Series: Stonefire Dragons

Designation: Part Two of Four, Multi-Installment Series, Not A Standalone

Book Fifteen of Stonefire Dragons Series

Author: Jessie Donovan

My Rating: FIVE DRAGO-LICIOUS STARS *****

Oh my glory! Jessie Donovan has done it again! And what has she done, you ask? She's just released another astounding installment of Reawakening the Dragon, a continuation of her stunning mega-hit series, Stonefire Dragons and may I just say - WOW! Jessie never fails to tease, tantalize and titillate her readers with her amazing talent, incredible skill, unlimited imagination and entertaining repartee. I love it! The story is original, imaginative, fresh, novel, exciting, suspenseful, fast-paced, romantic, arousing and let's not forget well developed and hilarious. The dialogue is exceptionally well written in the third person with his/hers alternating points of view. It is also well edited, smart, witty, seductive and flows effortlessly. The characters are fascinating, intriguing, engaging, endearing, sexy as sin and at times, hysterically funny. Donovan is a true master of her trade and expertly combines these elements into a deliciously entertaining paranormal romance filled to the brim with heart-pounding danger, thrilling adventure, spine-tingling suspense, laugh out loud humor and passionate romance. What more could you ask from a great book? Not a darn thing! So, are you ready for another wild ride??!! Buckle up my lovelies! Here we go again!!!

Part One:

BBC reporter Jane Hartley desperately longs to be more than just a pretty face on camera. She wants to be taken seriously - to be a respected investigative reporter and is willing to do whatever it takes to achieve her goal including placing her own life in imminent danger. In order to write the story that could change the course of her career, she knows she must find the new location of the dragon hunters. She has gleaned information from every possible source and finally has a lead on the possible location for the Carlisle hunters. If she can pull this off, not only will she have the story of the year but she could also help sway public opinion even more in favor of the dragon-shifters. After working closely with the Stonefire Dragon Clan, she now knows they are not the monsters the Dragon Hunters and the Dragon Knights have portrayed them to be. Well, maybe none except head protector Kai Sutherland. Investigating this story and becoming acquainted with the people from Stonefire has reignited her desire to discover the truth and she's determined to find the hunters, expose them for the monsters they are and have her story - even if it kills her.

Unfortunately, it just might since no human has ever revealed the inner workings of the dragon hunters but that's exactly what she intends to do. And she was doing just fine until Stonefire's head protector, Kai Sutherland showed up and threw a monkey wrench in her well laid plans. Who does he think he is anyway???. She will never allow the sexy Stonefire dragon-shifter to interfere with her investigation! Or would she??!! No, she will not! At least not until she's finished her story and secured her reputation as a truly respected investigative reporter. Visions of sugarplums and Kai naked will just have to wait! Or will they??!! Nope, she can't afford to sleep with the handsome protector, especially if she doesn't want her story to be labeled as biased. That would only serve to destroy her credibility and her reputation. It'll be torture but she can most assuredly resist the growly dragon-shifter. Can't she??

After the capture, torture and death of dragonwoman Charlie Wells, Stonefire's first female protector, ex-army dragon-shifter Kai Sutherland has only one objective - protect his clan by locating and taking down Simon Bourne, leader of the Carlisle dragon hunters. And in the process, he can also seek retribution and revenge for his brethren. And his plans are going well until he finds BBC reporter Jane Hartley right smack

in the middle of a group of Carlisle hunters in a pub in Newcastle. What the heck? He will not allow his dragon's lust for the beautiful female reporter to disrupt his mission and he will never, ever share information and work with her! Nope, never! He will never allow himself to be distracted by a female ever again! Or would he??? What in the world is wrong with his dragon? Eleven years ago, he had been rejected by his true mate, dragonwoman Maggie Jones, but for the first time since his heartbreak, he has finally been able to forget the female who should have been his mate - just by listening to Jane's voice. Oh my! But he doesn't have time for a human nor any female for that matter, so her voice is all he could allow himself to have. Now, if he could only get his dragon to shut the hell up!

Part Two: Stonefire Head Protector Kai Sutherland has finally agreed to work with BBC reporter Jane Hartley on finding the location of Simon Bourne and the Carlisle Dragon Hunters. Unfortunately, they are unaware that the Dragon Knights have posted a 5000 pounds bounty on Jane's pretty head. As they begin their mission, Jane is betrayed by her contact, a man referred by her brother Rafe Hartley who is a member of The UK Special Forces. Uh oh! An attempt is made on Jane's life and Kai is injured trying to protect her. Fortunately, the pair is rescued by another protector, dragonwoman Nikki Gray, and returned to Stonefire where Kai can receive treatment for his gunshot wound. Kai may be injured but that hasn't curbed his dragon's lust for the lovely reporter - not one little bit. His dragon is driving him insane! After two mind-blowing kisses, Kai can no longer deny his attraction for the sassy reporter and discovers that he may desire Jane just as much as his dragon. With Jane now in charge of Kai's care and living in his home back on Stonefire, it just got a whole lot harder for the stubborn pair to resist each other and if Kai's dragon has any say in the matter, Kai may just have a new mate - that is if he can keep her alive and away from the Dragon Knights as well as the Dragon Hunters. Oh my! And he still can't get his dragon to shut the hell up! It may not be possible for a dragon to have more than one true mate but Kai's dragon is sure determined to have Jane! Now that a bounty has been placed on her head, Jane is in even more danger than before. She doesn't want more people getting hurt because of her story. For her own protection, Bram insists she must stay on Stonefire land and as a result, she's afraid her credibility may now be compromised. That in itself may not be so bad but she's still determined to help sway public opinion in favor of the dragon-shifters and possibly with the aid of her big brother Rafe, she still may be able to help. But is Jane willing to sacrifice her story, her credibility and her reputation to have Kai? It would be hard for any woman to be objective around handsome dragonman Kai but judging from her body's reaction to his two kisses, it may well be worth it! Will she be able to resist Kai - that is if his dragon can convince him to make a move??? Hmmmm...I wonder??? No spoilers from me but I will say this....Beautiful determined reporter-check! Handsome head protector dragon-shifter-check! One very randy and exceedingly stubborn dragon-check! A large, diverse and very intriguing cast of characters-check! Danger, suspense, adventure and heinous enemies galore-check! Heated attraction, fiery passion, sexy banter, a little self imposed angst and well, we'll see!!!! And the icing on the cake - many of our favorite characters from Jessie's earlier series make an appearance and lend a helping hand. That and a whole lot more!!! Hopefully, we'll get to meet Jane's brother, Rafe. I think he and Nikki would certainly be a match made in heaven! Deliciously cute, seriously sexy, fabulously funny, completely captivating and delightfully entertaining. I can hardly wait for the next installment!!!

Reawakening the Dragon: Part Two is the second part of Kai and Jane's story arc. I received a copy in exchange for review. One thing always strikes me about Jessie Donovan's books. They are always tightly plotted, written and edited. This installment is no different. Things are quiet at Stonefire but, Kai is definitely not willing to rest and assume that means things are okay and no one is plotting against them. He is avidly watching and even spending time outside of the clan lands to keep an eye on what the hunters and other groups are doing. Jane is out there trying to investigate and get information for her own uses and things get

hairy right away. The story stays action-packed and the give-and-take between Kai and Jane is a slow sensual burn. Nikki's role is pretty big in this story also and the rules for how she is allowed to date/mate are different but, she is getting push back from her dragon. I wonder if she will be the next story arc. I'm looking forward to seeing what comes next!

Jessie Collins says

Part two of the ARC begins with Kai Sutherland and Jane Hartley going into lip lock. Kai begins to enjoy the sweetness that is Jane while his dragon argues to go for the gusto! Jane is not immune either, as she's been dreaming about Kai. Face it they are very attracted to one another. Kai breaks it off, arguing with his dragon about Jane. Who won the bet? I'll leave you to read about it!

This story continues with Jane and Kai continuing to dance around one another as they pursue the Carlisle Dragon Hunters, baddies both really want to take down. Lust, Arousal, and Timing drive them both crazy. Add in a skirmish with some bad humans, Kai getting injured, Nikki flying them both back to Stonefire turn this into quite a sizzling story. Oh and Nikki happens to mention to Jane about Kai's former love and it becomes an action packed firecracker just waiting to explode! Good background story with characters too hot to handle! Flows well, ends in a well-timed cliffhanger. Ms Donovan has you chuckling the whole read! I sure hope Jane gets the answers she wants in the next installment or she's going to go bonkers!

I have read every dragon story Jessie Donovan has written. They all have humor, intrigue, male /female sizzle and interplay. This one is not immune! I am really looking forward to the rest of the story! This is part 2 of 4.

I love Kai's toughness and Jane's no BS personality but I had to be honest with myself and think really hard about this review. So as the rules of the honest review game go, this distinct part of Kai and Jane's story just didn't do much for me in regards to the excitement that I look for while reading books. I don't feel that enough happened in the 50 or so pages of story for anything in particular to stand out in my mind and have noticed over the past few books that I've started finding it particularly complicated to rate and review the serials. The shortness of those distinct parts are beginning to feel as if they don't have enough in them to be able to map out a completely fair review in relationship to the overall awesomeness of the direction of the story. While all components together most likely will deserve a 5 star rating in my mind, it sucks as a fan to have to give anything less than a 4 or 5 star. I hated giving it 3 stars because I absolutely love Jessie Donovan's stories but that's how I felt about this particular piece of this specific book. :(

My Thoughts - 5 out of 5 Unicorns - I loved it!!!

The cover is another stunning work of art!! Love it!!

This is the 2nd part of this serial novella series. You should know that mean it ends in a cliffhanger, so if that bothers you, you can collect them and wait until you have all 4 parts before reading or what until the boxed set of all 4 come out. This is also for adults only due to the randy thoughts of Kai and his dragon.

I always get excited when I get new Jessie Donovan story. She is the QUEEN of awesome serials. She has figured out how to do it right. Her stories are always complex and full of action, drama, and wonderfulness. Kai and Jane's story is no different. Tons happened in this story, and I hate where it ended because I was so into the story. I can't wait for the next part!!!

I highly recommend this serial series, but I do highly recommend starting from the beginning and reading them all in order for the most awesome experience because the characters continue to show up in subsequent stories and bring up history that you will not understand :) If you are a dragon shifter lover, you must read this whole series!!!

Book two and Kai and Jane were about to kiss at the end of book one when it left us waiting. Kai and his dragon are battling their attraction--hots for Jane.

I love that she stands up to him--and his consternation. No one stands up to the Head Protector of the Clan. No one but this feisty woman. She is not what he expected and nothing like another.

The plan to find the Hunters leads them to a male human for his help and some deep trouble.

A good read leaving us wanting more. There is some steam, witty dialogue, interesting characters with hints

at more secrets and stories to come. There is action and lots of innuendos Jane and I need the the story behind.

A recommend. I was provided an ARC for an honest review.

Kai and Jane are hunting the Carlisle Dragon Hunters together, at least that's the plan. Only on the way to get their plan moving something goes horribly wrong and throws their plans way off track.

Jane is her usual tough, stubborn self. She takes Kai head on and with no fear. She's not about to be intimidated by a dragon and especially not Kai Sutherland. Kai has been burned by a human before and as much as he's attracted to Jane, she's not his mate, he's met her and she rejected him for another man, but kissing her is just what his dragon wants.

Jane is so much fun, and the way she pushes past Kai's barriers and frustrates the man beyond any other person is so much fun to read about. I can't wait to see what else is in store for this fun couple.

Reawakening the Dragon, Part Two by Jessie Donovan Another sexy, funny adventure headed for the best sellers list!!!

Kai Sutherland – Protector and Head of Security for the Stonefire Dragon Clan
Jane Hartley – BBC TV Reporter

Kai Sutherland and Jane Hartley have the same goal; to take down the Carlisle Dragon hunters and their leader Simon Bourne. While they may want the same thing they have very different motivation. Kai is there to protect his clan and seek revenge for the torture and death of one of his protectors. Jane is tired of just reading the news on the air, being the pretty face. She wants to be an investigative reporter but no one takes her seriously. Jane and Kai have truce to work toward their common goal that they seal with a kiss. Will this kiss lead to a more physical partnership? Jane has narrowed down the area where the dragon hunters are probably living. Will Kai recover from his wounds he received when trying to protect Jane from the dragon hunters. Does the dragon think Jane is their true mate, a second chance at happiness? Will Jane and Kai be able to work together keeping their emotions under control? Or will they give in to the heat of the moment? What does Bram have in mind when puts Jane in charge of Kai's recovery?

Reawakening the Dragon is the newest installment in the bestselling series of the Stonefire Dragon Clan. Jessie Donovan has an incredible ability to bring her characters to life; each dragon has a vibrant personality that keeps their Dragonmen or Dragonwomen on their toes. The conversations between Kai and his dragon made me laugh out loud. The sexual tension between the dragonman and his human female is what keeps you reading late into the night. Right to the cliffhanger, yes, there is one of those but not to worry, Part Three is now available for purchase. This is a Five Star Best Seller!

Lory says

Just when things was starting to get juicy we're hit with a cliffhanger. I love Jane feisty and sassy way its freaking hilarious to watch Kai try to handle her I can't get enough of this series can't wait to see what going to happen next.

Reawakening the Dragon #2 -Jessie Donovan

Kai Surherland and Jane Hartely share their first kiss which is explosive, but before anything else can happen they are attacked, and Kai is hurt. Nikki comes to the rescue in her dragon form and carries them to safety. When on Stonefire land, Kai is whisked away by the Dr and Nikki takes Jane to see Bram. They discuss what has happened and Bram suggests with steele in his voice that she stay on Stonefire land to keep her safe. When Jane goes to visit Kai in hospital, he finds out she has been given the task of looking after him while he is healing. Kai is shocked at the news but has no choice but to accept his leaders orders. When Kai is released from hospital, he takes her back to his place. Jane is dead tired from the whole incident, so Kai shows her to the room where she will be staying. But sleep eludes him and he goes to take a peek at a sleeping Jane. When he sees her in his spareroom bed, he realises that what his dragon has been saying all along is true, she's their second chance. They want her, in their lives and in their bed. So Kai tells her. But before they go any further, Jane has a question she wants a honest answer to. Kai knows he won't like the question but he has something to prove and he will do it anyway he can.

Wow another awesome read. I absolutely loved this story, it was so enjoyable. Part 2 has a bit of everything, humor, action and romance. The storyline is captivating and very entertaining, and I love Kai and Jane. They have a great connection but Kai is moody and stubborn, but I like that about him. Jane, is strong-willed and full of spirit and she's very good for him. What we haven't seen much of yet is the vulnerable side of Kai, but I'm sure we will as trusting is hard for him, especially another female with his heart. Luckily for us Jane likes him and doesn't take any of his nonsense, putting him in his place. So part 3 is going to be very exciting. Jessie's storytelling and writing is amazing and never fails to keep me interested and never disappoints. Although, with this ending, grrr I could have literally strangled her for it but it's a very clever ending. So worth the read and I highly recommend it. Must be read in order. Loved part 2!

Jonel Boyko says

Donovan returns to Kai & Jane's story with flair. The romantic tension between these two is palpable, and apparent in every aspect of the story. Combined with the fast paced, danger fraught story Donovan has created a winning story. The suspense throughout is topped only by that left by the cliff-hanger ending.

I love how Donovan develops her dragon shifters & their world just a little more with each new story. Stonefire is a larger than life place that is seeped with history, mythology, and fantastic characters. The

dragon-human interactions are priceless and really show a lot about who the dragon shifters are.

Kai's over the top jealousy was perfect. I thoroughly enjoyed this crack in his perfectly polished veneer. His alpha-ness on the outside & his vulnerability on the inside makes him a character that you can't forget. Jane's assertiveness puts her on par with Kai, making them quite the couple. Their interactions are so real & genuine, while at the same time being larger than life.

Donovan's latest foray into Kai & Jane's lives was an exciting and fast paced story that left me on pins & needles. I'm dying to see what comes next.

Please note that I received a complimentary copy of this work in exchange for an honest review.

????????????????

Ms. Donovan has become a very talented writer, every time I read her books I'm right there battling the Dragon Slayers or Making Love to my Dragon Mate.

We ended Part One with Kai Sutherland starting to kiss Jane Hartley which that kiss was followed up in Part Two. Jane, Kai and Nikki were looking for the strong hole where the dragon hunters bed down.. Kai took Jane into the alley where no watching eyes saw Kai finished that to die for kiss, Jane wanted it to go on forever. Someone was coming and he told Jane to run and text Nikki. Than a car pulled into the alley and 5 more guys came out of the car

w/guns. Kai was unconscious and bleeding , Nikki turned into a dragon and too the hospital where Dr. Sid can perform to permitted. I was gifted this ARC for an honest and truthful review.

Eva Millien says

Sparks are flying and it's getting hotter as the attraction between Kai and Jane continues to grow but the relationship is a distraction that neither can really afford and these strong captivating characters are determined to succeed at their task and keeping readers entertained. Vivid imagery brings the story to life while the fast paced smooth flowing plot keeps readers on their toes with suspense, excitement and romance while some snarky dialogue not only between Kai and Jane but between Kai and his dragon provides a bit of humor.

I can't wait to read the next installment in the Reawakening the Dragon serial as there has been a hiccup in Kai and Jane's mission and new plans have been set in motion.
