Secret Tree Fort Brianne Farley

Even a bookish big sister is drawn in by the promise of her imaginative sibling's spectacular hideaway.

I have a secret tree fort, and YOU'RE NOT INVITED!

When two sisters are ushered outside to play, one sits under a tree with a book while the other regales her with descriptions of a cool fort *in* a tree that grows ever more fantastical in the telling. What will it take to get the older sister to look up? The promise of a water-balloon launcher in case of attack? A trapdoor to stargaze through? A crow's nest from which to see how many whales pass by or to watch for pirates? Or the best part of all, which can't be revealed, because it's a *secret*?

That voice! Those illustrations! The big sister/little sister dynamic. All so good.

Sheri says

Captures that sibling relationship perfectly that so many of us recall. I love how imagination soars and soars and never stops dreaming. And then a bump in the road, but just a small one, as we're off again on a journey to something awesome. Cause after all imagination x 2 can only lead to bigger and better!

This is perfect for anyone who has ever had to deal with a younger sibling who won't leave them alone. This story is full of imagination and I just love the sweet ending.

Lesley Burnap says

Sisters. Imagination. Forts. Books. ??

Kris says

Wonderfully imaginative, celebrates the big sister/little sister dynamic. Plenty of to be examined in the illustrations, which really are necessary to get the full story. Reading the text alone, the reader will lose so much. Great use of color, varying from dull to bright and full spreads of color, to small vignettes on white background. Emotion is very well conveyed.

This book reminded me of my two daughters when they were young. :)

Definitely one to know about and share.

Margaux says

Two sisters are sent outside by their mother on a lovely day. The older one wants to read, and the younger wants to play. How to convince her sister to cooperate? The younger begins a plot to make her sister jealous, talking about her fantastical tree fort that is so out of this world, her sister will *have* to play with her. The best part? It's MADE OF CANDY!!!

Allie says

HOLY COW. THIS BOOK IS PERFECTLY TAILORED TO MY READ-ALOUD STYLE! I can't quite explain it, but it's so totally perfect for me to use in a class visit. I don't know how well it would work for other people, but it's SO PERFECT for me.

Ok, rational thoughts. I love the sketchy illustrations and the big sister/little sister dynamic. I'm also a big sucker for tree houses and homemade forts of all sorts.

Chris says

Ha! The first pages definitely remind me of me and my own sister..... And, it's dedicated to "my favorite sister." This book is cute, clever, and imaginative - a little Where the Wild Things Are meets Bink and Mollie. And, unlike what really happened with my own sister, it has a wonderful, perfect ending. Great picture book.

Melki says

A girl just wants to read her book in peace. (What's wrong with that, I ask you?)
BUT . . . her sister's wild imagination may prove to offer a more interesting story.
(All right - I guess it's okay to get your nose out of a book every now and then.)

Meghan Hunt says

I love the illustrations and the imagination of the little girl.

5 STARS

When two sisters were sent outside to play one finds a nice tree to read under. While the other sister wants to play with her sister. When her sister does not pay any attention she starts to imagine an awesome secret tree fort and telling her every detail. Will her sister notice her? LOVED the illustrations. It reminded me of picture books from my own childhood. A cute funny story I would recommend to anyone! (Ages 3-6)

Ana Calabresi says

Lovely! Pesky little sisters, the power of imagination.

Jennifer Strong says

Forced outside to play by Mom, and a sister who wants to read instead of play, one little girl must use her imagination to build a secret tree fort that gets more and more elaborate.

This is childhood! This story will capture the imaginations of young and old readers alike. My mind worked just like the little girl's when I was young.

Julie says

I really love this one.

Pernille Ripp says

Wonderful addition to any classroom library, fantastic inspiration for imagination!
