Love lost, then found....

Never judge a book by cover, unfortunately our hero did this for himself and his wife and because of his insecurities he got it all wrong! It didn't help that his approach to his life and family was self-centered! As a result, he almost lost his wife to slavery! The biggest problem is trust. One can't help but to continue reading to see how issues are resolved.

OMG!The book was very unnaturally written!

There was a lot of intercepting plots that were kind of moving fast forward so the whole story felt like a big summary instead of a regular book. I had a suspicion that the author just kept adding: and then and then and then until the very end.

I also have no idea what was the purpose of the daughter the earl had. She was not really part of anything and had no meaning. Well, except the really weird conversations about Lord Naughty that I think were supposed to be cute, but in reality just felt like an 50 year old spinster stuck in a child's body is having brain damage .

The earl was a moron yeah, and my glass was full and tipping over with his dear dear dead wife and her creepy life size pictures in all the rooms. I hate goody two shoes ex loves-Gah! But what can you do, eh? Oh, and the earl said himself that she would not love him if she had the scars when he met her. How nice, huh?

Totally a woman to pin after forever.

But still, it was all very inventive and I love love LOVE Russians in England when it comes to HR. When they are blond and blue-eyed its an instant win for me. What can I say? Sue me for being shallow :) lol

So all in all it was a cute read. Not the best one out there, not even the runner up, but still I would give it a 3.5 stars.

Any way...if you want something to do in these rainy spring days that are to come pick up some hot tea and this book. It will be relaxing and luvable.

I liked this more than I thought I would. At first Amber seemed like a side character to all of the more interconnected of Patricia's historical family that I'd been reading about. I was totally wrong to think I wouldn't enjoy it as much; It's one of my favorites. Some of the ordeals that Amber went through were... graphic isn't quite the right word, in the context we think of it today... But it was to an extent. I felt like I was watching this story unfold. It was wonderful writing. Patricia Grasso is so descriptive. Miles was broken, but Amber was sunshine in his dark. I liked that :) I loved how she loved him, saw him, through the scars. Him,

Lord Miles Montgomery memiliki luka bakar di wajahnya itu disebabkan karena kebakaran 4 tahun yang lalu dia kehilangan Istrinya yang sedang hamil karena peristiwa itu

Princess Amber Kazanov adalah anak haram dari Czar Alexander dia kabur dari rumah pamannya yang berniat menjualnya lalu dia membutuhkan suami agar bisa melindunginya dari pamannya

Sampai pada suatu hari Amber tiba di kediaman Montgomery dan dia bertemu dengan Earl Montgomery dia tidak takut dengan wajah sang Earl yang ditutupi topeng sebagian Amber memberikan kecerahan kepada hidup Miles yang selama 4 tahun ini dipenuhi kegelapan Tapi Miles tidak tahu, Amber sebenarnya lebih kesepian dari dirinya...

my opinion :

awalnya gw ngga suka ama Miles

dy tuh angin - angin ke Amber. Satu detik dia ramah, satu detik kemudian dia teriak2 ke Amber gara2 gangguin privasi dy

gw suka bgt ama Amber. dia tuh sweet, ramah, dan baik bgt

tipe cewe baik yang sama sekali ga suka nilai orang dari tampang doang

dan Amber ini lucu, dan lugu bgt.

Amber punya kebiasaan aneh. Dia tuh kalo marah ama Miles selalu ngejahit (lebih tepatnya nusukin jarum secara kasar ke kain tak berdosa wkwkwk)

Amber sering nyebut pelayannya Miles dengan "Just-Pebbles"

Amber sering ngajak ngomong bunga - bunga yang ditanam Miles di taman

Miles bner2 nganggap Amber sebagai cahaya bgt, dy juga sering nyebut Amber itu Angel yang dikirim Tuhan ke dia

Miles emg awalnya nyebelin, tapi pas mereka udah nikah, Miles mulai ramah ke Amber dan sayang bgt ke istrinya itu

cuman gw agak ilfil pas Amber diculik, Miles ngiranya istrinya itu kabur ama pacar lamanya (padahal SANGAT sering Amber bilang ke Miles kalo dy sayang bgt ama suaminya itu)

Miles susah percaya ama orang. Amber pun suka bertindak secara impulsif

tp mereka emg sweet bgt sih

makanya gw kasih 4star

Amber udah oke. Miles agak pengen gw tonjok

Ya me parecía que algo olía mal con esta novela cuando Miles va a la recámara de ella, sabiendo que está dormida (estuvo escuchando detrás de la puerta, esperando), la descubre y le manosea un pecho. No una, sino un par de noches seguidas.

Digamos que no pude obligarme a leer este sinsentido cuando él le advierte que no piensa casarse con ella, salvo que ella acceda a acostarse con él hasta quedar embarazada como prueba de su fertilidad y después de ahí "ven" si se casan o no. No le importa que Amber no tenga ninguna garantía de nada, que ella pierda la

virtud que tanto luchó por mantener para que no la acusen de ser como su madre, de que ella de verdad necesita casarse con la protección que le brindaría su apellido, de que él solo la visita de noche cuando la "necesita" mientras de día se encarga de despreciarla, hacerla sentir mal, usando sus puntos débiles para lastimarla, disculpándose de vez en cuando a regañadientes. ESTO ES MIERDA. ADIÓS.

I loved the book!! I liked how characters from her other books ended up in this one also!! Princess Amber over hearing her uncle selling her to a slave owner escapes from Russia making her way to England for protection. She asks her cousin Prince Rudolf to help her find a husband quickly so she can get pregnant. Rudolf introduces her to Miles who is still grieving for his dead wife Brenna for the past 4 years. Miles is also scared from the fire where his wife died and wears a mask to partially cover his face. Miles realizes he needs to start living again after he is introduced to Amber. Many things happen from passion, love betrayal before these 2 can be happy. Another great book!!

This was such an oddly written book. The pace and flow of the story left me completely stumped, I couldn't exactly wrap my head around this style of writing. Certain points just seemed like stilted thoughts, and other parts seemed summary-like. There wasn't a natural progression to the story. It was as if the author was just throwing random thoughts down, but didn't bother to make sure everything flowed properly.

I stopped halfway through the book last night and thought "This is so strange."
Then when I finished it just now, I thought "I don't know what to think of this book."
So yes...strange book that I don't know what to think of it.

This book, overall, was worth reading. It had the potential to be great, but the angst was so overwhelming that it fell to just being good.

I also agree with other reviewers that the book seemed to continue past what I expected would be the end. At about 50% through, I remember looking at the progress and thinking "what else is there to do?" The last half was like an extended epilogue or a part 2/second book.

Happy ending, no cliffhanger, no cheating.

I really enjoy these books, they are some of my favourite and this particular book helped me find an awesome author. I love to be able to re-read them and I did so at the beginning of this year.

Miles lost his first wife in a fire and when he tried to rescue her she was unable to and ended up with minor burns on the right side of his face down to his body.

Amber is a Russian princess who overhears her terrible uncle selling her to a slave trader for her to produce babies with his male stud. She ends up fleeing Russian to the safety of her cousin. Ambers plan is to secure a husband and become pregnant so that her horrible cousin and awful slave trader cannot take her back to Russian when they find her.

In steps miles who doesn't want another wife, is moody and still grieving over his wife 4 years later. Amber manages to win him over with her amazing personality. However there are a lot of doubts regarding their love for each other and some jealousy when old flames present themselves.

Of course Ambers awful cousin kidnapped her so they could return her to Russia and become captive. She is eventually freed by her husband and cousins. Great book, in my opinion I love cute romance stories and they definitely keep me entertained.

Not Now...Mommy's Reading says

I had promised myself that I would finish any book I started. However, I couldn't bring myself to continue reading this! I'm sorry but the writing was so amateur to me and quite repetitious with phrases such as "Miles inclined his head", "her sunshine smile" and the story itself - my goodness, could the princess be any more weak or pitiful? The man verbally abuses her and she "reacts as though struck" (another overused phrase), and hides in her room and he offers a simple apology and she simply accepts it and no more than two pages later, he pisses her off again only for her to readily forgive him. STOP THE MADNESS!!! I plodded through the first chapters, despite my better judgement, because I thought this was perhaps a first novel for this author. Not so! Suffice it to say, I will hesitate before picking up another book by Patricia Grasso if this is the norm in her writing. I do plan on finishing the book - at a later date, of course - and if I find at that time that my opinion of this book and its author has changed, I'll not hesitate to state as much.

On a positive note: The cover is absolutely gorgeous!

Originally published as "To Love a Princess" (Kazanovs #2) - The second book in the Lords of Stratford series. Princess Amber escapes a controlling, mean uncle and ends up in England as the Miles', the Earl of Stratford's, wife. Through some trying times, and love they manage to make it work out. There was a lot of heart wrenching emotions in this book, I loved the characters, writing and plot of this story. The steamy romance was great as well.
