### **The Fever Series** Karen Marie Moning

In the blockbuster Fever series featuring heroine MacKayla Lane and Dani “Mega” O’Malley, Karen Marie Moning creates a darkly erotic and paranormal world, torn apart by the struggle between humans and Fae. Now the first six thrillingly sexy Fever novels are together in one convenient eBook bundle:

**DARKFEVER**

**BLOODFEVER**

**FAEFEVER**

**DREAMFEVER**

**SHADOWFEVER**

**ICED**

**Also includes a preview of the next Fever novel, *Burned!***

When MacKayla Lane’s sister is murdered, she leaves a single clue to her death—a cryptic message on Mac’s cell phone. Journeying to Ireland in search of answers, Mac is soon faced with an even greater challenge: staying alive long enough to master a power she had no idea she possessed—a gift that allows her to see beyond the world of man, into the dangerous realm of the Fae.

As Mac delves deeper into the mystery of her sister’s death, her every move is shadowed by the dark, mysterious Jericho, while at the same time, the ruthless V’lane—an immortal Fae who makes sex an addiction for human women—closes in on *her*. As the boundary between worlds begins to crumble, Mac’s true mission becomes clear: find the elusive *Sinsar Dubh* before someone else claims the all-powerful Dark Book—because whoever gets to it first holds nothing less than complete control of both worlds in their hands.

If I were you, I'd skip this one. It wasn't that it was bad. I actually liked the writing style the author used. It's just that, come on...

1) The MC, Mac, is a bubble head. A stubborn one at that, but I believe we we're told she was when in fact she acted totally different than what we were being described by MC herself. I'm usually a happy person, I don't normally care about this things because I'd much rather be at the mall... little things like this that were contradicted by her actions. I know, I know, you want the MC to grow, to change throughout the book but we didn't see that. Since the beginning towards the end she was acting like a stupid fool, courageous but stupid none the less.

It's kind of ironic. I believe the MC sort of digressed. She was dependent enough to go after her sisters murderer, though she was so naive, especially since she sort of had a kick off clue in the beginning. Things that gave away what she was dealing with, but we were told about this until it was "covenant" for us to know.

2) Back to a point I made above. Isn't it pure coincidence that whenever something happened, and ere was nothing to explain this, only then did he MC remember something about her past that allowed this cosmic serendipity, aligning of the stars, moment, and then it was like "ever since I was a little girl...(included can cosmic event here) and that's why this and that happened"

3) Dear god, for someone so naive she sure was trusting of the bad guys and suspicious of the one trying to help her.

4) And then her dads gets there, and she saw the cock fight (or more like the inner, cock fight) between her father and Barrons and she still chose to stay with Barrons. Oh, but wait. The next day her father leaves all happy and with rainbows shooting out of his ass. Not buys it.

5,6,7,8,9,10,100 I can go on and on, especially about that stupid ending, and he death of Barron's' son, but I'll stop here. I have a headache and even if I can't confirm this, I believe my headache was brought upon me due to my stubbornness to not let this book go into my DNF pile.

I re-read this series from Darkfever through ICED in 2014, and finished in December. Overall, what an amazing series. I love the characters and the stories so much, and I am on the edge of my seat waiting for Burned in January.

I loved this series - it's a great story that doesn't take itself too seriously. It's as if Buffy the Vampire Slayer met Lord of the Rings, with sex. Jericho Barrons is one of my favorite anti-heroes in recent memory. Take this series on vacation with you when you want a long page-turner.

### **Molly Mirren says**

This series is what got me hooked on Urban Fantasy. Extremely well written, funny, and the hero is beyond mysterious, sexy, and very alpha. And the heroine is funny and awesome.

### **Diane Nelligan says**

I have been reading this author from her first publishing... her work only gets better with each installment of the Highlander/Fever series! The plots are so complete that I find myself reading them over and over again to get some of the nuances that I missed the first time. Truly gifted writer!

### **Danielle Hamilton says**

I'm still reading the series, there are 11 books, and I'm on number 6. Listen. If you like Ireland, gore, snarky smart-witted characters, dark sexual appetites, monsters that go bump in the night, a little bit of mystery and fairies... this series is for you!!! I'm hooked.

If you like boring, proper books with no cuss words, sex or death... maybe find something else to read. ;)

Fan. Tas. Tic.

Unbelievably so. Incredibly paced, satisfyingly mysterious and explanatory in turns, absolutely awesome strong believable characters, enormously motivated and credible evolutions, totally unexpected turns...

OMG.

OMG.

Just - read this series.

5 Star Series!!!!!!!

Where to start? Well for years my best friend has been begging for me to read this series and lucky for me I finally gave in!

The first book is pretty much getting the reader set up for real world meet paranormal fantasy world comes apocalyptic world. Very detailed and you feel like this world is the real deal.

Meet Mac smart mouth, never up to hear no and at times is very naive, but super BA at the same time. She's suppose to save the world after all. Loved Mac at times and wanted to hate her at times. In comes the hot and mysterious Barrons who is enough to read this series on its own.

Then there is V Lane who is just as heart throbbing.

No lack of character development here. You never have a clue who is actually the good guys, if that even exist. Part fun, part mystery, part hotness, part angst, part There are not enough adjectives!

Actually, this series was far from lacking it had everything.

You think you know, then you were wrong... then you are absolutely sure you know then you are wrong again... then you have a moment where you are like "finally I definitely have figured this out" WRONG AGAIN!!! So many WTF moments!

Ugh!!!! The story this author can weave!!!

Let me just put it simply read all 5 original books in 2 1/2 days!!! Yep was that enthralled in this story! Lack of sleep maybe, but Oh so very worth it! The plot is definitely not something easily figured out and that is Gem all its own. Recommended for mature young adults no under 17 after the 2nd book I would say. Oh by the way read this series 3 times already and still isn't getting old. I learn something new each time I read them.

**Corissa says**

This entire series is amazing! Highly recommend!

**Krista Renkiewicz says**

**Amazing series I can never put down**

Okay, this the sixth time I am reading this series it is really that good. It has everything fantasy, romance, mystery, fate of the world gravity with characters you love and ones you love to hate. Not only is it entertaining but mixed in are life lessons and wisdom of the ages. So take the ride, catch the Fever and join Mac, Barrons and the gang for a wild and emotional roller coaster.
