Secrets From the Grave B.L. Brunnemer

My name is Alexis, though everyone calls me Lexie. I'm a Necromancer. We're rare enough that I've never met another in my life, until Claire came home to tell me she found one. In New Orleans.

Now I am headed south with my best friends, staying in close quarters with five guys, four guys whom I have kissed, one who has been ignoring me for the last few weeks, one who keeps sneaking kisses, one who doesn't even remember it and another... Well, I don't know what he wants. Thank God for Miles. He's my one safe place in this disaster I've created.

Naturally, that's not my only problem. Things aren't good in New Orleans. Representatives from the Witches Council are in town, the dead are everywhere, and the secrets are piling up. The whole situation is a powder keg just waiting for a match. But why am I holding the matches?

OMG this book is complete awesomeness. Everytime B.L. Brunnemer releases a book it's better than the last. I don't know how this is possible when you don't think something good get any better, then all of a sudden it does. Secrets from the grave is the best book I have read all year.

Brandy says

3.5? rounding up because overall it did make progress and I love the series.

Silvia Andrito says

Yet another great installment

This installment finds Lexi and her crew in New Orleans dealing with a lot of supernaturals, trying to stay alive and together with her guys. It is more focused in her relationship with the guys. It also broadens her scope of the supernatural community. Lots of action and a lot of development. While it is not a cliffhanger it does end with a lot of unanswered questions. Which just makes me wonder when the next book is coming out. Can't wait for more!

Siri says

HOLY FUCKING SHIT BALLS I NEED MORE GOT DAMMIT
Damn it gets hotter and hotter, i can't wait for them to finally get together!!!

Lissa Hawley says

4.5 stars.

I really enjoy this series but the poor editing/proofreading continues to frustrate.

Tiffany Wood says

My friend shared Found and Secrets From the Grave just the other day (26th....decided to reread the series and damn I'm sleepy). I am frustrated and angry and sad and annoyed and I want the next damn book already lmao. I loved the book, it finally upped on the romance with everything coming to a head and people started talking FINALLY!!! I love that this is major slow burn, I mean these are teenagers so we shouldn't be

begging Brunner to give us more than what has been given...sorry but I don't want to read about teenagers doing it...I mean it happens all the time but yeah...aaaaanyways I'm going to be going nuts until I get the next book/s.

The Best Book so far! But...

This book ... made me so happy. I've been a devoted lover of Lexie and her guys for about a year - and this book gave me everything I could wish for. One of the reasons I've been so excited about this series was to see how the "all dating her at once" idea would play out. This is supernatural... but the romance is contemporary... and I wanted to see an author pull that off. So far... it is all super believable. BL created such strong characters and the relationships between all of them are super developed and THAT is why the idea of the RH is plausible and I love it.

There were some adorable, sweet, sexy, and heartbreaking moments in this book. It truly was everything I've been wanting and I think the author might finally be relieving her fans "blue Balls".

The action and plot of the story was so satisfying and I feel that this series is moving on much nicer now. I'm really glad the author spent so much time the first four books just building the relationships - it makes the plot so much more satisfying and enjoyable.

Here is my "but" and here is why the book got 4 out of 5 stars. The grammar. The sentence structure. There were misspellings. It wasn't just a small amount either - it was common. I guess my head goes to the place of... you've probably made a lot of money ... this author has pretty much the most popular RH series out there right now... can't she afford the best of the best in a proofreading and editing company? I'm wondering if she's been using the same people since book 1 and they are still trying to clean out errors from past books... I feel like a jerk for saying it... but I think it needs to be said. The book isn't unreadable and I stand by that it's my favorite in the series and the author has created a fan for life in me. But... when I pay as much as I do for her books... I want quality. The story and characters are quality... but I want a clean book. I really do. And that doesn't make me a book snob, it's just professional expectations. You sell a product... it should be stripped of most imperfections.

The only thing I can think of here... is that it's possible the author rushed to get this out on time to not disappoint her fans. Because I don't think book 5 had this many editing issues. And again - it wasn't unreadable - it was just enough to make me wince and wonder why her stories are not super polished by now. She's a fantastic writer.

Anyway, besides that black blemish I needed to get out... I'm beyond excited for the audible release. The narrator for these books has always done a fantastic job and I can't wait to see her bring this to life. I can see a lot of rereads of Book 4-6 in my future...

For the love of all that is Holy, please release this book!!!! This is like putting chocolate cake in front of a fat kid and telling him, "Yes, it's there, but all you can do is look at it."

Patience is not a virtue, it's a damn torture tactic. *sigh*

goes back to corner to wait impatiently ?

Missy Brown says

Oh Guys this book was awesome!! So worth the wait. So much happens, relationship wise, plot wise, and yes we do get some answers. We also get more questions. I do not want to give anything away, but I will give what I can.

First of all, the relationships. We have some movement, but does it bring them closer together? Or wedge them further apart? I will let you decide.

Second, what she learns about being a Necro. It was pretty neat meeting Louis. He is a pretty cool character and really helps out Lexie. He helps her shed light on many things.

Thirdly, the Witch's Council. Wow I am really hating them right now. They truly are bad guys, and the lengths they go to, to get their way. Just wow! and now Lexie is in their sights.

There is a lot going on in between all of this. We get the POV from the guys, as they work through things. Which things you will have to read to find out. The people they meet in New Orleans was very helpful and it was interesting to see how things were done there. Lexie is really kick a@@ in this. She is finally getting answers to what she has always wanted to know, and I believe she is finally getting her confidence back. We also get hints about what the next book will be about. Overall, I love this series and this is the best slow burn Rh I have read.

Erin says

Witches and Necromancers and Magic, oh my

Claire comes to Lexie with news, there's another living Necromancer and he wants to meet with her. Only issue is he's not in state. Well, Montana, anyways. He's in New Orleans, an area legendary for magic revolving around death. The men in her life are not happy about this drive to go talk, neither her friends nor Rory. Unbelievably, her uncle allows her to make the trip, as young as she is, as long as she takes the guys with her. So, the 6 of them pile on a plane and head south the land of constant sweat and frizzy hair. What started out as a possible connection with another Necromancer turns darker. NO has some strange events going on. People getting sick with no bacterial or viral contagion, ghosts everywhere and none of them want to cross over, and then the disappearances start up. Forget about relationship issues, just what the hell did

they all walk into?

Mild spoilers ahead-

There was so much going on in this book. Things have been building for a while now and all these little factors are getting pulled in. It's busy, it's chaotic, it's crazy. Rory allowing this trip? Oh hell no. I know she's been an acting adult for a long time now but letting her run headlong off as a minor is bonkers. This on again off again fighting with Tara is crazy, too. Why do we get Jessica's POV but not Tara's? If you're going to play up the jealousy over inherited abilities at least allow us to sympathize with Tara. All we see now is b**** mode and screaming. I had hope in previous books when she was learning self defense with Lexie. That hope is fading. Also, this headlong flight into an unknown situation. I get that she's finally getting some of herself back. I loved that she got to do some art tours. But there were some pretty epic TSTL moments going on here. And not just her, among the guys, too. After specifically stating that they needed to remain in pairs, at the very least, Zeke was constantly working out solo, the twins would argue and walk off in a huff, Asher would be alone on the balcony, and many other moments. I was a little disappointed that they didn't do something for Zeke's bday. Of all things, Miles and Lexie going dancing just seemed wrong. Why didn't they stay together and celebrate? Even if it was just burgers and video games? That seems like a slight to me especially as Zeke is obviously struggling over everyone's safety. The POV jumps, the oddness of the council, the other Supe groups, the little bits of info snuck in there about this and that, all the emotional upheaval and a million other things leave you feeling wrung out at the end of this book. I'm contemplating another read through after I've had a day to absorb it all lol. I almost feel like this should have been 2 books. I know it seemed like I complained a lot but it isn't really that. It was a good continuation of the series. I just felt oddly rushed in some places and that important info was skipped on others. A little fleshing out here and there and what was a rushed single book could become an epic 6&7. Brunner brings the energy, though, and doesn't disappoint on the action. Although, I feel Lexie is being nudged into depths she's not ready to handle yet. Yeah, gonna need to soak this in and reread and add to the review.

The Romance Book Disciple (Samantha) says

Wow this book really LEAPed forward in plot! I had previously felt the pacing was a bit slow (not just romantically, but even with Lexie's abilities). This book really cranks it all up. Lexie and the guys travel to NOLA and find out a lot more about necromancy. They also find out a LOT more about vampires, werewolves, and witches. Finally, Lexie tells them she loves them all and has kissed each of them. They do NOT handle it well. However, Miles (the always level headed) talks to Louis about his unconventional relationships and proposes it to the group. The book ends with a lot of decisions to make and I am super excited to see where Brunner takes it next.

Tamla says

This is the first book in the series that didn't get a five star review. There was a lot going on to further the story line but I really felt like the relationships didn't get the proper attention. We are at a huge climatic relationship part and I felt like the paranormal aspect overshadowed it. I don't want to go into spoilers but I felt this book was somewhat lacking.

Tina J says

Good

For the first time in the series Lexie got on my nerves but there was so much stuff happening in this one that it made up for it.
