Fitting In Silvia Violet

Two cops walk into a bar. Mason, the bartender, waits for the punch line, because no way in hell are these ridiculously hot men real cops. They're straight out of a cop-fetish fantasy. But he quickly learns that Jack and Gray are the real deal, and they want him in the worst way.

What starts as a night of hot, three-way sex becomes a lot more. The two cops fulfill Mason's submissive fantasies, but they also meet a more basic need, comfort. They want to take care of Mason, to offer him unconditional friendship, but their concern for him unnerves Mason more than even the kinkiest sex.

To find happiness with his new partners, Mason must change his belief that love is as much a fantasy as a pair of gorgeous, handcuff-wielding cops landing in his bed.

~Mindy Lynn~ says

So the book didn't end up in my "love" pile, but it definitely ended up in my "like" pile. There were things I liked about the book and a few things I didn't necessary dislike, but just wished there was more of. So lets break down what those were. The "wanting more" part is me wanting to know the characters better. I would've loved some more background and character development. I think I got a good sense of what kind of guys these men are but I think it could've delved in a bit more. But perhaps there is more revealed in the second book. So basically more background on each of the men would have been awesome.

I didn't care for the whole robberies. I understand the author needed to set up the scene for the naughty cops to meet Mason but it just didn't play out very strong and was much more of an after thought with the rest of the story. It was like, "oh yeah, that's still happening". I totally forgot at some point.

Like I said before, I really liked the men. Gray is dominant, controlling (but not in a scary you must do what I say or else way), strong, and takes on a lot of responsibility as the protector of the men. He is also very much a softy and feels deeply. Loved him. Jack is a bit of a romantic type I think. He's very calm, nurturing, and domestic. He wears his heart on his sleeve. Adored him. Mason is a bit of a broken soul. He's not close with his family and is desperate to belong and be loved. But he finds it being hard to trust anyone with his feelings let alone his heart. So he was the type of character I just wanted to cuddle and smother with affection.

Oh and the sex...

Yes, yes, yes it was...

These men were hot and a bit kinky which had me mentally screaming

Lots of spanking, a bit of dirty talk and a lot of heavy breathing

Good times ;]

Two hot cops and a nerd... should be a winner for me!?!?

Firstly I have to say, that cover is just awful and I am glad the images in my head were not of the cover models!

Mason is a Star Trek geek and a bit of a nerd, after being disowned by his family for being gay, something they thought of as a phase and an inconvenience, he was forced to work in a bar, his priority in life was to go back to college, get his degree in chemistry and move onto grad school.

Mason had never been good with relationships and hitting the club scene or anonymous sex had no appeal to him whatsoever. He was shy and a bit of a loner, not particularly forthcoming, so when two gorgeous cops come into the bar asking questions about a recent spate of robberies in the area, his mind was more interested in the hot cops and working overtime with every sexual fantasy with them in the starring role flashing through his mind, than concentrating on answering their questions.

Jack and Gray, lived and worked together and being cops were cautious about revealing their relationship not because they were embarrassed but because of the problems it would cause them in their working lives. Both men are attracted to Mason and they want him, but Mason has reservations, he had previously been burned in a threesome which had ended badly but he just cannot get the lustful intentions out of his head.

Jack and Gray take matters into their own hands as Mason is never going to make the first move, and these three men together were smouldering, and Mason was overwhelmed by his emotions, the sensual pleasure and sexual tension was all encompassing, he could barely breathe with the intensity of it all and Jack and Gray just consumed him. He shared something with them he had never before experienced a sense of freedom and belonging, he felt cherished but his longing for more seemed futile. Mason could see in their eyes the obvious love they had for each other something he had never had from anyone and Mason had fallen hook line and sinker, he was head over heels in love and scared senseless, he feels like the interloper and they couldn't possibly feel the same way, after all they were a couple!?!

This book kept me turning the pages and the sex between these three was definitely cold shower material! The plot was thin on the ground and predictable, no great shakes there. The characters I found a bit one dimensional, maybe because we only had Masons POV so we never get an insight into the minds of Gray and Jack, only Masons observations and for me it was hard to distinguish between the two of them which effected the dynamics of the threesome. Gray was the Dom but sometimes needed to be a sub, Jack a switch but seemed more Dom material to me and Mason, well, he is definitely a sub! We also go down the lack of communication route, tortured soul, lost loves, heartbreak and desolation with the sweet times occasionally bordering on sickly for my tastes.

Over all this was an easy read with some fabulous sex scenes but not too much else to grab my attention I liked it but didn't love it. The BDSM is not hard core just a bit of tying up and spanking so if you need an easy titillating read then this is perfect.

I thoroughly enjoyed this book. Sat down this afternoon and knocked it over. Couldn't put it down. Nothing new under the sun here... BUT... there is some smoking hot sex and characters that I really liked. If you like your erotica to include MMM, BDSM, cops, and plenty of smoking hot lovin,' then give this book a read. I had a lot of fun reading this today. Review at **On Top Down Under Book Reviews** - [http://ontopdownunderbookreviews.com/...](http://ontopdownunderbookreviews.com/)

Mmm... so the more the merrier, right?

Well, sure in theory, and I was plugging along totally digging the menage and D/s with some light bondage going on, but the mental whinging was too much. Would have liked it more without the repeated--repeated--repeated, fucking annoying, right?--character doubt and going back to the same well. I'm more of a dither and then jump in person, not jump in and dither, so this didn't work for me. That said, there was some fine lickety action.

I was bit disappointed in this one. It just didn't suck me in like I was hoping it would. The guys are hot together, but I had a hard time distinguishing Gray and Jack for some reason. They are very secure in their relationship, other than their issue of not being able to be out at work. I liked Mason, but he got on my nerves a bit with his continuous reluctance to get involved with another couple. He had a bad experience being a third previously, so it is understandable. However, it just seemed to be brought up a bit too much for me. Again, the guys were hot together, but I just wasn't feeling the rest of the story.

Bitchie says

Mostly hot sex, with a small side of plot, this was a lot of fun! I do think it was a bit convenient that Mason had taken part in a three way FWB thing that went bad due to jealousy, just the perfect sort of manufactured angst! I would have liked it better if that part had been left out of the story, and Mason was just worried that Jack and Gray would never love him the way they loved each other.

The robbery sub-plot seemed almost like an afterthought until the very end, but who cares? The sex was fuckhot, and face it, that's really why we're all here now, isn't it?

Macky says

3.75*

Take two hot cops in an established relationship, add one sweet, relationship shy bartender and lots of hot sexy, on the kinky side, sex... do the math and you get a ménage (my fave) with three likeable, engaging characters. Mix up a touch of lightweight D/s, a bit of background crime plus the obligatory 'misunderstandings' before the guys finally decide to take their threesome to the next level and declare their love and overall even though there was nothing particularly fresh it was still an enjoyable enough read. Did I love it? No, I can't claim *that* Particular L word but I did like it so will definitely read the follow up Sorting Out. Enjoyable! 3.75* rounding up.

Gay Menage at it's best...

And the two cops keep their uniforms on when they get down and dirty...Dear God,I had such a HOT mental image going on!!

Well,hello boys....

I do love a gay menage and this certainly delivered.

Mason is a bartender with aspirations of something more.He is struggling to get funds to go back to school after his family pulled their monetary support until he gets over his 'gay phase'. He's a bit of a sexy nerd.His idea of a good night is watching Scifi.....adorable!!

Gray and Jack are cops....in a relationship but not openly out.They start coming into the bar Mason works in and he is fascinated by them.The more he observes them,the more he realizes they are together but that doesn't stop him having dirty dreams about them.

He starts to wonder if they're flirting with him when one night his dreams come true when they ask him out.

Yes,they want him as their third and holy hell...bring on the hottness!!

There is role playing with the whole 'yes,arrest me officer...I've been bad' thing going on.Yes I know it sounds a bit cheesy but it was totally hot and,like I said,they keep their uniforms on in some scenes.It was straight out of a gay porn film (not that I would know of course. *coughs*)

Aside from the sex there's a side story going on and the men do develop strong feelings for each other. I think there are 3 books in the series but this can definitely be a standalone.

Definitely recommended if you're into hot M/M/M action..

This book burned up my kindle. Cops, BDSM, smoking chemistry and emotion I wasn't expecting.

When two hot cops walk into the bar Mason works at it is his dream come true. After watching Gray and Jack when they are at the bar, he is convinced they are a couple. When they ask him to get together with them, Mason goes, but based on a bad experience he tells himself it can't be more than one night of hot sex since he would never want to come between their relationship. After one night becomes two, and then a month, and they also start hanging out, and texting, Mason realizes he is falling in love with them.

The dominant but caring Gray pushes all Mason's submissive buttons, while Jack is sexy and sweet. Can Gray and Jack convince Mason that they want him as a part of their lives before it is too late? Add in a sub plot involving robberies of the businesses near Mason's bar, and the fact that if Gray and Jack are found to be

a couple, they will be split up as partners on the job, and the tension rises.

Told from Mason's POV, I loved the interactions between the men. There was such chemistry between the men, but there were also a lot of emotions at play. This book really took me by surprise and I hope to see more of these three.

A very enjoyable menage... kinky, sexy and hot!

I didn't feel the MC's connection very strong! There was lack of communication and too much worries!

Despite those feelings, I enjoyed this book very much, and I hope the sequel to be better! It would be wonderful if the MCs live their relationship without worries and openly!

I'm the first one to enjoy a good sex scene or a few, I love them. A story is not completely enjoyable if I don't have my gorgeous M/M having hot steamy sex. However, when more than half of the story is full of sex scenes, then it become tiresome.

These guys have misscommunication issues, and it's no surprise because they were having too much fun between the sheets.

A Girl Has No Name says

Fitting In features an established couple of **two very hot cops** and a slightly geeky and unsecure **bartender**. I love reading **gay menage!** It isn't easy to find books in this specific subgenre where I get everything I'm usually looking for, which would be a solid plot, character development and of course hot sex.

Fitting In **doesn't have much of a plot**, but it had enough to keep me interested. **Mason** is working as a bartender at Nathan's tried to save enough money to get his chemistry degree. His family is unaccepting towards his sexuality and his career choice and they don't have much contact. One night, **Jack and Gray** enter the bar and Mason can't stop watching the extremely hot cops. Trying to solve a case of several robberies around the block, the two cops keep showing up at Nathan's.

Watching them closely, Mason is quick to figure out that Jack and Gray are in a relationship. He also realizes that they are flirting with him, but due to a bad experience in polygamous relationships, he tries to keep his distance. However, he is feeling extremely lonely and when invited to a date he isn't able to say no.

I wasn't able to **put this book down**, I kept turning the pages and the sex scenes between these three were very entertaining. The few plot elements of the story were easy to figure out as they are very common in m/m/m books - **misunderstandings between the three** with regard to what they want out of their relationship, **a falling out and make-up sex** and a few **dangerous situations** coming with the law enforcement setting.

The whole story was told from **Mason's POV** and it was thus a bit one-dimensional. I would have loved to get more insight into the two other MCs. The BDSM elements in this stories are very soft and the tag shouldn't put you off!

For me, *Fitting In* thus had an interesting enough plot, very hot sex scenes, but unfortunately not enough character development to make it perfect!

4 stars for the beginning of this series! I'm definitely looking forward to the next one!

Awful cover by the way ^^ I have to say that the French version cover ^^ is way better!

Re-read January, 2017

Re-read November 26, 2013: With news that a sequel is coming out in December, I was in the mood for a re-read. This gem was just as hot the second time around! Can't wait for *Sorting Out!*

This super, duper, **fuck yeah 5+ stars** book deserves the Blanche Devereaux spray-bottle .gif! **I fucking loved this book!** Talk about hitting all my buttons... OK, we've got 2 cops, Gray and Jack, both gorgeous and in love with each other. They like to play. *IN UNIFORM*. *gulp* Holy shit, I love that. They are open minded and have their eyes on a cute bartender, Mason, and decide to ask him to be their third. Mason is not only a bartender but an adorable nerd who loves chemistry and Scfi. His idea of a fun night out is a *Stargate SG1* marathon in. Hello! Button pushed! He is also deeply submissive and really sets off Gray's big-bad Dom

side. OMG, I seriously could go on and on and give away the entire story, but I wanted to bullet point that **My. Buttons. Were. All. Pushed!** Oh, and there is a sub plot with a string of robberies so there is ANGST! and CONCERN! and the boys were worried about one another. Jeez... More emotion! And, honestly, I absolutely can*NOT* do threesome's without emotion. The characters don't have to be falling all over each other in love necessarily, but it can't be mindless sex. There has to be a connection. And, baby, there is a **CONNECTION** here!

If you love threesome's with emotion and connection, fabulous BDSM power exchanges between consenting adult males, hot cops with handcuffs in uniform performing sexual acts, an unconventional love story that is incredibly satisfying all in a 177 page book, I can **HIGHLY RECOMMEND** Fitting In. Thank you Silvia Violet for this kinky little gem!
