Masters and Mercenaries Bundle

Lexi Blake

Masters and Mercenaries Bundle Lexi Blake

Welcome to the world of McKay-Taggart Security Services, where spies hide in shadows, danger lurks around every corner, and heroes come with the naughtiest of secrets...

The Dom Who Loved Me

Sean Taggart is hunting a deadly terrorist and his only lead is the lovely Grace Hawthorne. To get to the truth, he is going to have to get very close to Grace, a task he's all too eager to undertake once he gets a look at her.

The Men with the Golden Cuffs

Adam Miles and Jacob Dean are halves of a whole. They've spent their entire adult lives searching for the one woman who can handle them both. When Serena Brooks comes into their lives, they're certain she's the one. But when a stalker strikes, will they lose her forever?

A Dom is Forever

The hunt for an international arms dealer leads Liam O'Donnell to London and into the world of Avery Charles. Avery's never met a man like Liam and quickly falls under his spell. But when Avery's boss leads the McKay-Taggart team to the traitorous Mr. Black, Liam must put together the pieces of the puzzle of his past or Avery might not have a future...

Tonya Thomas says

Oh my Nastiness...

Oh dear Lexi, where do I begin, this was phenomenal! Absolutely love how you delve into each team members story and let them find the love and stability that they so clearly need with plenty of adventure and release in between. All the ladies in the stories have gotten themselves into some sticky situations and find it so hard to love, but they finally do and it's perfect!

Debra Johnson says

Masters and Mercenaries Bundle by Lexi Blake

Genres; Adult, Contemporary, Crime, Erotica, Romance, Suspense.

4.5 stars

The Dom Who Loved Me 5 Stars

It is very cloak-and-dagger with a lot of clandestine characters. A great suspense you can really sink your teeth in.

Sean and Grace, the main characters are well defined and easy to visualize. The other characters stand out too. You can feel the different connections with all the other players in this story. They are well defined by their actions and a few well placed and important words. Never overdone and never taking away from the real story, but giving the story more dimension and depth.

It is a very steamy adult romance. A thoroughly enjoyable read on all levels!

The Men with the Golden Cuffs 3.5 Stars

The story tended to drag a bit. There wasn't as much action nor suspense. It wasn't bad. It just didn't move. I didn't feel much of a connection with the main characters and the supporting characters weren't involved much either. It seemed to be mostly conversations about things but no one really doing anything or going anywhere. I liked what the story line was about. There were some really interesting parts. The 'Adult' romance was there and it was good. I need more than just hot romance to keep me invested in a story. It just never seemed to grab me.

A Dom is Forever 5 Stars

The titles for these books don't do them justice. Filled with mystery, suspense and tons of action. It is a well written Adult Romance. But it is so much more than that. It's a great 'Cloak and Dagger'.

This one takes place in London, England. The McKay-Taggart agency, the CIA and MI6 are all involved.

The bad guys are involved in arms trafficking. They are mean and dirty.

Liam and Avery, the lead H/H in this story, are fantastic to read about. Their chemistry and interactions are spot on! All the supporting characters are also well written. The interactions all through the story keeps you on your toes.

Maria says

Hot alpha males---got them
Females waiting for the right men---in there too
BDSM and all the trappings that go with the lifestyle---oh we got plenty of that
A plot that involves intrigue, spies and lies---surprisingly....it's in there!

I admit that I hadn't read anything by Ms. Blake before I got this bundle of books. I was curious as the blurbs promised me stories of intrigue and dirty things no one likes to admit reading about. What I found was three very compelling love stories surrounding a group of men who didn't always live the straight and narrow. Who had sometimes worked undercover ops for the government. Scarred and able to only let go in the club where they were the Masters.

First story involved Sean and Grace. Let me say right off the bat, I loved the fact that Grace is a 40 yr old widow with two grown sons trying to find her way back to living. She's insecure about being old and soft (it happens to us women of a certain age and glad to see someone is writing for us and not just the 20-30 somethings out there), doesn't acknowledge her self-worth, and wonders if there is more to life than work, eat, sleep. Sure she knows she's good at her job but is that all there is to her. Enter Sean, a younger man who immediately gets her to light up. Of course the old, why would someone young and gorgeous want with an old overweight woman like me. He's out of my league. Love, love, love the fact that at first Sean looked past the outside and wanted to know what made Grace tick. Once he saw her heart, courage, and strength that's when he realized how beautiful she is. Not to say their road to HEA wasn't a rocky one but they managed to find it. And give us piece #1 to a rouge CIA agent who has a lot of explaining to do....and just why is he out after Ian Taggart --Sean's older brother?

Second story was a bit of a surprise. We met Adam and Jacob in the first story. Partners who bonded during basic training, shared the same sexual appetites that usually lead them to sharing women, and when they got kicked out of the military for sharing the "wrong woman", they went to work for Ian and his "security" firm. Serena is an erotic romance writer who is being stalked. Ian takes her on as a client as a favor for a friend. Things don't add up from the get go. Police think Serena is trying to pull something for free publicity. The ex-husband thinks she's doing this to set him up so he can't get more money out of her. Adam and Jacob think they have found the one to settle down with and start the family that both of them long for since losing theirs to shame, scandal, and death. We know Serena writes about being involved with two men but does she really mean it, can she handle two Masters, will her doubts get in her way or will evidence show that she's been playing them for fools? (We get away from the spy plot in this story but it's in the underlying plot. We get hints that Nelson, the rogue CIA agent, is still around. We know Sean and Ian are fighting because of Nelson and actions taken.) This could easily have turned into nothing more than a menage story with lots of sex and no substance...it wasn't. There's a love story here with all the trimmings. The finding of love, the nurturing of that love, the hit it takes when doubts and suspicions hit, the fighting for what is real and means the world to them.

Ah, then comes the third story....Liam and Avery. Liam, Liam, Liam...our Irish Master who knows how to kill and fuck. That's it. He's got a nightmare he's trying to remember or outrun depending on the day. Regrets, oh our fallen angel has them in spades. In comes Avery, she's the "mark" on this op. The way in to find out just who at the charity is an arms dealer and what connection do they have to Nelson. In the beginning Liam thinks...oh well, she's a semi-good looking woman I can do her, no biggie. What he gets is smacked with a 2 x 4 right between the eyes. Like Grace our Avery is flawed. She survived a car accident that killed her husband and infant daughter. She's learned how to walk again. (She still suffers from weakness on one side that causes her to fall from time to time) She's lost everything and everyone yet she's managed to try and get a life for herself. Yup...one look at the inner strength and beauty and Liam is a goner! What they will face and discover will rock their worlds in ways they couldn't have imagined. Love

will be tested and the bonds of friendship will be stretched thin as secrets from the past rear their ugly heads. We get closer to our target....capturing Nelson and shutting down the arms dealer.

We get hints into who the next book will be about...Alex and Eve. I really really want to read their story. They are divorced over a choice he made that put her in danger and scarred her in a very bad way. That's all we know, for now. I've seen that there are plenty of books in the series and right now I am interested in the net two....Alex & Eve and Ian...and his supposed to be dead wife. Who knew? Will I continue the series after that, not sure but so far I am enjoying these characters. The plot is quick, humor is sarcastic, the sex...well it's off the charts in the kink factor but it's loving at the same time. Know that might not make sense to some but it works.

Yes, definitely surprised at how well I enjoyed getting to know these characters and how I am looking forward to reading about the next couple...and damn, will we ever capture Nelson or is he going to be like the Terminator....never ending mayhem?

Sandy Frediani says

I enjoyed these a lot. Sizzling hot with a humdinger of a story (or would that be stories?) to go along. Writing and plot were very good. Characters were well developed. I had Thomas Molina figured out fairly early, although there weren't many clues and they were subtle.

Christina Reed says

I was lucky enough to be gifted the Masters and Mercenaries Bundle by Lexi Blake. It has the first three books in this series in it and I have to say that I love these books. The first book, *The Dom Who Loved Me*, follows Grace Hawthorn and Sean Taggart aka Little Tag. Their story was an emotional roller coaster from beginning to end. Sean knew he wanted Grace from the moment he saw her photo, but Grace was hesitant to give into Sean's advances because she thought he was just a flirt. As someone who was forty with two grown sons she didn't see any reason why a handsome thirty something year old man would be interested in her. Well, Grace definitely was proved wrong once Sean got her into bed. Her insecurities came out a couple of times in this book and I could relate to her completely, especially when she found out that everything started as an assignment to Sean and she didn't even know his real last name. This book (and entire series) has strong BDSM elements when it comes to sex, and everything is done with such love and care. I found myself falling for Sean and rooting for him and Grace to be together. In *The Men with the Golden Cuffs* Jake Dean and Adam Miles are two men who enjoy sharing women, but they're ready to find their permanent third. Serena Brooks came into their agency looking for a bodyguard because of a stalker. Well, to say things started off rocky between the three was an understatement. The story has lots of mistrust and rocky times between the beginning and their HEA. No one is sure if Serena is really in danger or if she is doing these things to herself as a publicity stunt. Throw in a past lover that betrayed Adam and Jake, and you get a drama that will keep you on the edge of your seat. The sex in this book was hot and a little less centered on complete BDSM. Only Jake completed his Dom course. Adam still has a dominant personality, but he doesn't need the BDSM in the way that Jake does. There was a lot of jealousy between the two and fear that Serena only ones one at the beginning, but as someone who publishes books about true menages, she wants them both. Serena was the perfect person to be with Adam and Jake and I'm really glad they all got their happy ending. *A Dom is Forever* is the third book in this bundle, but far from the last book in this incredible series. Liam was a bit darker personality wise from all of the previous men, but when he fell for Avery, he completely changed into a better person. Liam was a very isolated and dark person and Avery was his polar

opposite. She was optimistic and despite the really crappy things life had thrown at her, she always fought through. I loved how sassy she was with Liam during sex and despite her body image issues, she really let loose and reached subspace. I really enjoyed reading Liam and Avery's story, especially since there were a couple of large reveals in there. I'm afraid of spoiling them which is why I'm going to keep things about this story short. There was a larger story going on with each of the individual books and it wasn't wrapped up in the first three books, despite each couple getting their HEA. This makes me want to continue to read this series and find out how it all ends. I give this bundle a strong 5 stars and will definitely be reading more from both Lexi Blake and the Masters and Mercenaries series.

Joy Clyburn says

This is my first experience reading books from this genre and I was absolutely riveted from start to finish.

Teresa says

This is a really great set for a great price.. A bunch of alpha guys who don't know what hits them when the lady of their lives arrives. Each guy, not all at once. ;) Good characters, fleshed out story lines, and romance.

Great storyline!

Just wish I had the rest of the series already! Will be ordering rest today! Happy reading to all of you!

Jackie says

Hot hot hot

Lexi Blake does it again and delivers an amazing story with real hot sex scenes. She makes the characters come to life in a unique way.

Toni says

What's not to love? Angst, hot doms and women who know what they want.

Sally says

This was a free set on Kindle so I picked it up and gave it a try.

The three books in this set would be considered mild BDSM. Nothing too hardcore or shocking.

The characters in all three books were good and I wasn't overly annoyed by any of them. None of the characters or stories particularly stood out though.

Book one: "The Dom Who Loved Me" is a love at first sight storyline. A woman wanting to submit.

Book two: "The Men With The Golden Cuffs" is a menage storyline. Very tame though.

Book three: " A Dom Is Forever" is about a man who doesn't believe he can find love and the woman who proves him wrong.

These books are a nice and quick read when you want something with a HEA/HFN and no cliffhangers after each book but want to continue with this genre. Just be aware that this is a very long series. I think it's now up to about 15 books if you choose to continue.

Tasha says

I read the 3 in one series instead of one book at a time. So glad I did because the scenes kept together basically. This isn't your typical book when you see the title. These woman are all in some type of trouble and need the assistance of the men in order to survive. Or is accused is under investigation like in book 2 and book 3. The men all work for Ian Taggart at his security company. Security is just one of their specialties Dom is their other. This book gets pretty intense in the sex scenes (so if anal sex isn't your thing) then you may want to skip some chapters. LOL Good book though.
