Rocky Mountain Retreat Vivian Arend

Previously titled Rocky Retreat

From New York Times bestselling author Vivian Arend.

Finding white-hot love in a white-out...

Eight months ago, Lee Coleman met the woman of his dreams...then lost her to another man. He buried his disappointment by throwing himself into work on the family ranch, but when a winter storm leaves him stranded, Lee finds more than shelter in the rustic safety of a hunter's cabin—he finds a second shot at love.

Rachel Malone's heart has been broken and stomped on by her cheating ex, and she's determined to never fall in love again. But a rebound fling? Doesn't sound like such a bad idea, especially when she's snowed-in with a gorgeous, sweet-talking Coleman.

Despite their off-the-charts chemistry, Lee makes it clear he wants more than a temporary romp. In fact, he's made it his mission to put a smile back on her face, even if it means taking it slow and resisting the scorching heat between them. This time around, he wants forever, while Rachel is positive that forever is a fool's dream.

Lee can't wait to prove her wrong...

*Rocky Retreat was also available for a short time as a part of **Cowboys Last All Night**. If you've purchased that box set, you've already read Rocky Retreat!*

Taz Will says

I thought Lee and Rachel's story would be more interesting but it was just okay. Not much going on and once they got together I was ready for it to be over. Hopefully the next one will be better.

Jennifer says

It's a sugary sweet one. And after the tears of, One Sexy Ride, the book previous to this one in the Rocky Mountain House series...this was exactly what I needed. It is important to remember that age is just a number.

Lovinghotbooks1 says

*I was gifted this book from the author and freely give my review**

Lee has never forgot Rachel even when she married someone else and moved away. Now she's divorced and back, Lee intrudes on her pity party at the cabin she's renting when a snow storm traps him.

This was a good story and especially liked the age difference, she's older then him, go girl!!

Easy writing style, no unnecessary descriptions of surroundings and lots of dialogues makes this a joyful read, as always from Arend.

Rachel has some reservations about starting a new relationship and that's understandable, but Lee is willing to take it slow. The fooling around and the slow approach is very well described with a lot of emotions. Hot love scenes is warming up the pages.

If you enjoy fun, hot and sweet HEA, READ READ READ!

This is part of a series but can definitely be read as a standalone!

Roslynn says

Snowed in....Sexy Cowboy....

Have to find the most efficient way to keep warm!

Francesca the Fierce (Under the Covers Book Blog) says

Ahhhh, I'm back in the six Pack Ranch world. I have no idea how I missed this release, but I have now rectified this error by picking up the audiobook. And it's actually the first time I listened to the series and I have to say, I like! The narrator does a great job!

So ROCKY RETREAT is a short story about Lee Coleman and him finally getting the woman he's been in love with for eight months. Lee is much younger than Rachel (9 years!) and she's been burned by her ex before (who cheated on her) so he has his work cut out for him if he want more than a sexual thrill.

First of all... You go Rachel! LOL Lee knows exactly what he wants and that is her. He's not interested in the young chicks running around him, he only has eyes for her. But she's never paid much attention to him until they are stuck together at a cabin while they both take refuge from a winter storm. Snowed in for a bit, the sexual chemistry between them explodes right away. But when Rachel wants to leave things as just that, Lee pushes for more.

Can I just say hot? ROCKY RETREAT was hot and sweet. It was sweet to see Lee break down the walls Rachel had put up in her mind while trying to protect herself from sure heartbreak. But also it's beautiful to see how he loves every part of her and wants to show her just how beautiful she is. It also helps that Lee is very mature for his age, so in my mind his age was just a number.

I think this story could've been stretched to a full length story so we would've gotten to read more about the things that were left unsaid and implied. One of my favorite things about these Coleman men is how strong and determined they are in the pursuit of the woman they set their sights on. And I wanted more of those moments in this book. But definitely enjoyed every bit of what we got. But it leaves me ready for the next one!

Shannon says

Rocky Retreat

The Characters

Rachel Malone: I liked Rachel but almost identified with her too much. I'm an over thinker and second guesser and it drives me nuts so to read about someone else doing the same kinda turns me off.
Lee Coleman: He's a good guy. Very mature and seems to know exactly what he wants in life.

The Story

I love they way they came together. Stranded in the cabin, swoon. I can understand Rachel's hesitation in dating Lee, 9 years is a lot. But, Lee's maturity is unexpected so hey never say never. This story was good and left me happy, I quite enjoyed it.

The Random Thoughts

This story can be found in Cowboys Last All Night boxed set.

3.5 Stars

L M says

I had read this before in an anthology I think, but it really is no hardship to read it again.

A lovely story of second chances.

Lee has been in love with Rachel for ages but she believed him to be too young and to just be flirting. She married a cheating dirtbag which lasted all of 1 month.

Lee finds Rachel licking her wounds in a cabin during a bad storm. He seizes his chance to be with the woman he loves.

Spending time in close proximity gives Rachel to chance to meet the real Lee.

A lovely sweet story that gives us more of the Coleman family.

Advanced Readers Copy Courtesy of Author, Vivian Arend...:)

I love the Six Pack Ranch boys and even though Lee Coleman is the youngest of the lot, let me tell you ladies he is still mighty impressive!!!!

This sweet, hot and sexy little novella is all about Lee and Rachel. They have both been in previous books, and in those books Lee lusted after the slightly older Rachel but unfortunately for Lee she was married to a total douchebag who liked to cheat on her.

Finally Rachel is free of her cheating scum ex and who better to help her get over things that sexy young Lee Coleman.

When Rachel and Lee get stuck in a snowstorm in a little cabin for a few days its finally game on for these two and they sure do ignite the pages of your kindle....

I really enjoyed this read from start to end, just like I have all the previous books in this series, and even though there is a almost 10 year age gap between Lee and Rachel they still are one of the hottest couples yet....

Cant wait for the next book as it looks like its gonna be Travis turn to find HEA.....and there is nothing more fun than when a ladies man finally meets the one.....:)

Thanks again to the fabulously talented author for the opportunity to read and review this book....

** Rocky Retreat will be available as part of the Cowboys Last All Night anthology, available now. The anthology will be on sale for \$0.99 until February 15th. Then, on February 17th, Rocky Retreat will be releasing as a solo book. **

I'm always up for a May/December romance story and Vivian Arend gives us a treat with Rocky Retreat. While Lee Coleman may be the baby of the Moonshine Clan he's always had a good head on his shoulders and has acted older than his 24 years. Crushed after Rachel Malone refused to date him because of their age difference and devastated when she married someone else quickly he can't believe his luck when he finds the newly divorced woman holed up in a cabin during a snowstorm. A raging storm, simmering seduction, and a man determined to get the woman he wants in his life Rocky Retreat will warm you up on even the coldest winter night.

There's always been something about Lee I admired and I think it's partly due to the fact that even though he's young he is responsible and takes life seriously. That's not to say he hasn't had his fun but once he makes up his mind about something or someone he goes full speed ahead to make it happen. He had no choice but to sit back and watch Rachel be wooed and marry a man who was in his opinion was not good enough for her and when he caught him out cheating he did what he felt he needed to for retribution for Rachel. Now with an opportunity to spend quality time with her, he's made up his mind to do it right and proves he may be young but he knows exactly how to treat the woman he's falling in love with.

I liked these two together and while I understand Rachel's hang ups about their age difference and it is a pretty decent one at 9 years, it was so obvious that it didn't matter to Lee. I personally would have liked to see them discuss this more especially after their night out at Trader's where Rachel felt somewhat out of sorts but Lee took it all in stride. I loved that his family didn't make an issue of their age difference though and most were blatantly honest about Lee knowing his mind and being stubborn when his mind is made up. Their snowbound time was entertaining and it was implied they had plenty of time to talk and share about their lives but again I would have loved to have been privy to some of those conversations. What I loved most that when push came to shove and Rachel was freaking out it was the Lee who remained calm and with a cool head to smooth it all out.

I never tire of reading about the Coleman Clan so it was fun to see several of them throughout the book and I especially loved seeing a little more of Trevor, Lee's older brother and can't wait to see how hard he falls given some of his more interesting observations in this book.

Sexy yet heart warming Rocky Retreat is another fine addition to Vivian Arend's Rocky Mountain House/Coleman Family/Six Pack Ranch series.

Ruth says

If you wait...

The story of Lee and Rachel was yet another adventure into the lives and loves of the Coleman claim in Rocky Mountain House. Very enjoyable.

Onto the next one - I'm addicted!

Tameka says

Rachel belongs with Lee but after what her husband did to her she doesn't believe that she can ever trust a man in that way.

However, nature has its own way of making things right and balancing things out; in addition to helpful family members.

SandyL says

Lee Coleman has been interested in Rachel Malone for a long time, but Rachel felt their age difference was too great. After her whirlwind romance and marriage ends as fast as it began, Rachel takes some time away in a small hunting cabin in a remote area. When a storm comes in, Lee finds his way to the cabin and the two are stranded for several days. And Lee takes the opportunity to convince Rachel there's more to love than their ages. I'm not usually a fan of the older woman/younger man trope, but this one worked for me. I really liked Lee and he was much more mature than his 24 years. This was a fun, short and very sexy story and with each one I love the Coleman's even more!

Kelly says

Things I enjoy in books: Two people with loads of sexual tension being snowed in and forced to share body heat. Seriously, that's one of those THINGS that makes me pick up a book practically sight unseen. I just... love it.

AND THIS BOOK HAD THAT.

swoons all over the place

Okay, okay. Besides the AWESOME snowed in scenario, Lee and Rachel have some smokin' chemistry. Leery of the age difference between them, Rachel had blown him off in the past and made the colossal mistake of marrying another man. The mistake wasn't in marrying another, mind you (although Lee might argue that point), but in getting caught up in the whirlwind romance and missing the signs the now-ex was a cheater. Poor girl.

Okay, fine. The other mistake was in letting the age difference between her and Lee come between them in the first place. To be fair, Lee is an older soul than his physical age would indicate. He knows what he wants and he goes for it. And when what he wants goes for someone else, he steps aside and nurses his hurt in private. *sniffle*

Then the stars align and that SNOWED IN thing happens and all is right in the world again.

I'm loving these Coleman's. They're strong, the women they fall for are strong, and they're willing to fight for the things that matter to them. *slow thumbs up*

Danica says

There is something about Lee I really like and it was great to hear his story.

Kahea says

*** I generously received an ARC from the author in exchange for an honest review. ***

What a sweet, sexy, fun quick read.

Rachel is trying to come to terms with her ex cheating on her and move on with her life. Heading to a cabin far from prying eyes, as well as out of cell tower range, to start the process, she soon finds herself stuck in the middle of a snowstorm and with the last person she needs as her cabinmate. Lee has felt a pull towards Rachel from the first time he laid eyes on her and knows that much of her resistance to going out with him is due to the difference in their ages, but know that he has her to himself, he's determined to show her that age is only a number and that he is the man for her. What I enjoyed about Lee and Rachel's story was how Lee subtly bullied his way into Rachel's heart. The little things he did to show her he was truly into her were sweet and well thought out. Rachel proved herself to be a strong woman and what I appreciated about her is that while she did have concerns over the age difference between her and Lee, as well as working to get past her hurt over her ex, she didn't allow it to keep her from pursuing a relationship with Lee, or sabotaging it. There were some very sexy moments and I loved Lee's quick and considerate thinking in the barn . And while there are a few things that were left unresolved for me, I found the ending perfect for them. Also, catching up with a few of the members of the Coleman clan is always fun, though Jesse is well, being Jesse grrr, but Trevor...all I can say is that I can't wait for his story.
