All I Want For Christmas Hazel Gower

Ashlyn

I've moved away from my overprotective brothers and am finally going to do all the things I've always wanted to. The things I couldn't do while my siblings hovered over me all the time. First on my list is a tattoo, and next, I'm going to get Braydon's attention. He lives next door to my grandparents, and I've loved him for years. Only issue is, he's never even given me a second glance. I intend to change that. This Christmas, I'm going to get all I want.

Braydon

Little Ashlyn is all grown up, and is now living next door to me, with her grandparents. Imagine my surprise when she turns up at my tattoo shop, but is it ink she really wants, or is she just trying to get my attention? All I know is that she's perfect and I have a feeling if I have even a small taste, I'll never be able to give her up. I know all I want for Christmas is my new neighbor.

No review. I may be too old to appreciate the romance of this story.

Yesenia Gonzalez says

Great story and its Christmas themed!

Ashlyn is grown-up and finally moving away from home she gets to let loose without her brothers being around, So what does she do? she goes after the man who she wanted since she was young, now he is older and has a tattoo shop. Braydon knew he wanted her as soon as he saw her but felt he was too old, little did he know she wants him as he wants her. Great short story with an alpha who becomes possessive.

It went a little like this:

There was a bit of a story chucked in between it all and it wasn't bad. I liked this short little romance it hit the spot.

A very nice Christmas story. It's short but I liked it from the first chapter to the epilogue.

The story is about Braydon, 32 and Ashlyn, 18.

Ashlyn has a big crush on Braydon for years. Since he moved in next door to her grandparents' house. He didn't see her that way until she moved in to her grandparents for college.

She planned and made her move to gain his attention. What she didn't know, she already had his attention for weeks. They had a great night together and started to get to know each other. They fell in love hard.

There's a good epilogue with marriage and babies.

This book was hot :) I loved Ashlyn and Braydon as a couple and even though she was young, she was determined and knew what she wanted. Some people may have thought she didn't know what she wanted, but she proved that wrong. She wanted to be Braydon's :) You know that in almost every book I've read, the hero is older, has gotten a lot of action with women, so he's experienced. At first, Braydon didn't want to pursue Ashlyn because of her age, so he was stand-offish with her, so it took Ashlyn to actually initiate and seduce him for him to take that step into having sex with her but then hurting her feelings when he ignored her (but he didn't do it to be a jerk, it's that they had sex so many times after her first time and was pissed off he hurt her when he saw her walking in pain). At first, he pissed me off and continued to do it because he didn't want to claim her so it was up to her to show him they could be together. He was afraid people would think he was an old pervert since Ashlyn's grandparents were his neighbors and had known Ashlyn since she was a young child. But what he failed to realize until it was clarified by her grandparents who were hilarious, is they knew that Ashlyn had a crush on him since meeting him and they only asked to take care of her or else (that else being Ashlyn's overprotective older brothers who made appearances in the end that resulted in a fight between the brothers and Braydon; that was resolved quickly even if they all jumped him, he stood standing, giving as good as he got). Ashlyn was strong-willed till the end (loved it when she put her brothers in their place and how quickly they folded, lol) I loved the ending with Ashlyn pregnant and giving birth to two adorable twin boys and finally getting everything she wanted; Braydon's love and a family of her own made with the love of her life <3

-->Hero was 32 years old

-->Heroine was 18 years old

-->Both were faithful to each other

-->No OW or OM on either part

-->No pushing away from each other once they got together

-->They didn't use condoms though it was discussed but then dismissed

-->Beautiful Epilogue :)

Hot

She's his Angel and lives next door to Brandon. He's a 30 something tattooist and the love of this 18 year old who loves Christmas and him. Cute and fun holiday book

I adored Ashlyn and Braydon's Christmas love story. From beginning to end it was perfect for me. My only complaint is that I wanted it to be longer. The epilogue was awesome too.

These two were.....hot as hell. Pretty sure I blushed a couple of times during this book. Not really sure I need to say more because I loved these two.

Ashlyn is a woman who knows that she has always wanted Braydon, since she was young and he moved on next door to her grandparents. I really love that Ashlyn is the aggressor in this book. She just goes after what she wants, which I loved. Braydon is a tattoo artist and has been trying to avoid her when she moves in with her grandparents. Once Ashlyn turns 18, she goes and gets what she wants.

These two were funny, passionate and so in sync. Ashlyn was like a ray of sunshine for Braydon. Together they didn't waste anytime getting what they wanted....I ate this book up, loved it.

3.5 stars. First time reading Hazel Gower. Fairly predictable, cheesy almost, plot arch...but the author can make you feel invested in the MCs unbelievable HEA anyway in the short time you are reading, so that sez a lot! A smexy, over-the-top holiday romp for sure *wink and a smile* for a late evening read after all your presents are wrapped!

The plot is ok ... just it would be better if h didn't giggle all the time...

3.5 NEAR ALPHA STARS

"....all I wanted for Christmas was the curvy little woman who lived next door."

Now this book was going to be a fairly good to great read for me as it's about first love, man bun notwithstanding.

I was set for a stellar steamy read. And for the most part, it was.

With their first encounter in his tattoo parlour and many other hidden delights. This book was HOT!

The hero is older and has loads of experience. His checkered past, including his rebellious years, being the factor in his stand offish behaviour towards the heroine.

He thinks *"Ashlyn was a keeper, but way too young for me. Which pissed me off, because when my thoughts went down that path, I knew eventually she would find a guy closer to her age, and he would get to have everything I longed for with her."*

Therefore, yet again the heroine is the one to initiate their relationship.

I AM SO OVER THIS!

Why can't the guy do the running for a change?

It just seems that, lately all the books I have been reading (Jordan Silver books not included), have had heroes who don't do anything to claim their women and have their women being the ones putting themselves out for the heroes.

Although, he has his moments (with his colleagues and friends) he basically lets her make all the decisions and take all the chances. Even at the end (view spoiler) she was the one telling her family and coming out about their relationship.

I JUST WANTED MORE ALPHA!

Worth a read but not a reread for me.

It's available now on Amazon, but I got it free as a gift.

Safety is perfect with him being faithful, without OM/OW and no pushing away once they are together. No condoms but it was thought about and dismissed.

Ashlyn has had a crush on Braydon since she first met him. The tattooed enigma who lives next door to her grandparents has always peaked her curiosity and now that she is eighteen, she acts on it. Braydon knew who Ashlyn was but when she shows up on his door step he can't stop thinking about her and when Ashlyn makes a move Braydon reacts. Even though Ashlyn knows that she loves Brayden, she has to convince her parents and over protective brothers that he is the man for her.

Cute story, a bit rushed in some places and I thought Ashlyn was a bit too vixen for a virgin. Liked Brayden, he was a complex character wh I would have liked to know more about. Good holiday read.

[she's a virgin (she's 18) and he has had his share of women but to me he didn't come across as a manwhore (he's in his 30's) (hide spoiler)]

S. Horne says

I loved this book. It is a great short simple read that draw in the reader to see how she handles her alpha brothers with the announcement of who she wants to be with. The story is well developed and the characters are well thought out as well. There is no suspense that normally is in Hazel's books but I am loving this short no nonsense story she wrote.

PS... Beer bottles really can't hide things ;)
