Katie says

Very interesting take on what the history of English literature is.

Navid Naderi says

The essay "What is English Literature" is fascinating, and seriously funny.

Vanessa Dewolf says

Gertrude Stein is my inspiration, she was well-known as a hostess and cultivated great conversation and also was a poet of profound experimentation.

This book, strangely, is one of my favorites by her. It's about the source of her experiments and it's also in the style of them.
