Love Letters Bryan Mooney

“My Dearest Darling,” the love letters began, and try as she might, she could not stop reading the letters she found in the old books. After reading one she was compelled to reach for another. Her curiosity urged her on. She could not stop...

If you found a love letter in an old book, would you read it?

Suppose you purchased some books from a bookseller at a flea market and upon returning home discovered love letters inside, what would you do?

Would you read the letters? Would you try to return them? Would you destroy them?

That is the dilemma that Katie Kosgrove finds herself in when she discovers love letters written by the man she knows only as Jack. Curious but unable to locate him to return the love letters, she begins to read.

The letters all begin with the same greeting, “My Dearest Darling,” and they each end with, “Forever Jack”. The letters start to transform her life in ways that she never would have imagined. She is thankful to the handsome stranger she met only once.

Katie knows exactly what she would say to him if she were to ever see him again, until one day he reappears, back in her life. Their world begins to change once more, but the letters have an awesome power over both of them, until...

Taylor Martin says

The book Love Letters by Bryan Mooney tells about a divorced woman who is trying to find the man she fell in love with. The main character, Katie, is a very shy but outgoing person. She is always willing to go after what she wants. And she is willing to change things she doesn't like. She went from owning a bookstore to owning an art studio because she wanted something more in her life. Her problem is that she found some love letters in books and she fell in love with the man who wrote them, but she didn't know where he was. It is very compelling and makes you want to continue reading by making the man and Katie come close to meeting but they never do until the end. The genre is romance. And it helps you to always go after who you love or think you love because it might turn out good in the end. I thought the author did a great job of keeping you entertained and you never wanted to put it down. I gave the book five stars because it was a great book and it was compelling and entertaining at the same time and it had a great story line to it. I would definitely tell other people to read it if they like a good love story.

Barb says

I am a Nicholas Sparks fan, and this book came up as a recommendation on my Kindle, and was on sale for only \$.99, so I figured I'd give it a try. Glad I did! It was a pretty quick read, and it was very interesting how all the pieces of the story came together at the end. I'll definitely check out more of his books.

Jeanne says

i really liked this book. im a sucker for a love story and this certainly was. The man wrote letters to his wife and these letters were found in a book that was at a garage sale. the person who found them struggled with the fact that she was intruding in the personal relationship between the writer and his wife. but she had to know how the relationship played out and how it ended. kept me reading because i too had to find out how it all worked out in the end.

Rebecca says

A few weeks ago, I added it to my "To Read" list, and Bryan Mooney let me know that the Kindle editions were on sale so I decided to bump it up to the top and try it out! Love Letters was exactly the type of novel I was looking to read by the beach. I loved the setting seeing as I spent a week in Miami earlier this year. At first, I was a bit hesitant because I was comparing "Love Letters" Katie to "Suzanne's Diary for Nicholas" Katie (which I had just finished). Love Letters was so much less predictable than the aforementioned novel, and it had a great little twist at the end. Just a tiny bit more character development would have me giving it five stars, but the book was pretty packed for the 200ish pages it did have. I would venture to say that Mooney has potential to become a great chick lit author amongst the ranks of my favorite Nicholas Sparks. Definitely looking forward to more of his works. Thanks Bryan Mooney!

Rajiv Yandamuri says

In present day social life style, where ambition and lust for power and money is growing like weeds 'Love Letters' is a must read for those who are starting their new life in this challenging world.

I really liked the poetry in book more than the letters, however a couple of them hit the spot.

Brian Mooney did a wonderful job in capturing the romance of prisoner and his lover-friend-wife who is suffering from Alzheimer's. The poetry in this book is exquisite.

Ericka says

I just loved this book I could not put it down. This was a great love story centered around love letters found in a bunch of books, also the suspense like the person watching Katie and Jack possibly losing his home. I give great applause to the author Bryan Mooney. I can't wait to read another in the near future by him. Thanks for making me cry and smile all in one great book.

Ellen Goodman says

I picked this book because of the Kindle price, (\$2.99) and the reviews I read at Amazon. People were raving over this new author on Kindle blogs.

I started reading and the lights went out in my house and I had my husband get the candles. I kept reading by the light of my Kindle Fire. I couldn't put it down.

The story is realistic and very touching. In the book she finds letters in some books she bought at a flea market and begins to read them. Even though they are written to his wife, whom he obviously adores, she takes to heart what he is saying. I won't say anything more because I don't want to put a spoiler tag on it.

Great book!

Lynda says

Katie Kosgrove found love letters hidden in old books she had purchased at a local flea market. After reading one of the letters she tried to locate the owner with no success. Intrigued, Katie read a few more letters unaware her outlook began to change, she felt hope, renewed, and invigorated. The letters written by Jack to his wife consumed Katie to find this man. Drawn to each other, they shared many precious moments until the unthinkable changed everything.

Surprising twists between the pages added drama while the love letters gave the readers an insider's look at a deep love filled with tenderness, sweet memories, and an everlasting bond. The heartstrings were pulled immensely leaving this reader with a sigh at the end...a satisfying ending to a wonderful ride through love. Developing the emotional connection with the readers through the presentation of love letters was unique and very touching. "Love Letters" captured the inspiring emotions felt by anyone who ever received a love letter.

This was a free downloaded book.

Maureen says

Kate, having recently moved to Florida after a bitter divorce, purchases books from Jack at a local flea market. As Kate readies the books for sale in her used book store, she finds money and letters inside. The letters are love letters, written by Jack to his wife Laura.

Jack and Katie finally meet, and begin a relationship, midst the backdrop of an real estate deal going bad, and the opening of Kate's art gallery. This book is both a romance and a thriller, and is a worthy read.

Judy says

I love the premise of this book...finding love letters in an old book that you bought at a flea market from a handsome stranger. You can't get much more romantic than that. The back stories on both of these characters is very interesting and the side stories of what they each are involved in seperately adds other laysers as well. I like a good romance just like any other gal, but this book has more ingredients than your garden variety romance books....murder, mystery, graft, corruption, crooked lawyers, politicians; it's all in there. Makes for a very interesting read.

Duane says

A good summer read, a modern romance that ask a compelling question; if you found someone's personal love letters in a used book you bought, would you read them? What if they also contained money, what then? Well, that's what the protagonist was faced with in this story. If you are a Nicholas Sparks fan you will probably like this also.

Terri says

I loved this book! The premise behind this book intrigued me right away and I wasn't disappointed. Books that tempt me with a "what if" situation usually turn out to be good books and this one definitely was! I would highly recommend you read this book if you like a good romance with a little suspense thrown in for good measure. I look forward to future books written by this author, Bryan Mooney.

Rebecca says

A beautiful love story of two people who not only find each other, but also rediscover themselves. The author has also skillfully mixed in suspense and tension from other elements. This really surprised me and added to the enjoyment.

The book is not without issues, but the great storytelling makes it possible to see past them. and probably the average reader won't even notice.

Amber says

Was okay quick summer read

Okay I need to update my review, the storyline bothered me in this book because there is not one man I know (which may reflect on the men I know) can write a grocery list and remember all that is on it let alone write a love letter. This did have a good story line just not one that is believable to me.

Barb says

I normally love an epistolary novel -- which is what drew me to this novel in the first place. However, this book just did not work for me. As other readers have indicated, it was disjointed and the dialogue was stilted. The plot was all over the place.

Kathy says

I think this was my first time reading Byran Mooney and I loved this book! The suspense-fullness kept me turning the pages. Everyone that has found true love has also encountered mistakes along the way, this powerful story of love and yearning feelings will capture your heart.

Julie says

This book was a train wreck from the start. I tried so hard to get into it but found so many things that bothered me that I couldn't get past.

Most annoyingly the story is made up of so many disjointed parts. There is too much going on and most of it is irrelevant and not even interesting.

There were several other small things that bothered me.

The restaurant was referred to as Tony's and Toni's on several different occasions.

The dialog was just ridiculous! So much was said in dialog that could have been better presented as narration.

I always hate giving books bad reviews. I am not a professional writer but as a reader this book left SO MUCH to be desired. I quit reading about 1/3 of the way through.

Vikki says

Love Letters, Bryan Mooney

I read Love Letters as a " Book of the Month" book for a group I am in. This was a new author for me, but I enjoyed the book very much. As it became suspenseful I enjoyed it even more. I look forward to reading Mr. Mooneys next book.

Cherise says

The main story was cute, but there were too many additional sub plots going on, none of which resulted in much, and were all resolved in such a clean way. I was also distracted by the redundant dialog, spelling errors, and grammar issues. I'm not an English fanatic, but it needed an editor. I guess that's what you get for a couple bucks on Amazon.

Theresa says

Well, parts of this book were a bit cliché; and real people use contractions in everyday speech. That being said, I really enjoyed the story. Once I got started reading it drew me right in. I'll definitely read more from this author:)
