N.M. Silber

Legal Briefs N.M. Silber

Once upon a time, childhood enemies grew up and fell in love ...

Smart and sassy lawyer, Lily Adler, has been waging an epic battle with handsome and cocky Assistant District Attorney, Adam Roth since "the glitter incident" in preschool when they were four. Their friends' marriage, a mysterious neighbor, a federal trial, and some bossy big sisters guarantee they'll be spending plenty of time together. When they try to play nicely, will they discover that their reaction to each other is even more volatile? Can they manage to date without anyone sustaining injury? Can they avoid the mobsters trying to kill them without killing each other first? Find out in Legal Briefs.

"Hot and sexy romance that will make you laugh out loud." Mimi Strong, New York Times bestselling author of the the Peaches Monroe Trilogy

"Legal Briefs is equal parts sexy and funny. N.M. Silber is becoming my go to author when I want to laugh and swoon at the same time." Sawyer Bennett, USA Today bestselling author of the Legal Affairs serial.

NOTICE: This book contains explicit descriptions of sexual situations and adult language. It is intended for readers over the age of 18.

Rachel says

I received a copy of Legal Briefs for a fair and honest opinion...This is book 3 in the Lawyers in Love series, but can be read as a standalone with no problems whatsoever!

and I would honestly like to know how I've never come across this series yet. This is book 3, that means I've missed books 1 and 2 and god knows how many laughs!

Legal Briefs has it all...great writing, everything moves so smoothly. Super characters, full of life, vitality, sarcasm and double entendres. It was in a word, FABULOUS!!!! and I can't stress that enough.

Adam is so awesome. With his sarcastic witty personality, and those classic good looks.

Lily, a little unsure of herself and what she wants to be when she "grows up". Together they make for a fun, enjoyable couple that reminds me quite a bit of my husband and myself (minus all the money and murdering capers)

This story has it all, love, lust, murder and plenty of outrageous laughter. I was literally laughing out loud while reading. As soon as I finished this one, I had to go 1click the previous 2 books in the Lawyers in Love Series...

N.M. Silber says

The party for this release is going to be epic. Trust me, you DON'T want to miss this. ;)

<https://www.facebook.com/events/14745...>

This one will rock your socks off! ;) (I hope! LOL!) Here's an excerpt!

"Do you have an extra toothbrush?" I called out, heading for the bathroom.

"Use mine."

"Use yours? That's kind of gross."

"Is the thought of my tongue in your mouth gross too? Because that could have an impact on our romantic relationship." I guess he had a point there.

I went into the bathroom, washed up, did everything else that half a bowl of rum punch and three glasses of water made necessary, and then contemplated his toothbrush. Fuck it, I was going for it. I brushed my teeth and headed for the hall. I saw him lying on the sofa, punching a pillow to soften it up and I wandered in to say goodnight. Okay, and to ogle a little because he had taken his shirt off again and his body was beautiful.

"Goodnight," I said trying not to stare. I wasn't succeeding very well and the amused look on his face told me that he had noticed.

"Goodnight," he said, trying not to look at my boobs, bouncing around jauntily under McGruff the Crime Dog as I moved. He wasn't succeeding too well either, I might add.

"If you need anything I'll be in there," I said glancing off toward his bedroom.

"It's my apartment, I'm sure I can find whatever I need." He gave into temptation and let his eyes drop for a moment to my body. "Whatever I need that it would be appropriate for me to have tonight," he added, sounding frustrated. He grabbed his iPad from the end table, and settled into read.

"What are you reading?" I asked curiously.

"Espionage thriller."

"Ah, I thought you wanted to read the rest of my..."

"I do, want to read them, but I couldn't handle that tonight with you here and half naked. I might forget my rules about women who have been drinking to excess. Now go get some sleep, because you're getting me hard again, and if I practice any more self-love tonight, I might get carpal tunnel."

“You mean you were...” I must have looked surprised.
“What did you think, I was just really hygienic?”
“I thought maybe you were taking cold showers,” I admitted.
“Hell, no. I don’t waste God’s gifts.”

Izy says

Rating~ 4.25 stars.

Can't believe I forgot to rate this :O

Having not read anything before my this author, I got a really nice surprise. I really loved both Lily and Adam. I really enjoyed their witty banter, bickering, sweet and funny moments.

I really do love enemies to lovers trope or haters to lovers. They had grown up together and made each other's life very difficult which was also fun to read about. Lily's neighbors and the whole mystery thought not very believable in 'real' life was hilarious to read, the book had the whole comedy romance thing going and I liked that. The book is quite low on angst and drama which I also liked (cause god knows sometimes the drama can to much) but I was entertained throughout. The book can be read as a standalone since I had not read the earlier books in the series but this did not affect my enjoyment.

Overallthis was a great book and I am really looking forward to reading Mark's book. *Happy Reading!*

Vanessa says

~*~*~Beta Reader~*~*~

This book is hotttt!

This book deserves way more than 5 stars! I honestly think the author should be a stand up comedian and a writer. The banter between Adam and Lily had me laughing so much I was crying. Not only does it have it's funny parts but Legal Briefs has romance and a little bit of mystery added in. I had the pleasure in being a beta reader for the first two books in this series and I absolutely loved them but I think this book has to be hands down my favorite of the series. I have said this before in my reviews of the other books in the series but Silber creates such "real" characters that I feel as if these characters are my friends and not just characters in a book. I also liked that there wasn't a bunch of drama between the characters. So many books are like that now days and it's great to read a book that's not like that.

Thank you N.M. Silber for writing another great book, I can't wait for my friends to read Legal Briefs.

Dina Abramson says

I loved the first two books in this series but this one took it to a whole new level. Not only was it funny and hot, it was also poignant at times. I was completely emotionally wrapped up in Adam and Lily's romance. I didn't want this book to end and I hope the author writes more of this couple.

Adam and Lily have been arguing since they were kids, but over time they discover that it may have been because were attracted to each other and afraid of rejection. They have to overcome that hurdle and trust each other with their hearts. Don't think that this is an angst filled read though. It's not. This book is hilarious and very sexy. The emotional component just makes it feel real and makes you care about the characters.

I was given an ARC for an honest review and I honestly loved it.

Carol Mikitka says

Hilarious, hot, romantic, and witty, N.M. Silber hit it out of the park with this one. As is her signature style, there's even a little mystery thrown in, as well a delightful nod or two to classic comedies of the past.

Adam Roth has been Lily's Adler's nemesis since preschool. However, when their close friends marry and they are thrown together more often, they discover a powerful physical attraction that has been hiding beneath the surface. This relationship is first explored in the second book in the series, *The Home Court Advantage*. While you don't need to read the first two books to understand or enjoy this one, doing so will just make it even better.

When the two childhood enemies begin to acknowledge that there may be more than a recently developed physical attraction between them, they decide to attempt dating. Unfortunately, all does not go smoothly on their first date, and Lily becomes a witness to a possible crime. From there various humorous situations evolve as the couple tries to remain safe and sane while sharing space twenty-four hours per day.

While there are not as many zany courtroom scenes in this installment, there is at least one appearance of grumpy Judge Channing, who has lost none of his charm. Lily also has some eccentric neighbors, including one of her friend, Gabrielle's, former clients. The entire gang from the first two books appears in this one and the ending is wonderfully entertaining.

Legal Briefs is filled to the brim with witty banter and steamy hot sex scenes that are at times humorous, and at times frankly erotic. It also has one of the best "I love you" scenes I have read in a very long time. While I adored the first two books, it's clear that this one is a step up. N.M. Silber's writing is getting better and better, and these two characters are well-developed and very relatable. There's conflict without angst, something I for one, very much appreciate. I also appreciate how much love and respect this couple demonstrates for one another, even while maintaining plenty of tension and sizzle.

Without a doubt, this is a must read, and will likely be considered one of the best Romantic Comedies of 2014.

I was given an advance copy of this book by the author in exchange for an honest review.

Jacqueline says

When I sit down to read, I like to escape into a happy little bubble; this book was that perfect little fantasy bubble. I absolutely loved it. It has just the right balance of wit, steam, hotness and belly tingling romance mixed with a little light suspense, just to keep things interesting.

This is the third in the Lawyers in Love series, although this could be read as a standalone, I'd really recommend reading the others first just to get the whole back story and well, because they're really good too.

This one though, was my favourite to date. We meet Adam and Lily in the first two books. They've known one another from childhood and have spent the intervening years winding one another up and irritating the other at every opportunity. In The Home Court Advantage though, there was definitely a little something between them that neither of them wanted to acknowledge. The scorching hot chemistry and searing looks they shared was only heading one way. The perfect set up.

The sex scenes are really hot in this and even though the story unfolds over a relatively short time, the love story wasn't rushed - it felt real. *sighs*

What really gives this story its edge though is the warmth and humour that runs through it. The cast of characters are lawyers so they're smart, sassy, opinionated and damned funny. They're also witty - I laughed out loud so many times reading this. In the earlier books in the series I felt the slapstick got a little crazy towards the end and, while I enjoyed the scenes, they didn't feel quite real to me. Happily, I felt the suspense plot in this story was more plausible and the characters responses were more realistic.

I absolutely loved this one. I can't wait to read more in this series. Highly recommended.

***I received a beta copy of this story from the author in return for my honest opinion**

??? LovesToRead ??? says

GRAB AN INHALER & PUT ON A DEPENDS BECAUSE THIS BOOK IS LAUGH OUT LOUD FUNNY!

This might easily be my favorite Romantic Comedy...EVER...with Adam and Lily being one of my favorite couples.

There are romantic comedies, and then there are ROMANTIC COMEDIES. Not every author does them right. Well, look no further because N.M. Silber does it PERFECTLY. This book is the epitome of all things that are good in life...LOVE AND LAUGHTER...and is hands down one of the funniest books I have ever read. I literally felt like I was passing out from laughing so hard.

So, the crew is back. The same cast of crazy lovable characters from The Law of Attraction and The Home Court Advantage are back and the dynamic between the entire crew is better than ever. The consistency that this author is able to achieve in keeping true to each characters personality is spot on, and the hijinks and shenanigans are hysterical. The conversations flow, the banter believable and the comedy is natural. There is nothing forced here...just 100% natural comedic genius.

Just like the realistic and seamless dynamic in the first two books between Gabrielle and Braden, this one between Lily and Adam is a relationship the likes you've never seen before. It is funny, sexy, mysterious,

engaging, reflective and heartwarming.

Ms. Silber knows love...she knows life and she knows comedy. Her ability to write a book that is not only believable but flows like an unclogged drain is what makes this series, and this book, an ultimate success. The banter is funny, the interactions believable and the love endearing. Her words will have you thinking about your own friends and relatives and realizing that you can almost hear yourself having these very conversations.

This entire series is fun, smart and witty. By the time I was done, I was wanting to call up my own friends and schedule a night out. You cannot help but relate to at least one of the characters, nor can you walk away without realizing that at least one of the friendships mimics one of your own.

I have read many other books, some popular, that are listed as a Romantic Comedy, and nothing comes close to the brilliance that is Ms. Silber. You can get TANGLED and TWISTED, read about a guy who gets loud on the other side of a wall, or you can read a real romantic comedy that is so perfectly sculpted you'll almost sit in utter disbelief that it took you so long to join the club.

Dee Montoya says

****4 Wacky and Sexy Stars****

I can't get enough of this crazy lawyers, I laugh so hard every time I remember I funny scene of the book. Great read; equal parts funny, sexy and entertaining. N.M Silber has become one of my go- to authors whenever I'm in the mood for romantic comedy, *Lawyers in Love* is a MUST READ Series...

Lily and Adam have known each other since childhood, they started fighting in pre-school and the battle of the sexes has continued into adulthood. They are both lawyers but Lily doesn't practice and is a librarian for the Courthouse and Adam is a State Attorney, they run in the same circle of friends and since last summer when they almost kissed the sexual tension is unbearable between them. Every time they see each other neither can't decide wether to make out or kill one another.

Their friends have caught on to their love/hate relationship and are trying to get them together. Finally Adam gets the courage to ask Lily out on a date and she accepts, but is afraid of Adam's player reputation to shine through and break her heart, so she's very guarded. Lily's low income has her living in a very dangerous part of town and mistakenly she gets tangled with a big mafia case that is being tried in court; just her luck that the key witness lives in her building and her and her friends will try to solve the mystery of who this person is.

She's a law librarian by day and a romance writer by night, her latest novel was inspired by the lust she feels for Adam, and as he learns her sexy hidden persona and the fact that she might be in danger, he takes charge of his feelings for her and little by little, these two will found themselves falling deeper for each other.

This novel has it all; mystery, romance and wit and I loved every second of it, which is why I couldn't rate it five stars, it was **TOO SHORT!** I was left desperate for more and if I'm being honest it felt a bit rushed in the end. I recommend this series to absolutely everyone who's looking for a good time, looking for romance and great writing. I really hope this author continues writing about this awesome characters.

[~Ami~]♥Sexy Dexy♥ says

4 stars

Adam and Lily have had a **love-hate** relationship since they were young. Now that their friends have tied the knot, they agreed to give in to their attraction and start dating.

The couple's bickering and falling in love was cute and fun to read. There was **good humour and banter** that compared to book 1&2 wasnt too OTT. Although the drama at the end was a bit much. Adam was such a *ahem* romantic. I love his crude one liners.

I was missing the funny silly court cases. But the sex was still **hot**, it was **funny and light** with a **bit of suspense** with the myserious neighbours. Enjoyable read!

Jamie says

I LOVED this!!! N.M. Silber has moved to my auto-buy author's list... I love her writing style.. her stories flow so smoothly, are fucking hilarious, are crazy sexy hot, and have ZERO ANGST. ZERO.. NADA... I loved N.M. after the first two books in this series but with this third one she became a favorite... you just can't go wrong with a Silber book as far as I'm concerned if you are looking for something really easy to read that will make you smile, make you laugh out loud multiple times, and give you shivers in those hot moments. This lady can throw down on some sexy scenes now....she is talented. I just cannot recommend this series enough.. its so fun, its so easy , its just fabulous!

***J* Too Many Books Too Little Time says**

4--**Entertaining**--Stars!!!

This was a fun addition to the Lawyers in Love series. Legal Briefs features Adam and Lily who we met in the previous books. There is character cross-over but this one can be read as a standalone.

I love the humor and the banter amongst the characters. It's one of my favorite things about this series.

Lily and Adam have a love-hate relationship. They grew up together. Picked on each other. Taunted each other. Tormented each other.

Both they've both harbored an attraction to each other. Now they are all grown-up and share a tight knit group of friends. Over the last few months, things have started to change between Adam and Lily. That love/hate relationship leaning a bit more on the love side.

"You don't battle somebody for twenty-three years and then trust them with your heart overnight."

Lily is hesitant about Adam's advances after all they've been through as kids. Not to mention, Lily has a complex from her poor relationship with her parents. But they both agree to give dating a shot.

In addition, there's a bit of mystery and intrigue in the background of the storyline. Similar to the other books in the series. It's a little OTT and unrealistic but it's fun and comedic watching it all play out.

There were a couple of times some of the humor made me roll my eyes but I did LMAO quite a bit.

The diaper changing scene....

I was afraid Lily was going to get on my nerves in the beginning but she grew on me.

I liked that Lily was a part-time erotic romance author, that added a fun element.

This was a quick read. I pretty much read it straight through and was entertained the whole time.

"Adam was the only person I had ever known who made me feel so much. He filled me up inside in more ways than one."

Like the other two books in the series this one was smoking hot so, Nadine...

I'm really hoping Mark gets a book....he's one of my favorite characters!

ARC kindly provided by N.M. Silber in exchange for an honest review

Camila, the opinionated Catruler says

This is a 3.5, but I'm rounding up because it had some pretty amazing scenes. I do love ridiculous, evidently over the top humor.

"Want one?" he offered.

"Sure, thanks," I replied. He proceeded to knock exactly one tic tac into his palm and hand it to me. "Are you sure you can spare this?" I asked solemnly.

"How many did you want?"

"Well, more than one. Who gives somebody one tic tac? Would it kill to be a little more generous? Some psychologist somewhere probably has some theory about one tic tac givers and fear of commitment."

"Fear of commitment, my ass. You should be committed, you loon. If you were intended to have more than one tic tac, they would have just made tic tacs bigger. This is regulation sized tic tac, and it should be more than enough to satisfy your breath freshening needs," he said, sounding affronted.

"A tic tac is not merely a breath freshener, it is a candy," I pointed out, voice rising in anger. Who was he calling a loon? "And they make them small on purpose, so you'll think you're getting more, and so you'll run out faster when someone asks for one, and you will give them a few!"

"Why would someone ask for A tic tac when they really wanted several tic tacs? What does that say about their psychology?! Why not be honest from the get-go about what you want?!" he shouted back at me.

"I didn't ask for one! You offered me one, God damn it!"

"And as for your other points, it is primarily a breath freshener, and maybe you should alert the media about your great tic tac size conspiracy!"

Lily and Adam's fights are the best of the book. I might have cried laughter tears.

Mary - Buried Under Romance says

2.5 Stars

In a way, I am probably not the right audience for this book, so I apologize in advance to anyone who reads this review.

I'm not a fan of first person narratives, nor am I an avid reader of contemporary romance (I read mostly historicals). That said, maybe it's no surprise I did not like the way diction was thrown around in this book?

It's just...extremely *casual* and flippant, for lack of better terms. I did not really see much of a well-paced emotional attachment in accompaniment to the characters' sexual attraction, and even that attraction was some unnecessary frustration - for the hero, Adam, especially - because their families are Jewish and when you're caught together with a woman whom your family has known for a long time, rumors start to circulate and you're about as good as getting married. But then, there's that pesky attraction to deal with, and the issue of whether they want to take their relationship to the next level, and...suspenseful plot elements in the way of a villain.

Now, is this nothing you've read before? Not at all. This is an attempt to revamp a childhood-antagonists-to-lovers trope by putting it in a legal setting, yet I did not come away feeling immersed in that world, like with Julie James's FBI/U.S. Attorneys series. In fact, these characters are so casual and potentially juvenile that their professionalism as top notch lawyers were barely expressed, let alone explored in depth for greater complexity.

I was not impressed by this novel, it's characters, or plot. But again, it may be that I'm so used to reading romance novels set in a time in which the characters had to find means of expressing themselves within a set of heavily confined rules, norms, language and behavior which could easily ruin their lives. The language in those novels are, as well, filled with multiple meanings; it's nuanced expressions readily apparent to those appreciate of literary language. So it may be that I dislike all the simple language in this book, it's coarse language that would seem, in my opinion, to be far below those spoken by professional lawyers.

But then, I could just be asking too much of this contemporary romance to be up to my standards for it. Regardless, this is just my take and I will be going back to my adored niche hereafter.

Mayas says

Beta Reader.... Reading by the Book Review

If you truly enjoyed Braden and Gabi and you will fall head over heels for Lily and Adam. I did not think I could fall in love with a character anymore but Adam stole my heart with his desire, humor, jealousy, and insecurities.

He wore his heart on his sleeve and displayed his cockiness while claiming and protect the woman he loved since licking her fruit roll-up (at 4 yrs old). Their story had me laughing, aroused, and in tears from beginning to end.

N.M. Silber out did herself because behind the smiles is humor were a broken girl who felt alone and unloved and she ended being loved, more confident, and part of what she always wanted.

Thank you for the opportunity.
