## **Reclaim** Christina Lee

Ever since high school, Elijah and Kamnan have always had each other's backs. So when Kam suffers a freak accident and is laid up for a few weeks, it's only natural that Elijah steps in to help him through his recuperation.

But they soon discover that the occasional meet-up to throw back a few drinks is very different from being cooped up together in Kam's condo day in and day out. In fact, the more time they spend together, the more Elijah sees Kam in a completely new light—one that surprises and scares him. After a tender moment turns into a passionate exchange, Kam first chalks it up to the building tension of the routine they've fallen into. But everything feels more intimate, and time apart feels empty.

As Kam regains his independence, the real world begins to encroach on the sanctuary they've built for themselves. Elijah's still getting over a bad breakup, and Kam has his own plate full of responsibilities—his Spin Cycle business and joint custody of his five-year-old daughter. A relationship is the last thing either of them is prepared for, but will trying anyway end in heartbreak, or will resisting be the wedge that tears their friendship apart?

### Elizabeth says

This was suprisingly good. Great flow, good characters and a simple bff's to lovers theme that builds nicely. Good book.

Friends-to-lovers is one of my very favorite romance tropes and Kam's and Elijah's story was as close to perfect as you can get! Such a delicious slow burn that had my heart clenching on more than one occasion. I loved how comfortable they were with each other, and how there really wasn't anything they wouldn't do for the other, all thanks to their long and loving friendship. To say Kam and Elijah had the makings of a wonderful relationship is an understatement. And I absolutely adored having a front row seat, to see their feelings develop from those of friends to ones that were even deeper and more meaningful.

Low on the angst, high on the sweet, Reclaim is such a heart-warming, feel-good story! Individually Kam and Elijah are both quite endearing, but together they are beyond adorable! I enjoyed everything about this book, and I just loved having the chance to visit with all the friends again- what a terrific group Ms. Lee has created!

**Reclaim by Christina Lee** was exactly what I've come to expect from her. She always delivers fleshed out characters whose love stories grow naturally.

#### What I loved:

- Best friends to lovers
- Slow burn
- UST
- Interracial romance
- Awesome supporting characters

#### Only niggle:

Though I love a good slow burn- this one was a tad too slow. I would've liked a little more steam or more time together with them as a couple.

Overall though a lovely read that had me hooked from the get-go. Verra nice addition to the Under My Skin Series. 4 Stars

The pleasure of this book is the steady steady beat of this books pulse as we see Kam and Eli move from friends into lovers.

The book slows down as Eli reflects on his last relationship and Kam recovers from an injury.

They really see each other anew as grown men and value who they really are.

Then, pow, chemistry.

The cast is great and we get an awesome dog too in this lovely character driven inter racial romance with wonderful bi rep as well.

Likeable, well-developed MCs who actually talk to each other, best friends to lovers, plenty of UST, almost no angst, a nice helping of hurt/comfort, and a cute dog named Ginger ... what's not to love?

Not a whole lot.

I loved catching up with the other couples and was pleased that Kam's ex was a nice person. I adored Kam's daughter and his mom. No family drama here!

---

My one wish is a stronger ending. While I've no doubt these men are perfect for each other, there was no epilogue or time lapse. The story takes place over the course of a few weeks, so while the friendship is solid, the book ends before the romance really begins.

### **Elsa Bravante says**

El más flojo de la serie, se lee rápido y no aburre, pero le falta mucho desarrollo de los personajes y de la historia, todo muy superficial, y el libro termina cuando su relación comienza.

Oh boy I am so loving this series.....I'm loving Christina's writing style and these books are so perfect.....This one reads so sweet.....Elijah who I loved before and hoped to god he would get away from Stewart and find his true love...And Kam is the one...Oh boy the way they got together was just perfect...A nice slow get together...friends who didn't just jump when they realised what they felt...How Elijah just helped Kam because it's what friends do and how they interacted with each other...I think this is one of my favourites..A definite re-read.....Perfect x

There's not much better than the friends to lovers trope and in the skilled hands of Christina Lee, we are given a masterpiece in how to build up tension.

I loved Elijah in the other books in this series and was glad when he finally dumped Stewart (more on him later and what a delightful Easter Egg that was) because he was treating him like dirt.

Kam was more of an unknown quantity but I soon grew to love his solid and reliable presence in Elijah's life and how Kam had slowly realised he was falling for his best friend once he'd been sidelined by injury and reliant on the other man's help.

Chuck in a sweet dog, a wee bit of UST, some fear about irrevocably changing their relationship for the

worse, a couple of smoking hot blow jobs and I was totally on board the Elijah and Kam train.

Eventually someone needs to make a move and I loved that it was Ginger the dog that helped Kam to finally declare his feeling, leading to a super emotional smexy times scene which was perfect. The epilogue is super sweet and we get to catch up with the other two couples too on New Year's Eve.

And back to Stewart, the bonus chapter after the epilogue had me squealing as it had been discussed long and hard in Christina's Facebook group and, while she says it's not from an upcoming book, I am rather hoping there's a "yet" firmly attached to that statement ;)

#ARC kindly received from the author in return for an honest and unbiased review.

Finally finding the courage to step away from his controlling boyfriend, Stewart, Elijah is working on getting his life back together by spending time with the people that mean the most to him: His friends.

He and Kam have been best friends forever, so when Kam is injured and bedridden for some time, it's only natural that Elijah offer to spend the evenings/nights with him after getting off work to help with whatever he needs. Over the next few weeks, feelings neither realized were there begin to deepen, but will they risk their precious friendship to explore those feelings?

This was a much lighter read than the others in the series. I love a good friends to lovers and this one was just perfect. I adored both Elijah and Kam, and I loved that the transition from friends to lovers was slow. It felt natural and organic.

The unresolved sexual tension — this story is a slow burn — was so thick you could cut it with a knife and when they finally give into it, it was explosive. The chemistry between Elijah and Kam was amazing and the sex was sweet, passionate and worth the wait.

The story was well-written and flowed well. It was an easy read and I enjoyed getting to know Kam's daughter, Olivia, who was absolutely precious, as well as catching up with some of the characters from the previous stories. This was a sweet, satisfying and well, just a perfect read to snuggle up on the sofa with. Very enjoyable and highly recommended!
