Finders/Keepers Sam Sisavath

IF SHE'S LOOKING FOR YOU, YOU'RE ALREADY IN TROUBLE.

Every year, tens of thousands of young girls go missing around the world. Some go voluntarily, but others are taken against their will and forced into a life worse than death.

When a teenager vanishes and the authorities have given up, her mother asks Allie Krycek for help. For Allie, it's not just another bad guy to take down. This one hits too close to home. Maybe a little too close.

Years ago, Allie's own little sister vanished, and she couldn't do anything to stop it. This time, things are different. This time, things will be different.

The only things stopping Allie are two seasoned professionals, a hidden criminal organization, and a whole lot of empty miles, with danger around every turn. All she has to do is get to the end of the line...alive.

GOOD, GOOD BOOK!

The book I read before this left me dissatisfied and feeling like I'd never find a good book. I liked the name and the reviews so I gave this book a chance and I'm beyond thrilled. There was excitement and thrills while I rooted for the good guys and hoped the star was going to be ok. Yes, I got very involved with the characters and the story. I'm definitely going to read more of this series and this wonderful authors books. Take my advice and do the same. Great chance to "get away. HIGHLY RECOMMEND! :)

HIGHLY RECOMMEND! :)

Ruth McCoy says

Great book

This was the first time I read from this author and I was pleasantly surprised. It didn't take long to fall in love with Allie! I am definitely going to read the rest of the series. If you're looking for a good book this one will not disappoint!

Cecilia says

This is the 3rd in a series and as usual, I read it first. Good story, lots of action and the plot is well developed.

Tina says

Great read

It kept my interest thru the whole book, there was a mysterious air around Allie and Lucy. That made you want to know more about them.

Robyn says

So good!

Nothing better than a tough girl rescuing the helpless. This book is a super fast read but gets it done. But leaves room for more!

Becky says

Darn, have to know what happens next!

I am totally hooked on Allie K! I can't wait to find out what her next adventure is and whether she finds 'them'!

Cynthia says

I hope there will be more!

Allie is tough and resilient. She set out to rescue one girl and did even more. Human trafficking was the core of this story.

Pamela says

Absolutely amazing! Allie Krycek kicks ass once again. I love this series. Read this in one sitting. Sam Sisavath is one amazing story-teller. Come on book 4.

Everything I wrote in my reviews for books 1 and 2 applies to this one.

Finders / Keepers

This is my first Allie Krycek book and I plan to hunt down the first two. Allie is a strong bad-ass woman but she's very likeable. This is a believable story of Human trafficking. The story is told, thankfully, without a bunch of horrible sex and suffering. There were a few moments where I got a little lost... it seemed that the story skipped and suddenly we were somewhere else but I think it was fairly well-written and concise.

Good

Enjoyed the tale. Hard not to root for Allie. The plot was generic at best but still interesting enough i couldn't put it read it all the way through. Looking to see if the next book is comparable.

Lori Bindner says

Suspense and danger!

I enjoyed the pace of this book until the last 1/4 after Allie got hit by the car. Then the healing took place faster than reality.

Great story, good tempo, good character development.

I look forward to more of Allie's adventures.

Denise says

'Finders/Keepers' is a great addition to a kick-ass series. Fast paced, full of action and non-stop thrills. The storyline was well written and it played out superbly. This book in 'An Allie Krycek Thriller Series' was just as good, if not better, than the first two oops. Allie got her butt handed to her in this one. Yet she still pulled through, despite her own physical pain, and kept kicking butt. Lucy is a great girl. She had been through a lot, yet she knows she can trust Allie and do what's right. Dwight and Reese were quite the duo. Even for bad guys, I kinda rooted for them. I can't wait to read more. A great add to your tbr list. Recommended read.

SHANNON M. SEE says

Loved all three books in this series

Loved all three books in this series! keep them committed and I'll keep reading!

Looking forward to the next book!

Gina says

I've read all 3.

Outstanding! Anxiously awaiting the next. Sorta of a female Jack Preacher. I promised myself, no more serial books. Am hooked, but bring it on!

Cyndi says

Great book yet again. My only disappointment was that I felt like it took so long for something to happen. Very unlike the other books. Even so, great story, great author. I look forward to the next one.
