Mask of the Highlander: A Gods of the Highlands Prequel Bambi Lynn

Kenna dreads her husband's homecoming like the plague. The man she married is vile and cruel. She has prayed every day of his absence he would be killed in the fighting, freeing her from a life of brutal torment and a loveless marriage. But the man on her doorstep has changed. This man is kind, gentle and sparks a fire in her she never felt in the early days of her marriage. Ty is returning home after years fighting in France. He yearns for the arms of his beautiful wife and to finally meet the daughter he has never known. But can Kenna forgive the man she married and love the man he has become?

Izzie d says

This is a good story. It is part of series and the story will continue in the next book.

Ian is amazing as Kenna's 'husband'. There is not too much detail of Kenna's life before her husband's return from war, we just get the idea of how bad he was.

I would have liked to see more interaction with other characters as this would have made it a longer story but it is well written and an enjoyable story.

Anne Martin says

It is just a short story, without any supernatural features. Too short to enable you to know much about the characters, which are rather stereotyped.

It's a prequel, 50 pages long, meaning 15 to 20 minutes. I suppose it may be cute for those who have the whole series. But just the small book is not enough.

Luisa says

i won a copy of this book in the good reads givaways,

the book is ok, its very short and i read it in one sitting,

its the story of a bully of a man who goes to war and returns after 5 years and seems to of become a totally changed man,

Claire Gem says

A Truly Authentic Medieval Romance

Such a joy to find a well-researched, eloquently written romance set in my favorite time period! Keep them coming, Bambi!

Linda Levine says

This is a short prequel to the series about a man who returns to his wife and home a changed person. His wife has dreaded his return and is not sure what to make of this new version of her husband.

It has an interesting premise and I want to learn more about the characters. There are a lot of opportunities for a really good story to come.

I am voluntarily reviewing a copy I received.

Ann (Fanni Ann) says

This is the story that started it all, it was good and liked it but thought there could be more interaction between the characters

I received an advanced copy and voluntarily leave my own thoughts

Amanda Richardson says

Super hot! Kenna's husband, Ty, has been gone for five years and she dreaded his return every day. She spent only three nights with him after their marriage, he was brutal and cruel, but left her carrying his daughter.

Now Ty is back and she is more scared than she has ever been. Kenna is scared because Ty has changed. Physically, he lost an eye in the war, and emotionally he is warmer and kinder than she ever dreamed he could be. Kenna can't trust this new man of hers even as she is attracted to him more than she ever thought possible.

Ty and Kenna are explosive together, the love scenes in this book are hot, hot, hot! Kenna has to figure out the mystery of the man who is her husband and what their future holds.

No spoilers here, but I was really impressed with the author's ability to make an thoroughly unlikable character into a different person.

Recommended for readers who like Scottish romances with plenty of heat and a touch of mystic qualities as well!

Wendy Jones says

Strong warrior highlander, peril, chemistry and plot. Great prequel. Will read more.
