### **Stephen Lake says**

Stirring call to men to mentor other (younger) men. Good, proposed structure for how to do it. I appreciated the stress on group mentoring and why that is probably more effective and challenging than less formal and one-on-one mentoring.

I did leave the "Manifesto" feeling that it was strong on cheerleading, not as much on actual examples or evidence of effective mentoring. \*Show\* us how and why it works, do not just \*say that\* it works or you ought to do it, without a compelling story of mentoring at work. It would have been more compelling, too, if I felt it addressed more in depth my biggest fear of being a mentor: I'm not 'good enough,' far enough advanced in my spiritual life, in order to mentor others. How do ordinary men really pass on their faith and life to others when we all are "only sinners, saved by grace"? That question needs more treatment, I believe.

Simple and doable plan to influence the generations for good.

New to me: mentoring in a group setting, clearly defined upfront commitment to participate, graduation date and requirement to pay it forward.

#### **Excellent read and I highly recommend it**

If I had an option to choose 10 stars I would, this book was God sent and I know it for a fact. My job at The Cleveland Job Corps has recently mandated that all employees begin mentoring at least 2 students. So I will use what I've learned from this book and I will mentor with a passion and purpose.
