Never Trust an Elf Robert N. Charrette

Poised on the cutting edges of both fantasy and science fiction, this bestselling series sells an average of 3,000 copies per month. Drawn into a dangerous game of political and magical confrontation, Kham not only learns that he must never deal with a dragon--he also discovers that trusting an elf may lead to disaster.

From Reader Review Never Trust an Elf for online ebook

Nicola says

old school Shadowrun. I read it in my youth while RPG'ing Shadowrun (one of the early versions of the game) and loved picking up immersive novels for the setting. It's a different experience picking up the novels again as an adult when many years have passed since I last read the books. Still a fun read.

Kevin says

why can't I quit you?

Burt says

Another Shadowrun book. I honestly don't remember much about it besides from the fact that it covers more of the adventures of Dodger and Kham. I remember liking it, but not much else. Another RPG pulp read.

Daniel says

Not a bad Shadowrun book but it helps if you have read the first 3 in the series. It does work as a one off however and it took me a bit to realize who the protagonist was since I hadn't read the first 3 shadow run books in almost 30 years. A decent entry into the lore of Shadowrun and if you like the setting its worth a visit.

Ellana Thornton-Wheybrew says

#24in48

I'm missing several books in the series, but I'm definitely going to reread these.
