Most of this book is empty content.

Most of this is empty content. Bought for my wife but half the pages are ads for other stuff. .

Maria Menduni says

I wasn't looking for a masterpiece, that's for sure. I was just looking for an easy-to-read book in Norwegian to practice the language and slowly expand my vocabulary, so a book aimed at very young children was the obvious choice.

Thing is... there is no point in this story. No progress towards something, no moral. Nothing. Which I guess is fine considering my goal in the first place, but I probably could've found pretty much the same content on Google.

This would've been a great project, if only it actually had a story.

Jana says

Compared to the other children's book I read, The Blue Sky, this is definitely more aimed at younger readers (maybe even more parents reading the first books with their children). The story itself isn't really that exciting, it's essentially what's written on the tin, but it's sweet.

I can imagine this being a nice book for kids (or, in my case, teenagers with the spirit of toddlers) to be introduced to a new language!
