Maria Kaye says

I love this game series! (Even though I haven't played it myself) Everything about it is so creepy, weird and uncomfortable. Also I noticed this issue gives you a sneak peek at the hideway boy? Who I heard will be the second dlc character? :D

Kristen says

The art was delightfully done, but I didn't totally understand the storyline. I thought it jumped around too much and didn't really explain anything. I didn't feel scared at all. Maybe I'm missing something because I haven't played the video game, though.

Inula Regis says

Meh...

Lisa says

Actually very confusing, in all honesty. But the art is nice. And the bits that I did get made the game have a little more sense.

Mia says

The artwork is beautiful and the first half was great but I got a little confused in the second half.

Janice Kelly says

Great very well done art is great too

It doesn't tell you much but it is very good would recommend for fans of the game ... ? :)

Amy says

I'm not a massive comic fan admittedly but I adore the artwork used within the game and comic books. This comic is beautifully done and I shall go on to buy the other two.
