Deadlocked Lisa Emme

When life gives you brownies, make coffee.

Angharad ‘Harry’ Russo has had a busy week. She’s fended off a swarm of pixies, battled blood-thirsty redcaps and put an end to a maniacal Fae prince hell-bent on eradicating the entire werewolf population. She’s also decided to open a coffee shop. Is it too much to ask for things to settle down so her life can go back to normal?

Apparently it is. As if being metaphysically bound to Cian Nash, the most aggravating yet desirable man she’s ever met, isn’t enough, Harry’s just found out that the Magister, the scariest, most powerful vampire around, is her father. Talk about your daddy issues!

Harry just wants to concentrate on getting the coffee shop open, but between the freaky ghosts that keep haunting her and rogue vampires terrorizing the city, it looks like normal is a thing of the past.

This is a stand-alone adventure with no cliffhanger. It is intended for a mature audience.

I gave this book three stars for the following reasons:

1. The sexy stuff is delicious and Nash is hot.
2. We got some new characters that are helping to build Harry's world.
3. Did I mention the hot sex?

Aside from this stuff, this book was the weakest of all the ones I have read so far. The story was lacklustre and Harry's OVER THE TOP power level was way out of the blue and didn't fit what we knew about her. I was bored for most of the book and skipped a few pages.

I loved the way her mom was a totally bitch xD

Mnms says

It has too much soap-opera and the heroine is too powerful, but the rest is good.

I have enjoyed this series so much that I pretty much listened to them back to back. Now I must wait for the next one! Sighs.

So Harry has a lot going on as she has found out who her father is, and is still dealing with all her new powers. She is still trying to get used to Nash being around all the time.

She just wants to open her new coffee shop, but of course, things can never be all nice and calm when your a powerful necromancer and people want your powers. Then you find out your mother is alive and she is not a nice person. Just a typical day for Harry Russo.

Harry keeps seeing a ghost wolf and a rogue vampire is on the loose and then Nash's sister goes missing. And all hell is about to break loose. I will leave at that because I don't want to give anything away.

Harry is pretty awesome and I really like her, she is spunky and sassy. She is trying to get use to being mated to Nash, since they really hadn't even went out an actual date. Then when they do attempt one they find a dead body...lol. Nash is a sexy alpha werewolf who is also a detective and has his hands full trying to keep Harry from getting into trouble.

The secondary characters are pretty cool as well. Her best friend, her newly acquired vampire servant who is a great cook, and all of Nash's family.

Not sure how all UF genres go but I know up until this one it seemed pretty much a UF series but this one seemed a bit more PNR and was steamy at times. Since I like PNR this didn't bother me but not sure if it's a true UF genre book. I don't read enough to really know. :)

I just know I liked it and can't wait to get the next one!

This book picked up almost exactly where the last book left off. Harry is still on the hook for dinners with the Magistrate, the head vampire guy, and has some interesting personal issues to resolve. Sadly, I can't say what they are without giving spoilers and this book is too fun to not read.

Harry has a few surprising revelations tossed at her that make me hope for another book in the works. Or perhaps one with her friend Tess. ;)

Cian Nash, the werewolf who can't keep his hands off Harry. He's just a tad swoon-worthy ;) and I'd love to see more of him.

Overall, I enjoyed this book and I can't wait to see what else Lisa Emme comes up with.

I've become hooked on this series. While the writing is a bit simplistic, the characters are engaging and the story flows well. I really like Harry, she's more down to earth than most heroines you find in UF. Nash is the typical, growly alpha male but that's how I like em. I can't wait for the author to write more about Harry and her misadventures.

Fun, quick read

This book is a pretty good evening reader. It was easy to read, entertaining, there was drama, love, romance and action. The book is in the perspective of the heroine Harry who is a last of her kind necromancer/ telekinetic/ hedge witch/ vampire/ werewolf mate. She is loved by all who meet her, except Tomas- I hope that gets explained soon, and the antagonists, the Mariposa and her evil, world dominating and mistreating crew. Harry is a natural shot with a gun, can throw knives, is killer with a katana, and she's trained in hand to hand. Harry also owns a florist business and is opening a coffee shop to encourage her sworn vampire bodyguards to pursue their dreams. Do I need to go on? I'm sure in the next book Harry will figure out how to stop world hunger while killing all the demons in hell with another new power she magically has mastered while painting teacups with ancient Egyptian poetry, for charity of course.

exasperated sigh

Harry is too much, she just loves everyone to pieces and for good reason since everyone in the book would

take a bullet so that her coffee didn't get cold before she drank it. The whole thing is over the top. Furthermore, there are so many lovable characters being thrown in with no purpose.. I really think that there are scenes in the book for the sole purpose of reminding people that these characters still exist... Finally, this book is about as deep as a snowflake. The thought processes mainly involve 1. Lust 2. Anger at being inconvenienced 3. Isaac and Hilde's food. However, despite the issues above, the book was entertaining... I did enjoy her romance with her mate, enjoyed their banter and loads of sexual tension. I enjoyed the twists with her parentage, the love of coffee, and her kicking butt. Would I recommend it to read? Yes, it was a feel good book, perfect to read with a good cup of coffee after a long day.

Loved it! Reading this series is like catching up with good friends. I laugh, have a great time and I'm sad when its finished and I have to wait for the next book to catch up with them again. I just adore Harry and her friends. And Cian is so sweet, charming and sexy when he woos Harry. I can see why she finds him hard to resist! This great series is on my auto-buy list.

L.E. Doggett says

Can't decide if I should make this a full four or a three and three fourths. Officially its four of course. so that would only matter to those who read my reviews.

Good writing: descriptions and action scenes both well done, the plot went along as it should, the characters stayed in character. It is part together well. I was a little surprise by how it ended but that is good. Don't want it to be predicable. That knife was a "oh yeah of course" moment. A good one.

One item that could be a defect in Lisa's writing. In the last action scene her dad didn't seem to do much at a certain point. I won't say more so it won't be a spoiler. I can see that he couldn't do more but he should have tried hard. And I wasn't completely convinced she would get so drunk at one point even with that News. Again I won't say more but you may get it when you read that far.

But even with that I liked it and recommend it fully for those who like Paranormal-urban fantasy Romance. I don't usually choose that genre but this series is worth reading. I will get the next one. But remember you

should start at the first book to get the whole story even though you probably would be able to read just this one and understand enough of what has been happening.

Victoria says

Like it overall but the overuse of the word "minx" by Cian, regarding Harry, irritates me. It got stale quickly in my opinion.

But I like a woman that can take care of herself and do not need to be rescued.

Leigh says

It's was a pretty good book. Not as good as the first two. The biggest problem is Nash calls Harry "little minx" constantly. Little pet names are fine once in a while, but this was to the extreme, and annoying.

David Bibby says

I received a copy of this book in exchange for an honest review.

This is the third novel in the Harry Russo Diaries series. Lisa Emme brings us back to a world filled with werewolves, witches, vampires, and more. I was extremely interested to find out what happens in this installment after learning that her father is none other than most powerful vampire in town. Lisa did not disappoint in bringing the suspense and action found in the last two novels.

Angharad "Harry" Russo just wants to live a normal life and open up a coffee shop next to the little flower store she owns. The problem is, she's the most sought after individual in all of the city. Being a witch, a half vampire, and a necromancer, everyone wants a piece of her, whether it be ghosts who her to find their dead bodies, or vampires from another clan that would like to see her dead. Fortunately she has a lot of friends to protect her from danger.

Now that she knows who her father is, she has to follow customs and traditions she's never heard of before. When an extremely old vampire known as the Mariposa visits the city as a guest, her brood doesn't exactly follow the rules. Now Harry, her father, and the werewolves need to find a solution to this problem. Unfortunately, people are showing up dead all over, so time is of the essence. So much for starting a business!

Lisa Emme brings another exciting adventure with more twists and turns. Deadlocked was thrilling and suspenseful, and I can't wait to find out what happens in the next installment, "Hell to Pay".

Perfection

I love this book and the entire series. Nash and Harry are perfect together and I love all the other characters as well. I will be voraciously reading anything this author puts out, as she paints a fantastic picture with all the good elements of passion, intrigue, and lots of humor!
