Braxton Liberty Parker , Darlene Tallman

The challenges of setting up a new MC were huge, but Braxton Callahan knew the rewards would be worth the hard work that he and his brothers were putting in. Relocating to Corinth, Texas had been interesting to say the least, but they wanted to live in a town where the businesses they were starting would help revitalize the area. A single father to Lily, a precocious six-year old, he longed to find the woman who would complete his family.

When Caraleigh Jensen moves in next door with her little boy Luca, who is the same age as Lily, he finds himself drawn to the widowed single mother. Change isn't always bad and it isn't always good.

Follow along as Braxton and his brothers continue to rebuild the town while he works to woo the woman his heart says is his.

Warning this book contains sexual content. No one under the age of 18+ should purchase this item.

Really enjoyed this MC Romances. Braxton is a single father who is president of a mc club. He meets his neighbor a widower with a small son and life is about to change.

A pretty vanilla club - in legal busines working together and no club bunnies. But all alpha males. If you haven't read any MC this would be a great first one.

I only read the sample, but that was enough to decide not to purchase the full version.

I've had 3 kids of my own, I've worked with PreK right up to 5th grade kids, and I can't say I've ever heard any of them speak the way the authors have their characters do in this book.

The nail in the coffin for me? Here is this woman, who is new in town, has a son in first grade, sets up a play date with a complete stranger. Takes her son to this man's house. A man she has NEVER met, doesn't have his phone number, found out what his name was after he opened the door, and proceeds to leave her child alone with A STRANGER for hours ????? WTF kind of mom is that ?

Yeah, I get it's fiction and all, but come on, as a mother - the sample alone was filled with so much NO, I knew I would just end up pissed off at the idiotic female character. #SheWinsAtBeingABadMom

What an amazing read!

Braxton: Rebel Guardians MC is my favorite read of 2018 so far. Braxton and Carleigh have a chemistry that sizzles. The storyline is fresh with a good balance of romance, drama, and family dynamics. Lily and Luca are so freaking adorable. The supporting characters are just as interesting as the main character which makes it a page turning experience. Loved it all! Can't wait for the next book in this series.

So good and absolutely safe! I loved it!!

I only gave this one 3 stars because in the beginning it seemed to me it was too proper for an MC book. Lately I have read quite a few MC books and it was hard to process the toned down comments of the characters regardless of the situations and made the books appear a bit fluffy to me. However I am glad that I did finish the book and really enjoyed the story line, so much so that I would entertain reading more books by this author.

DNF 45%. - I struggled to get this far, the storyline was good but the dialogue wasn't natural and too forced. It didn't allow you to connect with the characters.

Could not put this down!!

Braxton, is just beginning to make a difference with his Brand new MC, legitimize businesses and family atmosphere brings together a great group of guys with just the right amount of security for his little girl. Caraleigh is starting her life all over again after the death of husband. Escaping the cruelty of her in laws, Cara and her son Luca begin a new life in a new town and find more than they ever expected!

An outstanding storyline of two single parents looking to provide the best they can for the little one in their lives. Neither one is actively looking for love, but they find a love like no other in each other. Regardless of their pasts, these two amazing people stop at nothing to make life perfect for each other. Wonderful characters both lead and supporting, they all have such way of connecting with each other and compliment the story in a big way. I can't wait to see what happens next for this amazing group of people! Well Done?

4.5 Stars!!

Enjoyed this one....great start and collaboration between these two authors. The storyline is fast paced, sex is hot, and characters memorable. Can't wait for Hatch and DJ's book. Plus this book left some unanswered questions, need to find out more. And I absolutely love how much impact the kiddos have in the storyline. I love little Luca.

Thanks Jamie Nibarger Ellis

I received a kindle copy from the author(s) for review to get their numbers up on amazon. Ugh...I don't know what to say about this one. The premise of the story was not bad. It was a disgustingly sweet insta-love story about two people with kids finding each other after loss of their partners(one from death and the other abandonment). First thing that really got to me was the writing style, it felt so robotic and it was really hard to feel the emotions of the characters because it felt forced or not believable. And the way the kids' speech was done annoyed the hell out of me, it made me wonder if the author(s) ever actually listened to children speak before, especially for the ages of them. And the sex wasn't really that great honestly. I tried so hard to get into this one and it just didn't happen, I found myself skipping parts just to get through it so I could give the review. It really confuses the hell out of me how this book has so many 5star reviews, I just don't get it. I hate giving bad reviews but it is what it is. I give this one 2.5 stars :(

I loved it. Perfect read for me. Safety: Dead spouse raped the h, was only a sentence, not descriptive.

Braxton Callahan is the President of the Rebel Guardians MC. When new neighbor Caraleigh Jensen moves in with her son Luca, Braxton knows she is the one for him. He is the father of a daughter Lily and between his mother, their kids it is only a matter of time before they are living in one household. The only problem is Caraleigh's former husbands parents who want Luca for their own.

I liked this, a bit angsty but was what I was in the mood to read. There are some pretty funny moments and the book flows well. Liked Braxton he is a bit of a caveman which makes for a good read.
