaimer, as reading it is likely to bring about, long and often uncontrollable bursts of the giggles, so it's a book that is difficult to read illicitly at your desk!

Told from Paige's POV, this is a book of love found, love lost, love spurned, and I loved, loved, *loved* it. Paige has known Alec Wright since their teens, but circumstances, relationships and life in general has conspired to ensure that over the years whenever one is available to potentially pursue a relationship, the other isn't.

***Every single time I thought I was over him, I saw him again and it just reminded me how much I wasn't.***

Paige is without doubt the clumsiest, unluckiest woman I have ever had the pleasure of reading about, if there is a cow-pat near she will get covered in it, a fence in the way, she will fall over it, or a roof in the vicinity she's likely to fall off of it. Her luck with men is just as bad and the adventures she had, and the situations she managed to get herself into, in the telling of her and Alec's story and eventual getting together was just unapologetically down-to-earth in characterization, heart-wrenching in emotion and there were parts of the book where the authors writing offered up moments of pure comedy genius.

**"I see a promising future for you."**

This is a story that I could easily see Richard Curtis wanting to make into a film, with likeable characters, laugh out loud antics, and a superbly told story-line that offers up more than a few surprises along the way, it was just a thrill and giggle a minute read from start to finish.

ARC generously provided by the author, and it was my absolute pleasure to provide the above honest review.

### **Dee Montoya says**

**5 BRIGHT STARS\*\*\*\*\***

**MUST READ ALERT! MUST READ ALERT! MUST READ ALERT! MUST READ ALER!**

I had a blast reading *Until We Collide*. A sweet romance that had me laughing from beginning to end. This is the exact kind of book I love to read, one that was designed to make people happy. Full of romance, angst and laughs, *Until We Collide* is a true gem of a read.

Paige Taylor has had feelings for her friend Alec Wright for a long time. Since he gave her, her first kiss, he also took ownership of her heart. Their romance was brief but powerful, life took them in complete opposite directions. Work, relationships, and great distances have made impossible timing for Alec and Paige to be together.

Throughout the years Alec and Paige run into each other. He becomes a very successful fashion photographer and Paige, even if it's by accident becomes a highly sought out model in the same industry. they have some of the same friends, and run in the same circles, and every time they run into each other, the chemistry is always amazing but timing is never on their side. All this creates a pattern that leaves one, or both of them feeling broken hearted.

Paige's best friend Poppie has been witness of her friend's mishaps with love, and in order to finally put an end to all the sad stories, she convinces Paige to start dating and try to move on from Alec.

Paige is a clumsy girl; she always tripping, falling or running into places, people and things. And when it comes to love she is no different. We experience with Paige her hilarious and unbelievable journey as she goes from bad dates, to worse dates ever!!!

Her friendship with Poppie is the one thing throughout the years Paige can always count on. At the end of each heartbreak and each disaster, her friend is there with wine, ice cream, and a way to make her laugh again as Paige tries to forget the love of her life by dating other guys.

Every character in this story was perfection. Of course they all had flaws and that is what makes this book so relatable and easy to read. This author created a story that was truly magical. It wasn't all about the love, it was also about a girl who struggled with body image issues, career decisions, money problems, or bad dates, just like any of us might struggle too on a daily lives. But she always had a laugh at the end of it all. And that was my favorite thing about this book.

If you are looking for a perfectly executed romantic comedy, that has angst, love and amazing characters, look no further, **THIS IS THE BOOK YOU!** I promise is not an overly sweet, silly romance. If I had read this book when it first came out, it would had most definitely made my top ten favorite list of the year. I'm really looking forward reading more books from this author in the future.

---

## Cyndi says

This was a British RomCom. Lots of fun but often frustrating.

They meet when they are both in their early teens. After a few near misses they finally get one great date and then they each leave to start their careers. They travel, she becomes a model, he a fashion photographer, but still they can't get together. One or the other of them are involved with someone else. Her dating life is hilarious!

Good book!

## Nicola says

Brit rom-coms are seriously flicking my switches at the moment and *Until We Collide* is up there as one of the best I've read: I've found me another author to add to my list of must-reads. Because when you chortle, snort and giggle your way through a book as I did here, then you just *know* you've struck gold.

When seventeen year-old Paige Taylor meets twenty-one year-old Alec Wright, neither have any idea how their attraction to one another will affect the rest of their lives. But circumstances end their budding relationship before it's even begun and over the years the world conspires to keep them apart with jobs, countries, boyfriends, girlfriends and misunderstandings getting in the way when one, the other or both are available.

*"I'm kind of old fashioned and superstitious. I think if two people are meant to be together, they'll find their way back to each other, no matter what."*

I adored this couple; to take two characters whose career paths generally come with heavy stereotype and knock that on its head, creating loveable, grounded and relatable individuals impressed me hugely. Clumsy, independent and unlucky in love, Paige was wonderful and Alec had my little heart sighing with happiness with his thoughtful honesty and sweet gestures.

*"...if I was lucky enough to be dating you right now, I'd never let you go, Paige Taylor."*

Add in fantastic secondary characters and perfectly timed humour that isn't overdone, and Charlotte Fallowfield has nailed it as far as I'm concerned. Needless to say *Until We Collide* comes with a big fat recommendation from me.

---

## Lisa (Two Bookish Brits) says

Well HOLY CRAP that was incredible.

I legit lost count at the amount of times I laughed so hard that I literally cried. I've never laughed so much at a book, wow.

Paige and Alec's story has been amazing to read. Through all the ups and downs they encounter they prove true love conquers everything. With her best friend by her side things are absolutely interesting for Paige, it felt like she could never catch a brake, always unlucky.

Charlotte Fallowfield never fails to amaze me with her writing and I absolutely LOVED that she did this rom com. If you're looking for a laugh this is definitely the book for you.

---
