Tremendaspie - A delightful tale about a boy with Asperger's Syndrome Tracey Gottliebsen

Meet Jack, a ten year old blessed with Asperger's Syndrome. Jack doesn't always see the world in the usual way and is constantly surprised by the amount of trouble he manages to find himself in. While celebrating his tenth birthday, Jack makes a promise to himself, to finally be accepted and become the most normal and popular kid in school. He gives himself a whole year ... 365 days ... 8,760 hours ... 525,600 minutes ... 31,536,000 seconds to achieve his dream. But as Jack counts down the seconds to normality he starts to question how normal the normal people really are and, in doing so, begins to value his own Aspergian traits. For being different isn't so wrong after all.

Follow Jack's journey, from the inside looking out, and discover that having Asperger's isn't suffering after all. Copies can be obtained from www.tremendaspie.com.au - ships to all countries.

Cindy says

I loved this book! Someone recommended it to me because it had a similar perspective to The Curious Incident of the Dog in the Nighttime. It really portrayed Asperger's really, really well. It showed how the young boy, Jack, was thinking and showed how he stuffs things up. It was sad as well as he struggled with teasing and then how he gets diagnosed and then how he starts to try to understand what Asperger's is and how much trouble he has understanding "normal" people as he calls them.

T Hamboyan Harrison says

Disclaimer: I won this book in a first-reads giveaway

This book not only gave me insight into what a kid with Asperger's might be going through, it also made me question why "normal" people do things. The main character reminded me a lot of myself as a kid; I also refused to lie and didn't understand why telling the truth was sometimes considered being rude and lying considered being right. I still struggle with this as an adult.

My only complaint about this book was that it ended rather abruptly. I wanted to read more.

Debbie Stansell says

I received this through a giveaway on goodreads. It was interesting to see Aspergers from a different view. I did enjoy how the boy started off wanting to be popular and found something that he excelled at. He then realized that everyone is different and it was ok not to be popular or "normal".
