## **Wicked in a Kilt** Anna Durand

An even feistier American. A wickedly hot Scot. Passion ignites.

Calli Douglas has avoided romance for five years, bound by a promise she never should've made to a man she doesn't love. Now, he refuses to let her go. When she leaves her backwoods hideaway to attend her cousin's wedding, Calli has no intention of meeting a man. But fate has other plans--in the form of one scorching-hot Scotsman.

Aidan "Don Juan" MacTaggart is the living embodiment of carnal pleasure and seductive prowess, but he longs for love and commitment. The moment he sets eyes on Calli, the stunning American captivates him. Though she's sworn off sex and romance, unraveling the mystery of why tantalizes Aidan almost as much as her sensual curves.

As their passion for each other inspires them to explore their naughtiest desires, a deeper bond takes root. But when secrets from both their pasts threaten their happiness, they must confront their fears or lose everything.

## From Reader Review Wicked in a Kilt for online ebook

### Tami says

I have reached a moral quandary--a relationship dilemma--a marital quagmire. Feel free to read this and help me decide if she was committing adultery or not. She married a "friend" to help them stay in the country. So a marriage of convenience. The marriage was never consummated. But she is legally married on paper...well ignoring the marriage fraud, she is legally married. If she has hot sex with another man, would that be adultery?

This review is based on the ARC provided by the author and/or the publisher via AXP in exchange for my honest opinion.

---

### Amy Alessio says

Calli thinks the hot man in the kilt is a stripper for a bachelorette party, but when she realizes her mistake, she knows she is really attracted to Aiden. Determined not to get involved with anyone while her marriage on paper has not been dissolved yet, she returns to her Michigan cabin.

Aiden has come to America to find a wife, and thinks Calli is it for him. He follows her to Michigan and they quickly fall in love despite a bumpy courtship full of mishaps. Calli can't see how she and Aiden will be together, but soon she is unwilling to accept anything else.

I received an arc of this delightful romance in exchange for an honest review, and now I plan on reading everything else from this author. The modern man in a kilt story has a lot of appeal and the sexy second chance for Calli adds to a story filled with humor and chemistry.

---

### CoffeeTimeRomance andMore says

Ms. Durand writes an enthralling story. I could not believe the book was over in what felt like a moment; the hours just flew by. Aiden is a dream come true for any woman especially if you love a man in a kilt. I highly recommend the writing of Ms. Durand and Wicked in a Kilt but be warned you will find yourself addicted and want your own Hot Scot.

### Dana Busenbark says

I love Calli! Her cousin Tara is due to get married in this book. I love how descriptive Calli's thoughts are. They are so funny. Especially when she steps out of the private room that she's in a party at, to 'get a drink' other than water. Tara sees right through her. What is her real motive for getting that drink? Who is Aiden

MacTaggart? Where is he from? What is he doing in the same location as Calli? What happens when Calli heads out to the main room to find someone that the party is waiting on? Oh, I love Aiden's family! We get to meet Calli's brother, Gavin in this book too. We get to know him a bit more. I can already see book 3 coming after this. Jamie, Aiden's younger sister is a real treat to meet. There were some unexpected twists in this book that truly had me ready to cry in a couple of spots, but at the same time, we do get our HEA and an idea of what the next book might be like. Enjoy the read!

## **Tammy says**

I won this book on a Goodreads giveaway...

It starts out pretty interesting when Aiden is new to America, he came from Scotland to look for a wife. Aiden's brother pulls a prank on him by telling him that Friday nights are kilt nights at this bar. Friday night comes along and he wears his kilt only to discover that it was a prank and to make matters worse there is a Bachelorette party going on and they think he's the stripper that was hired for their party.

Calli assumes the Scottish guy in the kilt is the stripper that was supposed to show up to her cousin's Bachelorette party, she is embarrassed to find he is not. Her and Aiden have an immediate attraction to one another and he asks her out.

Calli has been hiding a secret from everyone even her closest family for 5 years, she is afraid that getting involved with Aiden will bring that secret out.

I'm not a big fan of erotica romance stories, there is waaaaay too much of that and not much of a storyline. If you are a fan of that sort of thing then you would like this story because there is sex like every third page, it was actually starting to get annoying.... I would have liked more character development and story instead of all that sex.

It could have been a much better story but the story that was there without the sex was pretty good. Thank you for choosing me as a winner of your book... Good luck with your future writings

## **Viper Spaulding says**

Oh my, Aidan just stole my heart! Such a sweet guy, but absolutely smoking hot when he focuses on Calli! I loved that he led with his heart, and he was patient yet determined right from the start. His devotion was oh-so-charming, and his passion was almost overwhelming. Calli is one feisty, sassy woman - I loved her take-charge attitude even though it masked such a wounded heart.

These two are so perfect for each other; their chemistry is strong from the start and you just can't help rooting for them to figure things out. I loved learning the Gaelic slang words and terms of endearment; this author's writing style is so exquisite it was as though you could hear the Scottish brogue out loud as you're reading.

I couldn't put this story down - it was totally captivating, from the wedding in Chicago to the woods of

Michigan, all the way to the highlands of Scotland. So much heartache, so many secrets, so much love to overcome it all - just a beautiful reading experience, start to finish. I voluntarily reviewed an ARC of this book.

### **Cynthia says**

When giving your word sometimes things happen and it may be hard to keep it. When you add love to the mix it gets complicated as it does for Calli when she meets one hot Scott in a kilt that gets her in over her head when she mistakes him for someone else. I have to say I knew what was coming and as it played out I laughed myself silly. My mouth even hung open a time or two. This was a fun read that held my attention with some very hot steam that lit up my world. I loved the drama, the humor and the hot sex.

There is nothing like telling a person no to get them hot on your trail. Aidan wants a wife and comes to America to find her. OH he found her but she isn't interested she doesn't want anything to do with sex, love or marriage. Aidan is one determined man who isn't going to take no for an answer. What this leads to is one very interesting story with a great plot filled with drama, romance, secrets, humor and love. I really loved the characters from the first page. I loved how Aidan played out the scene when he was mistaken for someone else. The attractions is very strong for both of them from the start, you can fill the pull. The steam is hot and steamy you almost have to fan yourself.

The author grabbed my attention from the first page all the way through to the last. It was a fun read that I thought was well thought, well written with characters I loved. It was a great read that I enjoyed so much I bought the other two books in this series.

### **Mary Lou Hoffman says**

WICKED IN A KILT is the second book in the Hot Scots series. Each will stand on its own, but it is best if read in the order of release since there are updates on the previous couple.

I loved the parallels between the story of Lachlan and Erica and Aidan's meeting and romancing of Calli. It is the perfect setup for a family legend to be begun.

There are parallels, but this is not a rewrite, insert different names. In fact, Calli figures out that Aidan is trying to follow in Lachlan's American footsteps and calls him out on it. Then it becomes a running joke between them all.

I also loved that there were actually two couples paired up in this book. Nope, I'm not telling you who the other couple is. You'll have to read it to discover it for yourself. I highly recommend that you do read it, by the way. It has heart and humor.

I look forward to reading more from the talented Anna Durand.

Note: while I was given this book as a gifted copy, my opinions are my own and are given freely.

Title: WICKED IN A KILT

Series: Hot Scots #2  
Category /Genre: Contemporary Romance  
Recommended for: 18+ due to sexual content  
Grammar/editing: D – many errors, some distraction  
Received from: Anna Durand (as a gifted copy)

### **Kim O'Daniel says**

Holy moley what a book! I mean what could be hotter than a Scott in a Kilt. This book is so well-written and thought out. It has a great flow. This book was not only humorous but also fun to read. This is Calli and Aiden's story. I love how they meet and can see why she thought he was something else. But man his reaction to the bachelorette party was priceless. And man was he a sweetie, checking up on her and talking to her cousin to make sure was great. It was hard not to fall for the big burly guy. Oh and her puppies they were sweet. But I love how Gavin changes his tune when Jamie shows up. Bet a book is on that one. But they have problems. Callie is married and her soon to be ex does not want to let her go. And a surprise from his past may rip them apart. Hope they can figure it all out. Now before I ruin this for you I will leave off here. I hope you enjoy this book as much as I did. If you do like this book, please consider leaving a review. The Authors really like it when you do; they value your opinions too.

Review originally posted at Romancing the Book

This is the second book in the Hot Scots series. The reader doesn't need to read each book in the series if it's not possible. Each book is a standalone with recurring characters that are secondary within the plot. Reading each book will enhance reading pleasure but is not necessary.

I like the fact that the author didn't follow the same formula with this book that she had with her previous book. Sometimes with a series, I find that the first book is terrific but then I get bored with the books that come after because it's the same repetitive story line. The reader will not find that with this series. Of course, the author has a writing pattern that makes her stories her, what I am saying is that the same storyline won't be repeated with each book, and I really find that refreshing.

I like that Calli has two rambunctious puppies that are her pets. I love animals and I'm glad that Ms. Durand's characters do too.

Calli is too funny. She can be shy and reserved one minute, but then when the situation forces her, she can be assertive the next. She's young and doesn't know how to ask for help. I know she had a lot of responsibilities she had to take on, but she could have asked someone for help when she needed it. I still like her though. She has a vulnerability that touches my heart.

Aiden is just so sweet; he wants to find a wife and thinks that if he does what his brother did when finding

his happily ever after, that it will work for him as well. He soon finds out that what works for one person, doesn't always work for someone else, and Calli lets him know what works and what doesn't.

Aiden also doesn't put up with any crap either, and knows when to walk away from a situation. I want to find a guy like Aiden. Tough yet sweet, hot and built, yeah, that works for me.

These two characters made for some interesting reading and in the best way possible. Give this series a try, and remember, the reader doesn't have to start with the first book if they don't want to. I don't believe the reader will be disappointed.

### **Molly says**

Unlike big brother Lachlan, Aidan has honorable intentions from the start, looking for his own American bride.

In this story, it is charming Calli trapped in a paper marriage.

Thankfully not a cliffhanger story. No unicorns, but lots of challenges with relationships and trust, past, present with family and past love.

I received an advanced copy of this story. My honest opinion is this is a funny, yet wicked romance.

I'm rooting for sweet romance!

Yea for sensual second chances for folks who've been burned in the past, yet still take a gamble.

---

### **Nicole Normand says**

I received a copy from the author via AXP; this is my honest review.

-Funny, not too much drama (mostly at the end), intro to the next MacTaggart. Lots of sex scenes.

-Took one star off. I felt the two stories (#1-#2) are practically the same without much work from the author. The storyline, the situations, the sex, the animals even, are all the same. Just not the same couple.

-Took one star off. The editing needs a serious pass: wrong word (he excitement stirred), one too many words (I want could a man), wrong use of the verb (are the boss in) etc. that gets in the way of the story because it happens too often. Also the expression "in flagrante delicto" is there twice but halfway only (missing delicto).

-Having written all this, I still think it's a great read. I finished in three sittings and enjoyed it.

### **The Book Girl (Andrea) says**

This was such a good read.

Wicked in a Kilt is an extremely naughty contemporary romance. It seemed good at first and then became great at the end. The story follows Aidan MacTaggart who has decided to come to American in order to find

a wife. Things have gone so good for his brother, Jamie. He is settled down and wants that for himself.

When Calli Douglas comes out of her five-year seclusion in order to be at her cousin wedding she mistakes Aidan MacTaggart for a stripper that is supposed to be performing? at her cousin's steamy bachelorette party. The reason is cause he was in a kilt and is honestly such a hottie. Will love bloom between these two?

They are instantly attracted to each other but both have secrets that could spell disaster for their new romance.

Their relationship is built at a reasonable pace and is fun. There are many obstacles in their new relationship and trust issues. There are past relationships that the author did very well.

The sex scenes are frequent and are steamy and detailed as well as graphic.

---

### **\*Avonna says**

Check out all of my reviews at: <http://www.avonnalovesgenres.com>

WICKED IN A KILT (Hot Scots #2) by Anna Durand is an extremely steamy contemporary romance! It seems all the MacTaggart brothers are wickedly hot and irresistible in their kilts.

Aidan MacTaggart has decided to come to America to find himself a wife. His brother, Jamie is now happy and settled and he wants that for himself. He intends to follow every step his brother took to find his own American bride.

Calli Douglas has come out of her self-imposed five year seclusion to be in her cousin's wedding. Calli mistakes Aidan for the stripper that is supposed to be performing at her cousin's bachelorette party. Well he was in a kilt and too beautiful to be true. What she does not expect is her instant attraction. Callie has sworn off love and romance and is bound by a promise to someone else, but everything changes when faced with one very determined Scot.

Callie and Aidan are both instantly attracted, but because each harbors a large secret that could destroy their budding relationship completely, the pace of their relationship is slow and steady. Both have many obstacles not just with their new relationship, but with trust issues, past relationships and family that I feel this author handled very well. The sex scenes are frequent, extremely hot and explicit. This is one determined Scot out to seduce his American beauty!

### **Marcia says**

In the second book of the series, Lachlan's younger brother Aiden, comes to Chicago to find himself a wife. After Lachlan came for a fling, but found Erica, instead, Aiden thinks it should be easy for him, since he wants a wife. And he finds her, his first evening at the nightclub that Lachlan met Erica. However, Calli Douglas, is not looking for a husband; she has been trying to get rid of one. She has been living in the woods

in Michigan, currently unemployed, running out of money, waiting for her "husband" to give her the divorce he promised. Five years ago her parents died in car accident. Neither she or her former Marine brother, Gavin knew that their parents were in deep financial debt. Calli's wealthy friend Rade from Croatia, stepped in to help her. He made her an offer she didn't think she could refuse. He asked her to marry him, so he could get a green card and he would pay her tuition through grad school. The marriage was never consummated and their agreement was to divorce 6 months after he received his green card. However, he keep dodging the processes server and wants to stay married to her. But Aiden recognizes Calli is the one for him and very patiently plans to win her heart. Obstacles, cute dogs, endearing characters and an interesting twist on the green card marriage story. This is a very well written appealing series. I received a free copy but voluntarily reviewed.
