Typist #2 - Spanking the Billionaire Novelist

Mimi Strong

Typist #2 - Spanking the Billionaire Novelist Mimi Strong

Bad boy author Smith Wittingham wants to play more games with his typist.

Tori has her own ideas, and she can be clever at twisting words, too. That's why she's holding the paddle, and Smith is about to get spanked.

From Reader Review Typist #2 - Spanking the Billionaire Novelist for online ebook

Amanda says

Book 2 was by far better than book 1 but it's still not a 5 star for me. I still think Smith is a grade A douche but he is growing on me. He does things that piss me off then he turns around and does something sweet to make me go "AWWW".

I want so bad for a HEA for these 2 but I don't see it happening yet. Also for Tori being the younger of the two you can't tell it by the way Smith acts...he is by far the more immature of the two even at 41.

I am still holding out hope for this series to speed up, and give me my HEA.

Amanda says

Typist #2 Spanking the Billionaire Novelist is for people who...

...have read Typist #1

...enjoy a little spanking

...don't mind "frank and beans" wagging

...or a little bakery talk of covering cupcakes with frosting that has nothing to do with cupcakes or frosting

...can get over a messed up billionaire and a slightly annoying typist

...enjoy some public sex against a wall

...like surprises, helicopters, or surprises that are helicopters

Typist #2 Spanking the Billionaire Novelist was a free Kindle book I downloaded on February 25, 2013.

Amanda says

2 of 4 in series Tori goes to work as a live in Typist for a very successful author Smith Wittingham. This series follows their attraction to each other their discovery and the final reveal of all truths.

Colleen Johnson says

Loved #1 and soared into #2!

I do not like to show interest in a book if an author takes what should be one book and splits it in to a zillion pieces! But this author, whom I have never read her work, offered all 4 books for free and I downloaded every single one and read one right after the other. I loved these characters and the story was body humming hot! Thank you for the humor, class of writing hot sizzling scenes and providing me with a great few days with this spectacular duo! Love it and will miss both main characters like mad! Yummy book, awesome writer, sexy, funny, frustrating, maddening and worth paying for! No fluff here just honest and great writing! (adding review to all 4 parts)

Suzanne Critelli says

received a review copy of this story from the author. I found myself laughing while reading this! There are a lot of humorous moments between Tori and Smith. Of course we do see this attraction growing more between these two. I'm glad we get to know a little more about Tori and Smith!

iloveladyporn says

Well I must say that Smith Wittingham was a total Douchbag throughout most of this installment but he did redeem himself towards the end- I personally think he has a bit more groveling to do! Of course there's Hot Steamy Raunchy sex I would expect nothing less from Author Mimi Strong. There is an odd secret that comes to light and I'm not sure I fully grasp it but once Tori got over the initial weirdness of it she saw it in a better light. Of course I was left wanting more and this time I know I will get it Mimi never lets me down she will button this story up for me eventually!

Quotes:

"You just want me in front so you can press your man-happy into my ass"

"I'm sure your little ginger minge would look just as tasty with curls coming out of the sides of your underwear."

"Are you saying my ears are fat?"

"How many times have I run away from you now? I swear, if you weren't such a Grad A Dillhole, I wouldn't get any exercise at all."

Caroline F says

I read all four instalments of Billionaire Novelist together, so this will be a blanket review of the complete story.

The whole story was fairly fast-paced, very hot, somewhat naughty, and actually quite funny in places.

Tori is a feisty redhead, who takes a two-week typing job (as she really needs the money), for a mysterious author, in a secluded cabin in Vermont.

The author turns out to be her mother's favourite author, Smith, who's a lot older and extremely sexy. He's supposed to come across as a tough guy but we see glimpses of his vulnerability.

Their attraction is immediate. As the story unfolds, it's revealed that Tori is not completely unknown to Smith. Also, Smith's own troubled past is divulged.

All in all, a pretty good, fun, erotic story with snappy dialogue and laughs.

Melanie Weaver says

Smith and Tori's story continues on and brings with it more laughs and nail biting! I found myself saying more than one "Would you just... already"! Another fun and flirty 4 stars for Mimi on her delivery.

Michelle says

In case you missed that Smith is an asshole - you get to see it fully on display in the second installment. Although we still get a bit of steam and Tori is just as sassy... Smith just rubbed me in all the wrong ways.

They continue to work and play together but it seems that Smith gets off on pushing her buttons and Tori is not complaining to much as each angry moment seems to get her turned on more and more.

Kristine Cluney says

Just as great as part 1

Well part 2 was just as exciting as part 1 and now I can't wait to read the rest of the story and I have really become invested in the characters and I hope it turns out the way I hope

Jane says

Typist #2 ~ Spanking the Billionaire Novelist offered the first spanking of Smith's life, which was hot how Tori turned the tables on him (made me smile). In this episode these two continue the ups and downs of a personal/work relationship with lots of humor mixed with hot steamy sex, getting closer and secrets revealed. At the end of the episode a surprise by Smith leaves the reader wondering where the two of them are heading in the next episode when the ride arrives in the back yard...

Wendy says

I didn't like this second part of the series as much as I liked the first. I thought in some parts Smith was an a-hole and I wasn't a fan of the way he treated Tori. However, there were certain scenes where you couldn't help but like Smith and his actions. I was conflicted as I was reading cause I didn't know if I should like him or hate him. However, it was still a great continuation of the story. Both Tori and Smith were funny at times in the book and the love scenes were still amazing as before. I felt myself getting mad and happy while reading which was good cause that meant that I was devoted to reading the story. I liked at the end how Smith tried to turn everything around and that kept me interested to read the next part of the series!

Denise says

Tori and Smith are moving right along with the novel and their steamy nights. I love the banter and Tori's comments. I can see the looks that are exchanged between the two. Smith is showing his snobby side but Tori is also putting him in his place. Gotta see what happens next.

Jennifer (Bad Bird Reads) says

<http://badbirdreads.com/review-typist...> **At A Glance**

This series is hilarious and weirdly sexy.

The Good

I don't know why I kinda like this series. **It's so wrong in all the right ways.** Smith and Tori are both messed up, but I like them that way. Even though Smith is still a total douche, he did have some tender moments. I love how they went on a date and Tori made Smith jealous with the cute delivery boy. I guessed a little on the reveal at the end, but it did create some juicy drama. Overall, it was a funny and steamy read.

The Bad

Smith is still a grade A asshole. **There is very little plot development,** since there is very little to speak of, and it is a serial, so each book is short.

The Snuggly

We start to see more BDSM. Really kinky with a side of degradation, in a good way. I can't believe Smith is the one who gets spanked. You don't see the man getting spanked very often.

Final Thoughts

I will continue this serial and see where it takes me. I am nervous but excited. I wish there was more to it, but it's still fun. Recommended.

Ashley F says

This review was posted at Tsuki's Book Blog on August 18, 2013.

Previously On: Tori headed up to Smith's cabin and met the famous best-selling author. They write some stuff and basically sex themselves all over the cabin. They play awkward puppy games with Tori as the puppy before fighting repeatedly over stupid stuff.

This week was full of sex, arguments, and pretty much the same awkward stuff as last week. Tori and Smith have sex. Tori spanks Smith (I know...weird). Tori gets jealous when Smith flirts with lesbian Cassie/Callie (yes her name changes back and forth). Tori discovers Smith has been 'stalking' her. They agree to be together.

Caught up yet?

I feel weird writing up a review of this section when I pretty much have the same stuff to say I did last week. This part was a bit longer about 1 1/2 times longer but at the end of the day nothing really happened. I couldn't really believe the characters and their relationship when all they did was have sex. They discussed nothing. They considered nothing. Basically it was type, sex, fight, sex, date, sex, sex, sex. Even on the date they had sex. So...not really playing with the character development.

There is this one thing I hate in books and when I encounter it, I take great pleasure in highlighting the crap out of it. Randomly in this section there is a lesbian housekeeper named Cassie who is openly gay. Smith flirts with her and Tori gets irrationally jealous. That's not it. Her name changes from Cassie to Callie and back again (I'm pretty sure about the back again). I hate that! Seriously how did an editor not catch that? I was immediately drawn to 'who the hell is Callie'? I encountered this in a Sarah Morgan book once and I was severely disappointed. That should never happen.

Unfortunately the sex scenes didn't redeem this one. Sometimes a mediocre plot or even a couple mistakes can be redeemed by spicy hot sex scenes. These were a little like reading an instruction manual for hot, kinky sex. They were way rushed. On top of that there was some inclusion of kink (spanking) which wasn't really necessary. It's like when an alpha billionaire goes, "By the way I like tying women up". They all do that. Not every story needs bondage, domination, and kink. Sometimes a nice vanilla scene or just hot sex is enough. Seriously we don't all need spankings or puppy play.

Basically I'll finish the serial but it's sort of slow-going. There isn't any character development or pretty much any reason to care about the characters. I sort of can't look away from the craziness so I have to know how far these two will go in their unrealistic romance.

If you started this one last week then I would continue for that. I would, in general, recommend skipping this one if you want an erotic serial but it's kind of fun to follow.
