Angel of Reckoning Justin Sloan , Michael Anderle

For this vampire, it's time to die... a second time.

Valerie understands that to take the fight to those who are attacking in New York, she needs to leave the spotlight. Both for the city, and for herself.

Her enemies are relentless in their attacks to get to her. Since they have relocated to the Chicago City-State area, that is where she must go.

Only one problem, she will be running into the militaristic force called the FDG. She'll need to either work with them, or stay off their radar to take out the CEO's

She hopes.

For those who have been demanding her head, the Angel of Reckoning has their response, and she is coming to deliver it.

Personally.

Yep, Val Just keeps kicking butt!

I liked the mission in this book, it is in keeping with Michael's job description for Val. I am going to miss New Manhattan....but Sandra & Diego and the fate of the city could be another spin off. Looking forward to Robin & Val's trip North. & Can we get more Cammie & Royzton?

Scott says

A series here to stay

Valerie is finally making her move for Justice and going after the CEOs . If she is to make America rise from the ashes then she needs to take the trash out. An emotional journey and an enticing read.

Jane Shambler says

Still addictive

Valerie succeeded in taking down the CEO's. I was expecting more of a fight but point is she exacted justice. Half the vampires they made decided to join Valerie. She returns them to New York and then begins her travels north towards Canada. Where her next adventure lies. Enjoy!

George Lawson says

Best of the series so far

This was definitely the best of the series so far. Better character development. Some added. Plot lines to keep it fleshed out and interesting. Looking forward to seeing the rest.

Amba Jane says

I enjoy books with a strong female character and this book had that in spades. We were introduced to some new and original characters, and we caught up with the characters we have got to know throughout the previous books.

Diane Ball says

I love the Kurtherian Gambit series and think the Justin Sloan made right choice deciding to become a full time writer

writer Justin Sloan is a great addition to the Kurtherian Gambit series. I love his books and am immersed in his story so far.

Linda says

The action in this book is exciting. Valerie has left behind her comfort base and going into the darker parts of humanity. I am a year behind as to when this book was first published. But anyway, congratulations Justin on your full time writing career. I also liked your short story at the end and plan on picking up some of your other books outside the Kurtherian universe. Good Job

Tracy T. says

Wow this series is so good. Great Narration by Kate Rudd. (audible review)

So much action going on all the time. I love Valerie, she is awesome and can kick some butt for sure!

These books are about Vampires, Weres and Human's working together after an apocalypse. There are good guys and bad guys. The stories are easy to read and follow along. Very fast paced books. Exciting and fun.

I especially love that after the end the authors put add notes about the book and the story and other books they are working on. It's nice to hear what is in the authors mind when they are writing so this is a real treat.

As for the narration. Well it is fantastic. Love Kate Rudd. She is a great narrator and really brings the characters alive. The men sound like men, everybody gets their own distinct voice and she read with emotion.

If you have read this series you should! I highly recommend this series and The Kurtherian Gambit Series by Michael Anderle. They are all great books too.

Justin and Mike Did it Again

I would give y'all 5 stars but that's a near impossibility, but doable lol. I love all the Kurtherian Gambit Series and the offshoots. Valarie, Terry and his crew and the Series about reclaiming or reawaking magic. They're all well written and keep you wondering what is going to happen next. I think Robin is a Great addition to Val. Keep up the Great Work?.

Angel of Reckoning - a review by Rosemary Kenny

There are so many themes and thrills to this latest episode of the Reclaiming Honor series, that it is difficult to choose a 'best bit' from among the battles between Valerie and her Justice Enforcers and the traders in vampire blood, renegade vampires (Ella), the Forsaken and the Black Plague, their leaders the Three Amigos and the former CEOs to name but a few!

As a result of the danger her enemies are bringing to New York, Valerie decides she must fake her own death in public, so she can take the fight to Chicago and its suburbs while they are unprepared for her stealthy attack.

Who supposedly 'kills' Valerie and what is the occasion celebrated beforehand?

Who is Morgana and what fate awaits her in the plaza?

Who are the two companions who accompany Valerie on her mission?

What do they discover about one of them before they reach Chicago?

Who is Robin? Where does Valerie meet her and what is the outcome?

Where do Cammie and Royland go on a mission and why?

Justin Sloan's exceptional novel continues the excitement of the previous novels in the Reclaiming Honor series [with Michael Anderle] and its storyline will fascinate any fan of fantasy werewolf/vampire thrillers with its well-developed and extremely well-developed protagonists... Valerie, Cammie and Sandra are definitely kickass queens and are well-supported by heroic hunks Jackson, Royland and Diego...a breathtaking bunch of badasses!

Thank you

This was the perfect ending for an excellent story arc. It was great seeing Valerie on her own and coming into her own as a full person. It was awesome seeing old friends make an appearance and now understanding where this story fits into the timeline. I cannot wait until our two lazy weres show up in Old Manhattan, so, Mr Sloan, you had better keep writing!

Gaileen Crowell says

Continue to excel in series

Justin, you continue to amaze. The character of Valerie is great and deep. The story stays strong, too. It was fun seeing TH and Char tied in. I kept wondering how that would read, but it was great. There is a lot to be said when a group of authors can collaborate as you folks have and not let egos get in the way! Keep writing. Awaiting more good things, and if you all stop writing Kurtherian books, I may just get around to your other works!

Iori says

From what I am reading on all the Kurtherian books, I ask myself if the author isn't going to assemble all the characters in his main work. Let's talk about Valerie, there was a bit of growing up in the book, and lot of talks about the future. Valerie must seek something beyond her justice and kinda have a life because it would be unfair to let her be like this. Sandra and her man are already beyond that point...

I found the book kinda fast paced this time. Meanwhile it's good read as usual!

Keith Wilson says

Great! It's great!

What did I not like about this fourth book? There were several typos. What did I like? The characters, the story, the settings, the characters. I look forward to seeing what happens with Valerie and Robin.

Trish R. says

So, this was listed as book 4 of 4, which I thought was the last book in this series, but apparently that's not what 4 of 4 means, since the authors notes was talking about the next book, #5 is Born in Flames. It says it'll be out in June of 2017, so YAY!

The first CEO, Ian, she was out to kill was as crazy as a bedbug so she couldn't kill him, not with him being insane, it wouldn't be right! However, she did take care of the other two, Alex and Dmitri. And they in turn beat the crap out of Valerie. There are some serious battles in these books. I loved every one of the Kurtherian Gambit books I've read so far.

This book was exciting and bloody and a little sad, too. Valerie and Jackson were a great couple and it sucked that she didn't even want to say goodbye to him, when she brought the vamps back to Old Manhattan then left with Robin, to look for Robin's family, and for Valerie to kill herself some pirates.

I do love the players in these books: Valerie, that goes without saying, Jackson, Sandra, Diego, Robin, Wallace, Cammie, Royland and Donnoly. And the crazies are great bad guys, Ian, Alex, Dimitri and Giuseppe. And thankfully Brad turned out to be a good guy after all.

Anyway, no sex and the F-bomb was used 27 times.

As to the narration: Kate Rudd is always awesome! With her voices and her emotions.
