## From Reader Review Ms. Marvel (2014-2015) #10 for online ebook

### Zoe says

i don't take comic-reading seriously most of the time but dude, it's just too real.  
if you ignore the fact that it's a bird that says some of it, the dialogs are so relevant to pretty much everything  
thats going on in the world

---

### Fátima López Sevilla says

Kamala faces the stereotypes about her generation and shows that today young ones aren't all passive brats  
hooked to their devices.  
Some want to fight the dark future ahead.  
But which way is the good way to change the world?

---

### Alice says

WAAA  
This kind of felt like a filler because it barely transitioned forward form the last comic and leaves the reader  
right before the greater action takes place.  
I loved Kamala's motivational speech but I hated the inventor's attack on Lockjaw so we're at a mootpoint for  
this one.

---

### Sheryl says

"A hero is just somebody who tries to do the right thing even when it's hard. There are more of us than you  
think.

Okay, this issue was awesome. Action packed, thought provoking, pulls at the heartstrings and just ahhhhh!  
Love it!

### Sara (A Gingerly Review) says

Why yes, I am almost done with this series

---

### Nadia says

"A hero is just somebody who tries to do the right thing even when it's hard."

"This is not saving the world. This is admitting the world is over. This is saying our generation will never

matter. We have to matter. If we don't, there's no future worth saving."

---

### **Brent says**

This character continues to show winning resolve, in a tone and style different from other comics, suitable for readers of all ages.

Though this issue is Part Three of a Four-Part story, I think anyone who loves good storytelling can enjoy this fine comicbook.

Highly recommended.

### **Anie says**

Kamala Khan continues to be near and dear to my heart. There is a beautiful earnestness and sincerity to her that I freaking *adore*, for much the same reasons that I love Steve Rogers in the MCU.

This issues continues the great fight against the Inventor, and has Kamala being quite the inspirational leader -- it's good to see, and makes me look forward to the resolution of this fight.

---

### **Samah Rifla says**

This issue is so important. teenagers who had been told they are useless and making the world worse because they are "ruining the economy" when we all know who made the economy shittier is a bad thing, and it took an evil "Tomas Edison" clone to turn this into something "heroic"

This is so different. the vilian wouldn't have succeeded if he didn't find a ripe enviroment. The elders made all possible.

---

### **T. Brady says**

the movie is better

---

### **Kristin says**

Added to the list of reasons why I stan for Kamala Khan is howing she was able to undo intense brainwashing after like two minutes of talking to them. Also if Lockjaw is hurt we should riot.

---

### **Paola (ElvenBookworm) says**

It took me a while to get to this issue, but I'm so glad I finally picked it up! This issue touched upon more serious topics, such as where the younger generation fits into the world, what their purpose is, and what the future holds for them both politically and socially. I loved it! There is such a sincerity and humbleness to Kamala in the way that she handles obstacles that is honestly so heartwarming and inspiring to me. She genuinely just wants to help people and help them see their full potential, which is very refreshing. Super stoked to see where this next issue takes her!

---

### **Allen says**

This one gets a little economical, a little, political, and a lot environmental. Generation Why? is the question asked of the upcoming generation of teenagers, who are described in the book as worthless and hopeless. Kamala becomes their representative.

---

### **Tasha says**

Now it's getting political and in a fun way. I'm rooting for Lockjaw!

---

### **Amber says**

A great issue that brings up some real world issues regarding the planet, politics and the differences between the younger and older generations and how teenagers are viewed by some today in a very powerful and hard hitting manner. Kamala is turning into a good superhero and a strong voice of reason for others as well.

Once again she comes face to face with the Inventor and his (more or less) brainwashed subjects but this time he is more prepared and also takes Lockjaw captive as part of his scheme.

Kamala follows the trail but soon finds a bigger problem than she first expected leaving the issue at a cliffhanger.
