**Perijee and Me** Ross Montgomery

***Perijee and Me* is a hilarious and touching story about an unusual friendship, a heart-stopping adventure, and the power of kindness when you're faced with an alien invasion. If *E.T. the Extra Terrestrial* is still "right here" in your heart, then you're sure to fall hard for the misunderstood Perijee and the one girl who's desperate to save him.**

Caitlin is the only young person living on Middle Island. On the first day of vacation, she finds a tiny alien on the beach. Caitlin becomes close to her secret friend, whom she names Perijee, teaching him everything about her world and treating him like a brother.

There's only one problem: Perijee won't stop growing. And growing . . . Caitlin will have to convince the adults around her—and Perijee himself—that the creature they see as a terrifying monster is anything but.

## From Reader Review Perijee and Me for online ebook

### Laiceps says

This book is pure genius.

It's very much Caitlin's story, told through the eyes of a ten year old girl, with all her naivety and innocence. She often get's the wrong end of the stick and is so positive all the time. All she wants is a friend, you can't not love her.

Perijee was the cutest wee thing- at first, hahahahahahaha.

Yes, you should read this book, it's flippin' hilarious. I laughed out loud so many times- the humour is so clever. Mr Montgomery's comic timing is spot on.

I'd reccommend this to anyone of any age.

I was introduced to Perijee and Me at the Faber blogger event last Saturday and I had to read it immediately.

Caitlin broke my heart. She's ten-years-old and lives on Middle Island with just her mum who spends all day working on her computer, and when he's not away on book tour, her dad and her only friend is Frank who takes her to the mainland to school everyday. They're both super successful scientists and they just can't understand how Caitlin struggles to grasp reading and writing; her dyslexia isn't understood and so she hides it. I just wanted to wrap her up in a big, warm hug.

Finding Perijee and teaching him all she can about being a human captures all of her energy and Caitlin finally feels like she has a friend, someone who loves and understands her completely. I loved seeing them go their adventure, finding friendship and mischief along the way. I loved how wonderfully naïve and innocent Caitlin is and the way that contrasted with Fi – I would love to know Fi's story! They make a brilliant pair and I'm very glad they found each other.

Perijee and Me is a sweet, life-affirming adventure about friendship, family and home.

This is charming. The narrator has poor social skills and the author somehow manages to clue us all in on what is really going on despite the narrators (endearing) misunderstandings. There is a certain thing this book has... It's the thing where the unsaid things or the unseen moments are hinted at and the reader has to fill in the blanks on their own which makes it all the more hilarious to read. Like Caitlin crashing the car or stealing the boat. Those type of things. It's a pleasure to read. It reminds me of something that I might write only so

far there aren't any zombies and no bathroom breaks.

Also, my daughter and i both drew a picture of Caitlin on the beach holding the pineapple surrounded by dead jellyfish. We just couldn't resist the visual.

It's like Lilo and Stitch meets ET meets The Iron Man, with added quirky jokes. A great fun, funny middle grade read filled with OTT imagination. Kids will Love this book.

### **Heidi says**

Really enjoyed the first third of the book where Caitlin and Perijee meet and become friends. But once Caitlin and her mother are taken by the government and placed in a camp, it just became odd and unbelievable. Just not my cup of tea I guess. I didn't find it particularly funny (cults that will sacrifice anyone and anything to a monster they know nothing about?, people panicking every which way and behaving like idiots? and Caitlin herself making some really poor choices?). I enjoyed the friendship between Caitlin and Perijee, but that's about it.

My 11yr daughter bought this book on holiday and really enjoyed it so I thought I'd give it a go. A lovely read about friendship, family and a misunderstood alien who is super cute!

Veered off into directions I wasn't expecting from the cover or the synopsis. Loved how it started off but wasn't sure about where it went sadly. 2.5 to 3 maybe.

Perijee and Me is by far the best novel that I have read this year so far. The early chapters brought to mind the likes of Lilo and Stitch and ET, focusing a lonely girl who befriends a shapeshifting alien that she finds on the beach. Themes of friendship, family and the meaning of home run throughout the story and some of the book's most touching scenes centre around Caitlin trying her hardest to teach Perijee right from wrong.

While these opening chapters felt a little familiar, the novel quickly changed in tone after Perijee began to grow. The story gained the feel of a monster movie, with the world falling into utter chaos as the "Monster" Perijee has become attacks the capital city. The world building here is stunning: visual, vibrantly imaginative and presented to the reader with no need for exposition. Caitlin's focus is always on saving her best friend

and the exciting new world of looted supermarkets and crazy cults just blossoms around her.

While the story can be a little scary in places, it does maintain an incredibly positive tone. This is mostly down to Caitlin's infectious charm. Her outlook is always positive and somewhat naive, and her devout loyalty to her friends just makes her instantly likable. I love how Caitlin is never swayed by the negativity of people around her. She does what she knows is right, even when adults tell her otherwise. Montgomery does an excellent job of making her voice sound like a realistic ten year old and is peppered with amusing anecdotes and mini-adventures.

I also loved how fleshed out the rest of the cast were. Through their interactions with Caitlin, the reader gains a deep understanding of the motivations of her parents, Fi and Frank. Being ten, Caitlin frequently misunderstands these subtitles, particularly where her father is concerned, but they're there like treasures for the reader to find. I love that Montgomery doesn't feel the need to spoonfeed his audience. He never tells the reader how to feel and the character motivations are always completely understandable, even if we might not agree with them.

I really can't recommend this book more. It's a must buy for any middle grader. I can't wait to read more of this author's work!

The first time I read this book, I feel like it is similar to the cartoon Lilo & Stitch where a child meet an alien and the alien is not dangerous but cute. Then, as the story goes, I don't know what to expect because I don't quite enjoyed it. Yes, there was some funny moments but still couldn't make me want to enjoyed reading this book. I love the cover though...

A good read told from the perspective of a 10 year old girl. So expect a narrator that is a bit naive (as 10 years old wont to be) and also very endearing.

The friendships are golden. The adventures are fun, funny and crazy. The plot can even fit inside a thriller or

science fiction book.

Recommend me any other MG books?

Honestly I am not sure I can adequately describe how much I loved Perijee and Me. I was so head-over-heals that I made myself pace reading the book, just so I would have a few days longer to enjoy it. I could have easily (very easily) read Perijee and Me in one sitting but knowing that this story was waiting for me was like a Perijee light beacon (this will make sense when you read the story yourself, something strongly recommend).

Caitlin's narration is so endearing. I was utterly smitten from the start and something I loved even more what that it had 'grown-up' moments. Little parts that work for older readers and adults reading the book, such as Caitlin's observations or her not being allowed to repeat what Frank actually said about Perijee. I could well imagine what Frank probably said. ;) Plus Caitlin herself is just so sweet.

Perijee and Me surprised me, exceeding all expectations. It is heart-warming, enchanting and beautifully written.

INCREDIBLE BOOK. I read it myself earlier this year and I'm now reading it my class. The children love it! They are so engaged and don't want me to stop reading!

Well, this was surprisingly delightful! I knew the basic premise of it going in, but I didn't expect the additional elements that would make this story so fun to read.
