Tabbruis comes to her aid when she is attacked by a Blood-Hunter. Charmaine's power as a Light-Bearer, one who throws lightning, is triggered when she meets Tabbruis, and it grows exponentially.

When they meet, the attraction is immediate, romantic and passionate. They are polar opposites and clash together in a dramatic way.

Will Charmaine and Tabbruis fulfill their destinies? Will they realize their importance in both the Blood-Hunter and Light-Bearer world?

“Charmaine” is an action-packed emotional roller-coaster of passion and fury!

I adored this book! Loved it!

A few weeks ago, I received a message from one of my reviewer friends saying that I HAD to check out this book. I read the book without really knowing much about it, and without reading any reviews, which was unlike me. I fell in love!

Charmaine was an absolutely breathtaking book! The story is unbelievable. It's unique, it's powerful, it's romantic and it's beautiful! The novel is rather long, but it's a fast read because it's addictive and hard to put down for even a moment. It really sucks you in and captivates you as well as captures your emotions and holds them hostage. The pacing and the world building are fantastic. The background information really helps the readers get to know who the characters are and why they're like that. I enjoyed it immensely.

I loved everything about the book! All the characters, major and minor, especially the two main characters Charmaine and Tabbruis! Talk about swoon worthy moments between those two! Charmaine is a Light Bearer (angel) and Tabbruis is a blood-hunter (vampire). Their love is forbidden, so they've got kind of a star-crossed lovers thing going on and have to beat all sorts of odds and obstacles for the chance to actually be together. But the story is so much more than that. Emily did a great job coming up with such a wonderful plot!

The story is filled with action, romance, and both historical and religious aspects as well as some crazy twists thrown in for good measure! One of the best things about this book is that it is full of religious things, but in no way is it boring or is the author preaching. It is simply there to solidify an already great story. I believe this is what makes the story so powerful. It's a tale of not only true love, but of great always overcoming evil.

I recommend this book to anyone that likes a unique paranormal romance. I think that this book deserves a lot of attention, and I think that it will indeed get just that in the next few months! I think that people worldwide should pick up this story and fall in love with this incredible world!

I will be anxiously awaiting until I can get my hands on book 2, titled Ransom!

Melanie Adkins says

We all know God created someone for everyone. Tabbruis and Charmentine were two such people. Actually Angels. Tabbruis was the Angel of Self Determination in the 4th choir of Angels. Charmaine was the Angel of Harmony in the 9th choir of Angels. They were the yin to each others yang. Their family was happy and doing well until they were ripped apart by a mistake. A miscalculation. For centuries they were each alone. Feeling as if something was missing but not sure what. Tabbruis, Tab Hunter, had become a blood hunter, immortal. Charmaine, Charleen Davis, became a light bearer, also an immortal. For some unknown reason are drawn to each other. After spending time together, they realize they have something special. Each has seen the other in their dreams but never thought they'd be together. Like most good things, it comes with a price. They must defeat the blood hunter's council before they can truly be together forever. With questions and issues, they begin the journey and realize they are not alone.

This story is a fantastically tender, romantic one of timeless love. I enjoyed the fact they'd fought so hard to

find each other and nothing or no one would tear them apart. I loved the fact it explained how the situation came to be and what they must do to right their lives again. Another good thing was the friends and family they had helping them along the way. This is a first novel for Emily Guido and she did a great job with it. I would be less than honest if I said it didn't have problems. It's mostly editing, grammar and repetition. Still this story is well worth a read!!

The only issues I stated above.

I gave this one 4 out of 5 stars because of the redundancy in places.

OMGosh I am loving this first installment immensely! Emily has created a world of LOVE going so deep, the hardcore romantic within me can totally feel the characters emotions. Thank you Emily Guido for following your heart and writing his beautiful story and for allowing me the privilege to Read~N~Review it.

This book spans from Heaven to Romania, it is filled with emotions that will make you laugh, cry, and feel all of it right along with the characters. I was so upset at one point I wanted to throw my phone across the room saying, "OH NO, she did NOT just do that."

The characters and their backgrounds are amazingly portrayed in this uniquely refreshing story.

The world created is original, breathtaking and consistent. Imagine yourself on a secluded beach on the Black Sea with your soul mate, or being in the middle of a battle between good and evil. It is chock full of tasteful romance and tenderness.

I recommend this read to anyone who wants a truly amazing read.

LOVE is deep and if you believe with all your heart, mind, body, and spirit anything is possible. I want my own Tabbruis!!

BRIEF SUMMARY

Both Charmaine and Tabbruis descended to earth not remembering who they really are. Charmaine grew up in an orphanage and Tabbruis has been walking the earth for centuries as a blood hunter/ vampire. With a chance meeting, both will uncover secrets about themselves that will lead them to constantly fight to save their new but somewhat old discovered loved.

THOUGHTS

This was an appealing story that has caught me off guard in a surprising way. I would shelf this book in the category of one of the breakout books for me that I have read for 2012. The first few chapters pulls you in immediately as the build up to Charleen aka Charmaine meeting with Tabbruis. Both these character's chemistry was so intense, emotionally, that you couldn't look away. There is nothing like forbidden love and a reunited love between a light bearer and a blood hunter vampire who finds their connection with Billy Joel's music.

Once the characters met, the story took off in ways that reveals a lot and connects the other supporting characters Shane, Thomas, Neal and Dmitri to Charmaine and Tabbruis in ways that are exciting and unexpected. Although I have to admit that as exciting as the connection between Charmaine, Tabbruis and Shane was, it felt a little awkward for me as I reconnect with them in their newly discovered roles. The action sequence within the story was not lacking also as both characters tries to battle and defeat other blood hunters and the council. With Charmaine being a light bearer and Tab being a blood hunter, their love is forbidden, and both most fight to keep their family together. Well done to the author on her first book and first book within the series.

What I will say and note to the readers is that there were editing issues, so if you are able to bypass that issue then there shouldn't be any problems for you. The story is also extensively lengthy. Throughout the story there were times when the plot had it's high and low points. As much as I enjoyed the story and from my personal taste, I felt certain scenes weren't necessary. Lastly, to the readers who like physical intimacy within their story, this really had none, however, that didn't bother me as much as the story was strong enough with the emotional connection from the characters.

This was an interesting read that will take you on a journey from Heaven to Earth. The story starts off in Heaven with the angels where we are introduced to Tabbruis who is the Angel of Self-Determination and Charmaine who is the Angel of Harmony. They are happily married but a great battle occurs between Lucifer and the other angels. Tabbruis and Charmaine wake-up on Earth not knowing who or what they are. Tabbruis wakes up a Blood-Hunter, someone who needs blood to live and Charmaine wake up a Light-Bearer, someone who throws lightning. Blood-Hunters and Light-Bearers are mortal enemies. They are drawn to each other not knowing their previous connection or what will happen to them.

The author does an excellent job of developing each character as the story progresses. She gives vivid details but at times it is too much. I would definitely recommend this book! It has a everything a good story needs love, sacrifice, forgiveness and good versus evil.

Law Reigns says

Tabbruis is a blood-hunter, vampire, but the author never uses that word once in the novel and brings a refreshing twist to the vampire lore.

Charmeine (Charleen) is a powerhouse light-bearer, angel, who is beautiful, determined and loves Tabbruis and her family very much.

Tabbruis and Charmeine are total opposites. When they meet, the sparks fly! However, light-bearers and blood-hunters are mortal enemies of each other. Because Tabbruis refuses to bend to the blood-hunter Elder Council to kill Charmeine, they both are marked for death. They ba

From the very beginning, Charmeine was a super read which gripped my attention! Charmeine 5 out of 5 stars for a riveting romance. I look forward to the author's second novel, Ransom, soon to be released in early June 2012!

I really like this book and I cannot wait for the second one. I am one that loves a strong female lead as well as a male. I had only read the small overview for the book before beginning it, and let me tell you, I was in lust.

Tabbruis grabbed a hold of me by my collar and pulled me through the book. It wasn't many pages into it and I was hooked on the story. I wanted to know more about this blood hunter and the mysterious face he saw.

The more I read the more I loved this book. The emotion that the writer managed to capture in those pages, wraps around you bringing you in the centerfold of the action. I was quite impressed with this being a breakout first novel.

If you love romance on the paranormal side of things, which I do, I would recommend this book. It leaves you wanting to know more. I know I will be purchasing the second one as soon as it's released. Well done, Emily, really well done.

Samantha Adams says

Charmeine is a story about Tabbruis, a very hunky bloodhunter aka Vampire and Charleen/Charmeine a sassy little lightbearer.

The bloodhunters and lightbearers are mortal enemies and supposed to kill each other on sight.

We start the story with Tabbruis finding himself pulled in a certain direction with no reason or knowledge why. He has visions of a face that makes him feel alive and whole in a way that he has never felt before.

Charleen/Charmeine is that face.

After a chance encounter, when her life is at stake, they meet and the sparks fly!

The story then continues on with their journey, learning about each other, discovering their past and fighting to save their future.

So what I liked about Charmaine...

For a start, I LOVED that was so different! I can honestly say I haven't read a story line like this before. Lightbearers (Angels) and Bloodhunters (Vampires) is a whole new twist that I really, really enjoyed.

I loved Tabrruis, even though he was a knucklehead at times, as all good heros are. And I loved Charmaine for her strong sense of faith and trusting. I admit i wanted to slap her a couple of times for overreacting but i still loved her.

It was such a sweet and almost innocent love story with insinuated love scenes as opposed to steamy scenes. This was actually something i liked and didn't like. I like the sweet innocence, but I did want the steamy scenes.

A lot of the book is a real page turner, and i found myself hooked and thinking about what was happening when I wasn't reading it.

Now the not so positives -

Even though this was a wonderful novel that i really enjoyed, and plan on reading the next one also, it had a few problems.

The biggest problem for me was the editing. All through the book, I found spelling errors, missing words or misused words. I kept on reading but it does tend to jolt you out of the story. It just needs another edit, so this is simple enough to fix.

The sentence structure and dialogue could flow a bit smoother in some places but that could be fixed with another edit too.

The only problem with the story line that I found, was that the characters were too familiar to quickly at times. I wont say who it was because I don't want to ruin the story, but when someone finds out they are related and instantly starts referring to them as Mom or Dad and then someone else who has never met them before starts saying that, it feels to familiar.

If the above was fixed, I would give this novel 5 stars!

Despite the editing, I really enjoyed this and wouldn't hesitate to read more books by this author! Looking forward to reading the next in the series - Ransom.

Well done Emily, this a great debut novel!

Hea y'all Anne here and I want to tell y'all about Charmaine by Emily Guido. First off I read this book blind to what to expect, I hadn't read any reviews or breakdowns. This book was utterly amazing. Emily has created a story that will invade your mind and touch your soul. It's a sweet romance with no erotica which I happen to like, it allows the reader to follow the story baseline and not get distracted by heavy sex scenes. When I first started this book I noted that the start of the story brings forth Angels and the unyielding love they share for one another. Soul mates in heaven and families living together in the purest of places. That's when the twists start, Tabbruis and Charmaine a pair of angels who are not only soul mates but a family full of love and devotion. Their story takes a drastic turn when Tab Hunter wakes alone and with no memory. He lives through centuries not knowing what happened or why. His memory is plagued with visions of a beautiful woman, her smile and her light leaves him wanting and searching for her.

Charlene was found lost and wondering the streets, she can't remember her past she only remembers 4 little letters Char. Taken to an orphanage she lives through her last teenage years pushing herself to become a teacher and to achieve her goal of helping as many people as possible. Charlene has an inner light that makes her a target for a new brand of bad guy called the blood hunters. Now Vampires are not a new thing but the author Emily spins this tale to bring a new life into view. Blood Hunters and Light Bearers are natural enemies and must kill each other on sight. However an ancient prophecy has been told of a pair that will bring forth the end of the age old feud between the two groups.

This book is filled to the brim with stories of love, devotion, pain and loss that will warm your heart and break it at the same time. Emily has developed each character into its own beautiful fixture into the story. No stone is left unturned in the telling of this romantic story. I found myself crying and holding my breath and in astonished awe of this new and exciting twist on some of our favorite classic paranormal beings. When light and dark meet and begin to care what happens to the world? What happens when the harbinger of peace and light is already in love? What will become of the new era for Blood Hunters and Light Bearers? I can't wait for more from this story, I was hooked and addicted 20 pages in and I'm anxiously awaiting for more from all of these characters and any new ones that come about. 5 out of 5 stars for Charmaine by Emily Guido, get this book and fall in love with the new twists and turns that come at you.

Notes to Reviewers and Readers:

First, the Blood-Hunter race or Elders have been on Earth for thousands of years. Because of this, they do not use contractions like I'm, don't or can't. They communicate in a more refined way because of their age.

Second, there are several OLD editions out in circulation of my books. Please leave a review on the current edition. Please feel free to contact me, Emily, at guido.emily@gmail.com to check the edition you have is the recent edition.

Susan Ashcraft says

I started following <http://emilyguido.com/> She is the author of Charmaine, the first book in the new Light Bearer Series. Everyday I would impatiently check my email waiting for another excerpt from her book Charmaine. When I found out that the next book in the series is going to be released soon, I decided that I needed to read the entire book, not just the snippets. So I purchased my copy (first book I've bought in ages) and started to read...

In Heaven, Charmaine and Tabbruus are worried. Charmaine, an Angel of Harmony, has a mission to provide harmony and peace in times of trouble. Lately she feels a serious drain on her power and her ability to provide harmony was lessening daily. Tabbruus is the Angel of Self-Determination and is several levels higher than Charmaine. He allows us to use our free will and inspires us to think of new ways to do things. He must help an Archangel to have conviction in his beliefs and will therefore be unavailable to the family for most of the day. They are waiting to hear what the Prophecy will bring but neither believes it will be good news.

We then go back, back to a time before Tabbruus and Charmaine have met. When Tabbruus used another name and Charmaine had no idea who she really was or what her real name was. Back before love had finally made them complete.

Tabbruus is a Blood Drinker, a vampire. He believes his destiny is to walk earth always in need of blood. Human blood is best, but Tabbruus has learned to use wild animal blood instead to curb his craving. He can go out in sunlight, but prefers the darkness, he seldom sleeps, he is very wealthy and very handsome. People usually bend to his will with little or no problem. He prefers to be alone. The sound, the smell and the action of the sea calms him.

Charleen has beautiful brown eyes and a very sweet nature. Summer is her favorite time of year, she loves the feel of sun on her skin. She learned Judo so she will never be a victim. She has never really dated and has never really been attracted to any man, and she has no interest in finding out why. She tries to tell herself she is happy but she knows that really she wants a man in her life, someone to share with. Charleen loves to go and watch the waves at the sea shore. its very peaceful.

Tabbruus and Charleen meet. They stare deep into each others eyes and they know. They have found the other half of themselves. But will it be enough to overcome all the obstacles both known and unknown in their paths? Can there be happiness between two such different creatures?

I am very satisfied with this story. There were many things to like such as vampires, the supernatural, action scenes, good characters who throughout the book evolve and a very emotional romance involving two people of different races/cultures.

I did at times feel the writing was a little stilted (the kindle edition needs some editing) and that did effect the flow of the story.

Overall, this is a great read, and a terrific debut novel for Emily Guido!

I look forward to the next book in the series.

Alyson LaBarge says

I just finished reading Charmaine. I have a huge smile on my face and the feeling that (at least temporarily) all is right with the World. What a wonderful book! Four Stars at least!

The Good: Emily Guido may be a fairly new PRN writer but you would not know it as you read Charmaine. The storyline is fed out a little at a time so it is not overwhelming nor boring and you, the reader, have all the information you need. Charmaine and Tabbruus are wonderful lead characters. They are bold and intense as well as kind and loving. Heroic and passionate, their story leads you through the entire book much like riding the waves of the ocean with ups and downs, dips and crests. Their love is life changing and all

encompassing, making you want to feel it too. *Semper Tuas Eros* is truly what it is all about.

The Bad: Was there anything I disliked in Charmaine? Not really. The characters and events in the book are clear and easy to follow. It makes you willingly 'suspend your disbelief' and swallow them hook, line, and sinker. Charmaine is a very strong female character, well worthy of emulation. The only reason I can think of not to read it is if you cannot stand to read about angels, God and basic Christian Doctrine.

The Snuggly: Charmaine is well written and reader friendly without undo amounts of bad language or sexuality. I would recommend this book to all true lovers of romance, angels, and PRN with HEA. Enjoy!

*Note: I received this book in exchange for my honest and unbiased review. All opinions are 100% my own.

Tabbruis knows there is something missing in his life; he always sees a face calling to him, but never knows what the face want's from him. Tabbruis is a Bloodhunter, a fallen angel who wonders the earth and survives on blood. After he meets Charleen, he finally knows his purpose.....to love and protect her.

Charleen can't help the instant attraction she feels for the hunky and charming Tabbruis. She has never needed a man before, but she can't help but connect to Tabbruis, and connect they do!

Tabbruis and Charleen soon fall madly in love, but can love save them from the evil after their newly renewed family?

Author, Emily Guido does a fabulous job of creating loveable and unforgettable characters. You can feel the love she put into the story behind every word. Tabbruis and Charleen (Charmaine) share a love that all of us dream about. The scenes were beautifully described and the plot is creative and intriguing. The Light-Bearer Series is sure to be the next fabulous Angel series on your "To-Read" shelf!

Steph at Starry Night Book Reviews says

Charmaine was amazing, this book is filled with love, devotion, pain, loss and will leave you with a rollercoaster of emotions. The characters were well developed as well as the story line. I really can't wait for book 2!

Tabbruis knows there is something missing in his life; he always sees a face calling to him, but never knows what the face want's from him. Tabbruis is a Bloodhunter, a fallen angel who wonders the earth and survives on blood. Little does he know Charleen is the one he's been seeing! They both have an instant attraction to

one another. Soon Tabbruis and Charleen Start to fall in love. But that is right around the time everything starts to fall apart. The vampire council will do everything to keep them apart and to kill all light-bearers. Love and friendships are formed as they go about their destiny, but will it be enough to save them?

Carol Fitzpatrick says

I thought "Charmeine" offered so much!

It was a great love story and a lot of action. I was sure in the beginning that these heavenly and earthly beings would not survive. Charmeine was the heroine and so loved by Tabbruis. Their love was undying and how the author wove in all the characters to be a family which Charmeine was determined to do, and above all keep them safe. Of course, I was happy with the ending and how Shane fared. Shane was one the characters I liked so much. I felt his pain when Sandra was out of his life knowing that she would return to him somehow.

While the characters were part earthly and heavenly, it only gave meaning to the story. The battle that they had to fight to be free and live together in harmony was exciting! The author brought God into their lives because there was a tremendous reference to Him all throughout the book; however, not in preachy way. Each of the characters were fully developed, and I felt like I was part of their battle. I was silently rooting for them.

The author's imagination in the writing captured the vampire spirit but yet not in horror as vampires are usually portrayed but in a loving way.

Tabbruis was a man that anyone would fall in love with! How he adored his beautiful Charmeine and never once ever doubted his undying love for her. How Tabbruis saw her face in all his dreams and then she was the love of his life, "She's Got a Way About Her," like Billy Joel's song says it all. The song fits so nicely into the book.

The author had each character contributing! Their earthly conversations were more formal for the older blood-hunters, and then the light-bearer's more modern language, with some funny expressions make me laugh!

So I give "Charmeine" 5 Stars because the author's story got me hooked. I think the readers will feel the same way.

Nicole Hill says

This book draws you in from the first page. It starts off with preparations for a great battle in heaven and continues completely through with battles on earth. Charmeine and Tabbruis were made for each other in heaven and when they are separated for hundreds of years, with no memory of who or what they are, their mission looks pretty grim. But you will learn that where there is love, there is always the strength to go on. There is no down time in this story. There are no long bouts of filler information. This book is pure raw adrenaline from start to finish! So well written that at times I felt unable to breathe during some of the fights.

It's heart wrenching at times and at others you will be so filled with joy that you think you really might burst. It's about fighting for and trusting the person you love no matter the consequences. It's about the belief that time nor space could ever separate two people who are meant to be. I loved that their road was far from easy and at times it would have been easier to just give up but they never did. I will definitely be waiting for the second installment, " Ransom " when it is released.

Kathleen Burns says

A real page turner:

"Charmeine" is a paranormal romance that is filled with, mystery, action, adventure, glimpses of history, spiraling plot points, solid backstory and wonderful intimate romance at its best.

Charmeine and Tabbruis are a couple who, against all odds, have found each other again after being separated.

This novel is much more than a book about Vampires and Angels, it was an adventure!

Charmeine and Tabbruis at their first time meeting was so poignant that I felt like a teenager again reading all their hopes and desires wrapped into a touch of their hands.

This couple had to fight to stay alive with their new found family. I cannot tell you the ending but suffice it to say it will have you turning the page for more and more.

I give "Charmeine" 5 out of 5 stars. Kathleen M. Burns

Move over Edward, there's a new player in town called Tabbruis.

Emily Guido, a new Paranormal / vampire Author. She discovered me on wordblogg and I followed her on wordblogg, twitter, facebook you name it. She wrote a 100.000! word novel in 1 week!!!! Called Charmaine. I read her book in 1 week!!!

At first a little skeptical, an Angel as vampire? But that also intrigued me. I'm a sucker for original vampire love stories. And I must say I absolutly loved it!!!!

Combine Angel from Buffy the Vampire Slayer and Cas from supernatural and you have Tabbruis a Blood Hunter from Hell. Who roamed the earth searching for the one thing he missed in his live, love. But, as a Blood Hunter he also has enemies, the Light-Bearers. Their quest is to destroy the Blood Hunters and protect the humans.

And then you have Charmaine, a lovely teacher who lost her memory and struggles through live. Until she meets that dark handsome strangers who rescues her from a blood hunter attack, or is it the other way around?

Needless to say that the stranger is Tabbruus and they fall hopelessly in love with each other. And then things move fast. Charmaine discovers she's a light bearer and thus she and her love Tabbruus are sworn enemies. They fight for their love, their family and discover their past together in heaven. Will they succeed? I won't tell. You have so read for yourself and it's a good read.

Like I said, I couldn't stop reading and it took me about 4 days to read the whole book. And I can't wait till Emily's next novel Ransom, due in May 2012. Thankfully I won't have to wait so long. She is a great debut author whom we will be hearing much more of. She writes funny, fast and fantastic and I give this book and 8 out of 10, or 4 out of 5 stars. As you like it. All I can say is read this book, follow Emily Guido and spread the word!

Fathima says

OH MY WOW !!!!

Romance between a Vampire and a light bearer is something so new , I had to read this book to find out what the buzz and feel is all about .. And all I can say is that book didnt disappoint at all !

Tabbruus is a blood hunter , and has been a loner like forever , thats until Charlene/Charmaine walks into his life - first in his dreams and everywhere he looks then for real .

Charmaine is an orphan who cant remember anything about her past . What she does know is that she has recently become the target of a group hunters called the blood hunters .. Why are these hunters after her ?? Well Charmaine is no ordinary girl , she is a light bearer a beacon of hope to the dark and twisted world .. What happens when Tabbruus and Charmaine meet ? How will their love survive the dangers that are lurking to destroy them ... ?? All this and more is what this book is all about .

Cover speak : My first thoughts when I looked at this cover was - " HmMMM interesting ." But Honestly speaking it never came across to me as a Vampire and angel story . To me it felt more of like a contemporary romance . It was'nt till I read this blurb did I figure out what this was about . Either ways , I loved this cover .

Things I loved about this book :

The romance in this book was definitely the biggest highlight for me . When Tabbruus and Charmaine meet , it was definitely a classic case of Insta-love and I enjoyed the kind of conversation they had . It almost felt like two teenagers , falling in love for the very first time . I loved how Tabbruus was never doubtful of his love for Charmaine . Their love for each other had me smiling to myself a lot of times ..

But as they say where there's love there's pain too .. And It was the same here as well . Tabbruus and Charmaine had to fight to keep their love and peace on earth . This was the kind of story that involved Heaven and Earth . Will they win , or will love be lost forever ??

I absolutely loved Emily's writing style . She made her characters so real , and the emotions so true that I could'nt help but sry and laugh when something bad or good happened !! Emily is definitely one of my fav authors , and the way this book ended had me begging for more . I cant wait to read more from this series and find out whats is store for Tabbruus and Charmaine .

Recommended for readers who love an absolutely amazing love story between a sexy vampire and a sugary sweet angel . This one's a must read from me !!

What a wonderful new series! Charmaine is an innocent, selfless, generous heroine who only wants what's best for herself and her best friend Shane. Our hero, Tabburis is kind of tired and lonely until they meet, then, he's very interested! This book not only has excitement to spare, but our author, Ms. Guido takes the time to build a wonderful foundation for her series in-between all the excitement. Ms. Guido has a very original story line, the twists and turns in this book! I am counting on Ms. Guido's surprises to continue! This is a must read book for all of the paranormal romance fans!
