I always beg for more.

I always take that hatred out on him...my stepbrother.

For New Year's, Peyton finds herself in Aspen for a vacation with her family instead of hanging out with her college friends back in Florida.

I must admit I started this book with a little apprehension, step siblings relationships always make me doubt, but Cara Dee has a way with words that makes you forget all about your reservations. Peyton is a wonderful character, easy to relate to and, most of all, a strong and independent girl that takes no crap from anyone. Not even from the object of her desire, Zack.

I loved the pace of this story, it was really an easy read, very open and honest, and the plot pulls you in. You keep waiting for someone to brake, and when it happens, all bets are off. I'm talking about fireworks, people, both literally and figuratively. This was a great story and one that I will definitely be re-reading more than once, not only for the hot scenes, but for the amusing ending ;)

Whoo! Hot tamale! Solid three star story, spicy and sexy. Loved the ending!

Short, quick read. Step-siblings Peyton and Zack, 20-somethings, finally get together after the expected melodrama of miscommunication and fighting their attraction to each other. The ending is a HFN, if a little abrupt, but Mum has the last word and it left me with a smirk.

A cute and steamy short story about a step brother and step sister who find out that there outward loathing for each other was hiding their true deep feelings. When they finally act on those feelings, guess who knew it all along! A very enjoyable read.

Short, sweet haters-to-lovers story between step-siblings. With a whole lot of hot sex!

I was in IKEA when I started reading the story, and by the time I was nearing the exit (got some breakfast, Alex Drawers and all) I finished it, giggling and stopping in between IKEA sections- if that's not multitasking, I don't know what is, lol. For a story soo short, the book definitely packed a punch. The pacing was fast, the characters likeable and the writing highly entertaining. Will definitely be reading more from Cara.

P.S

just found out our author's from Sweden, take about coincidence .. =)

So far, this is my favorite of Cara Dee's published works, although I also faithfully follow her fanfiction as well. She is an amazing writer. The UST between the guy and gal is palpable. Totally floved it to pieces.

My only complaint: TOO SHORT! I so wanted more of this story. But five-star reading nonetheless!

"On the Offensive" was a decadent read, jam-packed with a really good story and unforgettable characters. Yes, the idea of step-siblings falling for each other may be too delicate for some but this is fiction and, if we're being honest, there are probably couples out there who are/were step-siblings before entering a romantic/intimate relationship. ^^

You can't help but get drawn into the story of Peyton and Zack, two young people who found themselves becoming step-siblings in their teens through the marriage of their parents. The two have a tense and almost adversarial relationship. They find themselves stuck with each other when their parents demand that the family, including adopted brother Colin, spend the holidays together. Things come to a head New Year's Eve and the secrets that both Peyton and Zack have been trying to hide are brought to light.

This is a short, as are almost all of Cara Dee's books, but definitely worthy read. ^^ The ending was unexpected and memorable. ^^ 4.5 stars out of five, rounding it off to five stars for GR's purposes. Cara Dee is fast becoming one of my favorite authors.

I really enjoyed reading this. It was short & sweet, as well as extremely hot!

Peyton O'Keefe doesn't much enjoy coming home to her family from breaks at school. The main reason for that is her insufferable step-brother Zack. She loves her little brother, mom & step-dad, but the minute she & Zack are in the same room together, both of them turn into bratty twelve-year-olds. This doesn't change the fact that Peyton has always found Zack unbearably hot and he often frequents her dreams. Of course, this just makes her *more* of an ass to Zack, and he gives it right back to her.

Inevitably, things explode between them. When they discover that each has always wanted the other, all that passionate hate gets put to good use. *fans self* And as the saying goes, that thin line between love and hate? Turns out it was never hate at all. So finally, when Peyton & Zack talk about what's next, they decide they're not in all that much of a hurry to tell Peyton's mom & Zack's dad that they've decided to be together. After all, they're not really related but just aren't sure of the reaction they'll get.

Being that this is a novella, you don't really get a chance to get to know Peyton & Zack beyond how bratty they are to each other. But that interaction was believable and realistic to me, and had me laughing at their bickering. And did I mention that they were scorching hot together?? Cara Dee writes smut like nobody's business.

I really loved the end, after Peyton & Zack were dating, and having a movie night at Zack's apartment. LMAO, (view spoiler) I really would not have minded seeing more of this one, but as a novella I was completely entertained!

FicCentral says

Really, the only reason anyone needs to read this book is that it's by Cara. If you've never played in the fanfic sandbox, you wouldn't know, but the woman has a way of spinning a tale... there are no words. And no two stories are anything alike. But on with the book stuff...

Peyton hates her stepbrother. Never mind the fact that he's sex on legs, all tall and muscular and tattooed and perfect. He's the oil to her water, and they can barely be in the same room with each other. They don't talk; they just spit insults at each other, and that makes for rather tense family time.

Fortunately, they haven't lived in the same house in years. He's off trying to make a career for himself, and she's off finishing college. They only ever have to see each other when their parents put something together, and while they managed to avoid that over Christmas, New Year's is another story altogether.

For the holiday, they're stuck in a cabin with the rest of the family. It wouldn't be so bad if they could each stay in their own corners. But Peyton can't escape Zack's glaring... or her completely inappropriate dreams of him. An accidental peek while he's in the shower, a too-tight dress, and circumstances that leave them alone together are all it takes for the dam to break. It's January first, and it's nine hundred degrees of steaminess.

It's too short. It's not too short to tell the story, and nothing important gets cut out or forgotten. But I wouldn't have complained about another million or so chapters. Cara's stories are just *that* entertaining. In fact, the only reason I'm not giving it the full five-star treatment is because I always die a little when I get to the end of Cara's stories, and with this one the end came fast. And I'm holding her personally responsible. That's mature and reasonable, right?

You have absolutely no reason not to read this book. It's short, it's sweet, it's uber-hot. It's way inexpensive over on Amazon. And it's Cara, who writes for nearly every fundraiser, makes her fanfics available on PDF, doesn't erase herself from the fanfic world even though she's gone all successful published author on us, and is a damned good storyteller. She's one of the few fanfic writers whose original books I'll gladly buy. Oh, and her editor rocks. That is all.

At first I was a little hesitant to read it, because of the sibling thing, then I grew some imaginary balls and read it - SOOOO GLAD I DID! It was amazing and truly left me in awe. Usually books with characters that have a relationship just make me sick. And that they grew up together? Ugh! Don't even mention it! But instead of my usual feelings I got something else in their place - Lust.

You've got a gift -Gosh, how many times have I said this to you? Worth mentioning a gazillion more - and I'm happy to see that you both know how to use it and actually use it. Some people are too shy -Or chickenshit as I refer to them- or just don't have it.

Keep going, Mrs. Cara, you'll get far -more than you already are- one day just don't forget of the little people -Jk LOL- when you're up there, M'kay?
