Debbie says

Her husband (Gary) was killed in the line of duty leaving Lynn Danfort to raise their two kids. She had hoped that their godfather, Gary's partner, her friend (Ryder Matthews) would help her through that most difficult time, the problem was that it was a difficult time for him as well. After three years away, Ryder came back to Seattle with the knowledge that he was in love with his partners wife long before his partners death. The goal was in place, create a new family for him with Lynn and her kids, but convincing the now independent and self sufficient women he loved to have the same dreams might be a little tricky.

***3 - Very classic love story, we don't get to see Ryder fall in love, he just shows up that way. The biggest hurdle that they have to overcome is his pride. Emotional, but the intimate moments are very charged and quite hot for a Debbie Macomber book. The tension was built up and up and then it was all concluded nice a neat so quick and easy at the end, little bit of a let down just because it happened so effortlessly. This is a very early Debbie Macomber, I really enjoy so many of her books and this one is no different in that aspect.

Angelie says

i don't like Ryder when he neglected to talk about Gary to Lynn... well, maybe he's just so jealous...

Kelley says

3.5

Linda B. says

Very interesting story. It gave me food for thought about second marriages for a widow with children and how her life had changed. I would recommend this book just for the insight it gave me.

Odessa Black says

It says a lot that I started the book on the 24th of January and finished the book on the 24th of January. Debbie Macomber has a way of drawing you into her world and making you fall in love with her characters. I was enthralled from the minute I opened the novel. In the midst of editing my own novel, I needed some downtime. Lynn and Ryder's world was just what I needed to sink into. I cried with Lynn as she mourned losses, and I cheered Ryder on as he fought for the woman he loved.

I give this novel five stars and two thumbs up.

Great job, Debbie.

Nancy says

Part of a "combo" book. Released under new title and cover. Good "sticky"=enthralling story.

Cws says

F MAc

Jeanne (love2cook) says

A decent romance story. After her husband was killed in the line of duty, Lynn thought she needed someone to lean on. Their best friend Ryder walked away leaving her alone to face an uncertain future. Three years later Ryder is back and making romantic gestures to her.

The children Jason and Michele were unbearable. At times, I just wanted to skip that part of the story, or discipline them myself.

Sylvia says

Modern

Skye says

It was a small struggle to get through his book. I love Debbie's books, but this was just left me feeling 'ehh'. I didn't like how Ryder came into the story forcing his way into every inch of Lynn's life....it was borderline creepy. In the end there is a small amount of resolve but the book left me feeling a little disappointed and a little uncomfortable.
