Then Kiss Me

Jade C. Jamison

Then Kiss Me Jade C. Jamison

This is an alternate cover edition for B0094A9K10.

Will I know love when I see it or am I destined to repeat the past?

When I moved back home, I was at my most vulnerable: no job, newly divorced from my possessive ex, and living with my parents...which might have been okay if I could get along with my mother.

Once I'm settled in, I find a job quickly—and a guy named Scott who makes my pulse quicken, both because he's a sexy tattooed drummer and also because he's an arrogant prick. I love him as much as I hate him—but I'm damaged goods and have no right to him. Besides, this bad boy has a possessive ex of his own, not to mention plenty of issues.

Can we heal each other and find redemption, or are we destined to live our lives alone?

Sue Brooks says

Really enjoyed this book - main female lead as usual doesn't think of the coincidences and flees before thinking things through. Happy ending anyway. Really enjoy this author

Mary Lou Hoffman says

Category /Genre: NA Romance

Received from: Jade C. Jamison in exchange for an honest review

Recommended for: 18 + due to adult situations and sexual content

Grammar/editing: A – near perfect

Casey is an artist who has left her loveless marriage with the intension of starting her life over. With plans of exploring her passion for painting and drawing, she quickly gets a "day job," a rental home, and a crush on one of her new co-workers. Finding out he is the drummer in a local metal band is the very best flavor of icing on the cake. Soon Casey and Scott are inseparable, until something has Casey running and leaving this life behind as well. Will she always be on the run, or is Scott a reason to return?

I am very drawn to Casey. There are times when I would love to run from everything that is my current life and holler "do over" like a child playing marbles on the playground. Not only did she do it, but she did it with gusto! I loved this story. The more I read from Jade's works, the more I want to read them all!

JG ~ Jezabell Girl & Friends says

I love Jade C Jamison's writing so I'm merrily reading anything and everything I can from her previous releases.

"Then Kiss Me" was an unusual book. I loved it don't get me wrong but there was a difference to the writing style from Jade's more recent books. Whether it was deliberate or not it worked from my perspective. I suspect Jade just developed her own writing style from this point forward.

I really enjoyed the story and the relationship which developed between Casey and Scott. The characters blended well together although Casey was another female lead who I wanted to scream at and possibly get violent with, despite that the story ended with a HEA so I'm a happy bunny!

Although Scott plays in a band this is not really what I term a "band based" book, unlike some of Jade's other books, but the connection worked and brought the characters closer together.

What shall I read next???!?! MADversary me thinks.

Carrie says

Great Book ... shouldnt we all have a Scott in our lives ;0)

Alex says

I didn't really connect with this book. There was nothing wrong with the writing but I found it a bit boring. Nothing in the story made me want to keep turning the pages to find out what happened next. I did finish the book and the author did try and inject some drama but all of it just fell a bit flat. The whole ex-husband episode really didn't add anything other than make the H Scott look a bit of a wimp. I love a strong alpha male but unfortunately Scott fell short of this and seemed to be far too easily manipulated by people he considered friends. The h Casey spent most of the time telling us that she hadn't acted in various ways since she was sixteen and then proceeded to carry on acting the same way. So in conclusion this was just an OK read for me and not one that I'll ever re-read.

Sue says

Casey and Scott...how do I love thee...let me count the ways =)

I got this book as part of Backstage Passion but I want to review each book separately. I really liked this book for many reasons.

First of all...the whole going back home thing after being on your own was something I could really relate to (been there and done that)and it was SO not easy to do or pleasant and that is exactly how I felt.

Secondly...starting over from the bottom trying to make money any way possible, so that you can be independant again and escape the strings of mom and dad, is also something I (as well as many other women I'm sure)really understand and the whole journey that Casey went on, I was with her...rooting for her...supporting her...and feeling her frustrations! Finding her true passion in art was a big bonus!

Scott came off at first as being cocky and aloof and I wasn't sure I was going to like him...but lo and behold...we get to see him in a whole new light and the story gloriously goes from there.

It contained passion, sexy lovemaking, music to bind the hearts and a little bit of ugly violence thrown in to keep things interesting. I was nervous for Casey the whole way through though, and held my breath till the last chapter. Great, fun read.

*****5***** Kiss me hard stars =)

Jessica says

4.5 stars for this one... I really liked it and at some points I could have beat the crap out of Casey... Then everything worked out!! This really was a good story!!

Kristen says

I bought Then Kiss Me for two reasons... 1. I LOVE Jade C. Jamison and her rockstar books, and 2. Scott (our H) is a DRUMMER! (*sexy*) What I liked about this book is that Scott was not a rockstar in the traditional sense (big band, lots of money, making fangirls scream and drop their panties every night, or the usual sex drug and rock & roll). Don't get me wrong, being a fan of rockstars, I enjoy that aspect in a book... but the fact that Scott was just an average guy WITH rockstar qualities who happened to be a smoking hot drummer in a band was a nice take. I also liked that both Scott and Casey (our h) were not completely messed up in the head, which seems to be the trend for a lot of books these days (ie... abused, abandoned, assaulted, etc...).. They were just normal people trying to find their way while dealing with some typical and maybe some not so typical problems. Jade did a great job making very REAL characters that a reader could relate to. This is a definite two thumbs up, in my opinion!

Sweets Books says

Well, it was good but it dragged in places. The characters were interesting and believable, I just didn't really relate to Casey. So in the end its a good, relatable and believable story and characters. But I just didn't relate to Casey!

Casey ~ Don't get me wrong she was a hoot, but at the same time I just didn't like her. I really don't get why she ran when she thought she might be pregnant. I mean she's 26/27, she dealt with it like a teenager. I know from experience, I became pregnant when I was 19 but I didn't run I dealt with the consequences and became a single mom at 20. But in the end she did put on her big girl panties and face the consequences of her actions! I just thought it was too easy for her when she came back! But that's my own opinion!

Scott ~ I liked/love him a lot, he was such a good guy even with the rocker facade! He didn't play it like he was one. I think that's why he stood out so much to me, I would of seen him make Casey apologize and/or prove how sorry she was. Instead he took her back with almost no explanation, but hey to each his own!

Overall its a great story, I just didn't like Casey! But she isn't the firstMC I haven't liked and probally want be the last!

Till next time ~ Sweets Books

Tabitha R says

I so wanted to like this book. By the description of this book I thought this would be a pretty good read. I read each page hoping it would get better. It started off differently from most books. Almost like a diary. I thought ok maybe this is just a new technic.

I didn't think the book flowed very well and the story line was choppy at best.

spoiler

The fact that Casey was attacked physically by Jim in the bar and nothing was said of it. Then she was almost raped by Jim in her boyfriends house and the only thing done was Scott gave Jim a "Shiner" as he grabbed him off of her. And yet she stilled worked with him, was in the car that dropped Scott off at her house, and no confrontation or charged were made!!!! What!! That just made me sick.

Scott I thought was going to turn out to be some dream but.... He just let Jim do all those things to Casey. Then! When her ex husband DRAGS her out of the house and forces her in his car all the whole Scott is just standing by.

The listen explanation given to explain Scott's non actions were so weak it turned my stomach.

Not to mention her ridiculous action of running away because she "thought" she was pregnant.

The whole thing was unbelievable and left a bad taste in my mouth.

Only hi-light was her best friend and Scott's cousin Dave. I would of rather of read the story about him then anything else.

Melinda ~ Twinsie Talk says

I bought this book just because I loved Jade's rocker book Bullet and need to read another rocker book. So thought I would give this one a try. What can I say I loved this one too! Don't get me wrong there were times I was shaking my Nook just wishing it was Casey I was shaking and found myself yelling at her "what are you thinking girl". Hello Scott, who wouldn't love him, he can cook, plays the drums in a heavy metal band, and supper sweet when you get to know him.

Casey realizes her she no longer loves her husband gets a divorce and moves in with her parents. This only lasted a few days because she got a job at Bob's Southern BBQ, rented a 2 bedroom house, and puts some of her art work on display for sale. Enters Scott, who she sees when she is interviewing for the job at Bob's Southern BBQ. Casey becomes close friends with Scott's cousin David who also works at Bob's. Things are going good for Casey and Scott then just like everything else in Casey life it starts to fall apart. So she does what she has to do and runs away, that's right she runs.....Leaves Scott heartbroken and runs. This is where I start shaking my Nook and wishing I could slap some since into Casey. Want to find out the rest of the story you'll just have to purchase the book because I'm not telling. Happy Readings.

4.5(9)

Kristin says

I really enjoy Jade's books and this one didn't disappoint. I was completely intrigued from the beginning and was hooked. I liked Casey's character and liked how she was getting her life back on track and moving on her own. Then we meet Scott.. And you're instantly in love with him but wondering what he was hiding with Jim. I was so upset with Casey for running away even though it gets that she was scared but really wanted her to trust him. I'm glad the story ended the way it did but I really want another book!!!

Liz says

Not what I was expecting but a great read.

Casey heads back home after her marriage ends in divorce. Trying to restart her life she takes a job as a cook to provide an income and runs into a handsome colleague. Trying to navigate a new life is not easy on Casey but in spite of some of the difficult circumstances she discovers there is love, music and damn hot sex out there if she looks.

Darker and a slower pace than other books I've read by the same author, it doesn't detract from the fact that this is a great story.

Blog says

I really love this history... even Casey is some kind of stubborn and hysterical is sweet the born of the first/no first love...

And well... Scott.. Scott is perfect, he's a real mean.. Thanks You, Jade!!!
