It's 1942 and the war still rages on. Lady Marmalade is staying in London against the advice of her son and her butler. It's too dangerous with Germany's ongoing air raids, but she won't have it any other way.

And that's a good thing to, for a neighbor, Ms. Margaret Hollingsberry needs Lady Marmalade's help. She's been getting these awfully upsetting letters that promise vengeance for the sins of the father.

But time is running out. Lady Marmalade has less than a week to discover the true identity of the letter writer and to save Ms. Hollingsberry's life. But to do so, she'll have to uncover some dark secrets about Ms. Hollingsberry's upbringing and those closest to her.

### **Kathleen Lawrence says**

This book had more tension in it than two others I've read. Nice twist to the end. My only bone was the description of the poison used. It was not completely correct, half way but not completely. There were some typos but overall a good story.

### **Mary Grimes says**

I like the setting and idea behind the series but I can only take so much dribble about how the tea is prepared and consumed and the evils of cigarette smoking.

#### **Interesting who done it**

I enjoy the time period the books are written in. The plot was interesting and not contrived. I look forward to book three.

### **Sharon says**

The story was good but it was drug out a bit too far. A little more editing would have helped alleviate repetition of dialog when Lady Marmalade was interviewing the house boarders. Also a few grammatical errors. Overall a good read.
