Death Banishes J.C. Diem

Evicted from their own world by the humans that they had twice saved, Natalie Pierce and her few remaining kin float in the void of space inside the ship that has become an icy tomb.

Rescue comes in the form of an alien spacecraft and Nat and her friends are soon facing adversaries that they have never encountered before. Their dwindling species is on the brink of extinction and it quickly becomes apparent that their new enemies would be only too happy to finish them off once and for all.

Still going strong

I find it hard to believe that it's people aren't talking about this series. It is a very good action adventure series about vampires that is Different from any you have read before.

I am delighted that I got all of the series at the same time, I would have not wanted to wait for the story to continue.

So they were banished from earth by the ungrateful humans that they just saved. They are frozen into vampopsicles and float around in space when their ship runs out of gas. How wicked is that?! The powers this chick finds in herself are frigging amazing. Once again she saved her people. but what did she bring them into?!

A planet on the verge of extinction, and who use to run the planet?! Their ancestors!! What are the frigging odds..lmao.

They met and allied with some strange new beings, helped them out, then guess where the escapees ran to..YUP, they going back!!

Kaitlyn says

Natalie and her friends got banished from Earth by the very humans they tried saving.

Now they're floating around in space in a frozen state.

Natalie awakes to find her friends have all aged and are frozen. She knows time is running out for the younger vampires, so she finds a way to call for help. Help comes in the form of an alien spaceship from another planet. Go figure it'd be their ancestors to "save" them from their frozen tomb. Sadly, it only brings more trouble. Can Natalie keep her remaining kin alive?

Disappointed

Loved the previous books in this series. But this one seemed repetitive throughout. The one one thing I anticipated from very early on was the immortality of the others who drank from the ancestors. I think the reduced character interactions and dialog was part of the problem as well as the plot. Hoping for more with the next book.
