*Hilary Storm*

## **Fighting the Odds** Hilary Storm

A tragedy has driven Luke Jacobs to leave behind everything he knows and loves. Rebel Walking is a distant reminder of the pain he can't seem to get past and he's left without any reason to fight to get himself out of the depressed state he's landed in.

Kimber finds herself hopeless and alone in a relationship full of abuse. She's constantly being controlled by the men in her life and she quit resisting long ago.

When these two worlds collide, will Luke begin to live again? How will he deal with the pressure from the Walkers to return to Rebel Walking? Can he handle the emotions he's faced with when the numbness begins to wear off?

### Carylee says

#### I love the rebel walking series!

Luke's book is great! He been through so much and finally does a turn around and loses her. Now he finds some one who brings him back alive and gets wrench thrown in there. Waiting patiently for the next book....so please hurry!!!

---

### Lisa Gibbons says

When I started reading this series I found all the characters extremely intriguing but still to this point cannot pick a favourite. I tell you what though, it's hard not to peg Luke Jacobs right near the top. I figured Luke would be elaborated on eventually - but I never quite imagined I'd grow to enjoy his character quite this much! I love his depth. I love that he's rough but gentle, he's a dreamy contradiction in a lot of ways and after reading No Strings Attached I couldn't get my hands on this book quick enough. It's so good - I don't even know how else to describe it. It leads on seamlessly from No Strings Attached with the same realness and raw emotion. Again it's not predictable and I found myself reading it cover to cover because by this point I was fully hooked into this series and dying to know what was going to happen next.

I'm very much looking forward to the next release too, which hopefully isn't too far away because the sneak peak we're left with at the end of this book - OMG!! Way to leave a girl hanging!!! 5 Stars again from me, massive props to you Hilary Storm I am now a huge fan!! :D

### Corinne says

3 1/3 stars

The Book:\*\*\*

The Feels: \*\*\*

The Appeal: \*\*\*\*

No Strings Attached gutted me, so I'm a little at a loss on Fighting the Odds. I loved Luke with Lilly, and I was devastated when their story was cut short. Truth be told, I felt somewhat vindicated when Luke was so heartbroken over Lilly's death that he isolated himself and disconnected from life. I felt like his penance somehow proved his love for Lilly was real. Enter Kimber. Kimber was in a shitty situation and just as she was going to escape, she finds herself at the hands of an abusive boyfriend. Gallant Luke to the rescue, he makes it his mission to save Kimber, and in the process he begins the process of letting Lilly go.

Kudos:

1. Luke is HOTT!! I want to jump on the back of his bike!
2. Kimber is a badass. Only a badass can train a hottie!

Gripes:

1. this book was way too short. I'm glad I found this series after Luke's story was complete because waiting for the 164 pages in this story would've just pissed me off. Make sure you have #6 on deck because this

story is just a teaser.

2. I felt Kimber was a rebound chic. The fact that he claims his love for Kimber had me back at thinking Luke's feelings for Lilly weren't legit because how could he have fallen for Kimber within a week?!?

---

### **Tammi says**

Loved it! Loved it!

I was already totally in love with Luke. But heartbroken Luke seriously ... I couldn't stand it. Then Kimber poor thing raised in the horrible life of illegal cage boxing by a father who honestly didn't give a crap about her. Throw in an abusive boyfriend.

Can they save each other!!!

I honestly believe Hilary enjoys taking us right to the edge of heartbreak!

### **Candi Gabbart says**

**OMG outstanding.**

Hilary did it again. just loved this book. what Luke wouldn't do for someone. I need the next book like now.

---

### **Theresa says**

**This is one fight he can't lose...**

For book five we are off too California with Luke in his tiny apartment and his day by day existence. I say existence because one cannot call what he is doing living. It's as if he died too. Until he decides to go watch a fight one night, and his life is forever changed. And now a bit about the story...

It has been six months, but not much has changed for Luke. He works, eats, works out, and sleeps. His apartment is the size of a closet, the shower is even smaller than the one on the tour bus. After seeing a flyer about a fight at the gym, he decides to go out for the night. He doesn't have a great time, but at least it is something different. Everything changes on his walk home. He sees a man beating a woman and the only thing to do is step in. He has no idea what that beating will lead too...

Favorite passages:

- "Sometimes it hits you when you least expect it."

- "Sometimes you have to deal with the sh\*t before you can deal with sh\*t."

- "I want you to stand with them during the fight. They will make sure you are safe. I trust them with my

life."

- The big problem will be me stopping before I kill him.

- "Luke, what if someone sees us?" "Better make it good then, they'll expect a show."

### **Dawn Burger says**

Hilary is constantly taking us on a rollercoaster ride of emotions. I felt so bad for Luke, I hated how things ended with Lilley, heartbreaking! And then we meet Kimber. If anyone ever needed to be rescued she did. I love their story and the process of healing. And once again what a cliff hanger. Diving right into Never Say Goodbye!

---

### **Amy Zec says**

Hilary Storm once again absolutely blew me away! Just when I thought I couldn't love Luke anymore she proves me wrong. This is definitely one of the best books I have read. Of course there are a lot of those OMG, WTF, and steamy moments that keep you begging for more. She has away with making you connect to each character. I so didn't want to like Kimber. I was team Lily and didn't want Luke with anyone else. Hilary worked her magic and within two chapters I absolutely loved Kimber and connected with her emotionally. Both Luke and Kimber have a past that is hard to get through but can they Fight The Odds and make it work! I definitely can't wait to see what Hilary has in store for us next.

---

### **Ashley Jasper says**

After the ending of Luke's last book, No Strings Attached, I had to know what would become of him and the rest of the crew. I absolutely devoured this book and was not disappointed in the story that unfolded at all. I finished it in one sitting and found myself trying to flip for more pages that didn't exist.

This book picks up with Luke coming to the rescue of a damsel in distress, Kimber. This sets off a series of events which will change both of them. I really enjoyed seeing this softer side to Luke as he helped take care of and protect Kimber. She was just what he needed to wake him up to the rut that he had been in. And vice versa for Kimber. Luke came riding into her life at the right moment. He opened her eyes to the fact that she was more than the product her father had made her out to be. The scene when Luke finally plays again had me near tears- it was such a turning point for him and the book. Of course with Kimber's dad being who he is, things get a bit out of control. Just in time, Luke is saved by a blast from his past.

This book held all the elements that make me love Hilary Storm's writing. There is drama, angst, mystique, steam, humor and love all perfectly blended to give a story that you can connect with (even if you can't relate to the characters circumstances). There also glimpses at the other characters from this series that I already love. Oh and that little epilogue....I need to know what is going to happen next!

---

### **Chianti Summers says**

Wow! Didn't see that coming. Can't wait for the next installment to see what happens. I would like to see

Luke get his happily ever after. We all need one. I enjoyed this book and Luke is so alpha and so soft at the same time. I am also glad that Kimber is strong enough to go through her situation. I am sorry this is vague I just don't want to spoil things for others.

---

## **Chrissy says**

Finally the wait is over and we can see where Luke is and what he's been up to! Man, I know Luke was broken after No Strings Attached, but I didn't realize what shell of a man was left. We catch up with him in California and with a quick turn of events Kimber enters his life.

You can tell Luke has changed, and I love this and hate this about him. I loved his man whore ways, and now he's just being, he's not even really living. Kimber helps brings some of the old Luke back, but the loss of Lilly is still killing him inside, he hasn't dealt with what has happened.

Kimber, this girl, I feel horrible for her. With a father like that, and the way she's been treated, I'm surprised she is as strong as she is. The loss she grieves is unbearable, but having Luke there to help makes it easier, and allows both of them to heal from their own personal losses.

I loved the chemistry between these two characters and can't wait to see what happens next, especially with the glimpse into the next book... when does this one come out?! OMG!

Luke still has a long way to go, but I believe having Kimber in his life will allow him to move forward and hopefully Rebel Walking will be back together again. If I haven't said it yet, I am definitely addicted to this series and can't wait to see what Hilary Storm has in store for us next!

---

## **Missy Harton says**

### **INCREDIBLE!!! You won't want to put it down!!**

Oh my....where to begin? A DEFINITE 5 STAR read!!! If you haven't read The Rebel Walking series, well there is just NO excuse. Meet the guys and their gals in In a Heartbeat, Heaven Sent, Banded Together, No Strings Attached, and Hold Me Closer. Your best bet is to start at the beginning. Hilary Storm has such a powerful and unique writing style. You will truly fall head over heels for her characters. Each story draws you so deep, it's as though you are in it, experiencing every emotion the characters feel! I seriously urge you to add this whole series to your to be read list!!

Jake has secluded himself to try to hide his pain. He keeps to himself until one night, he can't ignore the actions of a man beating on a woman. Events unravel and Jake's only concern is to protect this stranger. Not having any type of human contact in months, will this woman help him heal emotionally?

Kimber is in a terrible situation. Staying in town one extra day was a big mistake. Embarrassment floods her knowing a stranger saw her being assaulted. It gets worse when the guy beats her assailant. No one has ever come to her rescue. Will this mystery man help her get her life back or is he just like all of the others?

---

## **Tammy Ballenger-anderson says**

### **Oh My God**

I feel this book was rushed some. It was still a good story. The way it ended WOW. All kind of thoughts going through your mind.

---

### **Crystal Hebert says**

Holy effin crap!!!! I love this book but the next one is gonna be plain torture waiting for it to come out. I will pay top dollar to get my hands on a ARC????

---
