Beautiful Savage Victoria Ashley

JAXON KADE

I can't breathe... I don't want to. With every breath that fills my lungs, I feel the pain she's been fighting and it's killing me slowly, reminding me of the day she got ripped away.

I've gone thirteen years without her, and as if she was never gone, she walks back into my life, feisty as hell and set on running from me.

I refuse to let that happen.

She's my Lex. It doesn't matter if I have to destroy everything in my path that leads to her—I will.

I've been in love with her since the age of nine. I lost her once, and you better damn well believe that I will walk through the fires of Hell before losing her again.

She's broken...

Ripped apart by the fucking world. I'm making it my mission to piece her back together again and claim her as mine.

Every part of her sexy body has been possessed by me.

I know she sees she's not the only one who has changed with time. I'm rough, demanding, and just as damaged as she is.

But there's one thing I'm capable of—always have been—and that is loving her.

I promise to do everything in my power to show her, no matter what it takes or how much it hurts.

ALEXANDRA ADAMS

I never thought I'd lay eyes on Jax Kade again, and the moment I realized the rough, edgy man I allowed to take me home and rough-fuck me was him... my world came crashing down around me.

I'm no good for him.

Not for the sweet, protective Jax that took care of me back when no one else would.

I'm damaged, unrepairable...

I need medicine to escape this reality—the pills, cocaine, and liquor aren't even enough to numb the pain of my past.

Years without Jax destroyed me—ruined me forever—and being back in his life will only ruin him the same.

I could never do that to my beautiful Jax. I never meant to find him, and I sure as hell never meant to want him again as much as I did before we were ripped apart.

It doesn't matter that I need to stay away from him. It doesn't matter that I fight to keep my distance. Jax refuses to let me go.

He doesn't care how fucked up I am. My biggest fear is destroying the only person I've ever been capable of loving, but he's not giving me any other choice...

Wow, when Victoria Ashley writes a book she puts everything into it. I'm talking total package of love, hate, and angst. I think this book will be one of her best. Jaxon is a gritty and emotional character. He's loves and protects those he calls family. He will fight for them, kill for the them, and even die for them.

Alexandera was one of those he protected, the one he fought for, who was ripped from him and he's never forgotten her. She's never forgotten Jax but she's fallen into a dark world and can't escape, until one night she sees a guy who makes her feel alive again. They are a combustible couple and when she finds out just who he is she's not sure if she wants to drag Jax down into the dark with her.

If you love a total Alpha and a slightly broken female lead then Lex and Jaxon are going to be your new favorite couple!

I received a copy of this book from the publisher/author to review for Stephanie's Book Reports.

Beautiful Savage is the second book in Victoria Ashley's Savage and Ink Series. You do not have to have read Royal Savage to read this book but you don't want to miss that book either. Its simply amazing and hello you will love Royal...or at least I do.

Beautiful Savage is the story of Jax and Lex. They were best friends when they were little after he discovered her crying beside her garage one night. Jax was her comfort when things were bad at home and he would do anything to protect her. One fateful night however Lex just disappears and Jax has not a clue where to find her or where her dad has taken her too. It has been thirteen years since he has seen her and he misses her a little more everyday and thinks about her constantly. It's part of the reason why he is the way he is. Kind of closed off and tough as nails. However there is a new girl in town that is now catching his attention and he hers. Lex hasn't felt a thing for anyone since she was ripped away from Jax by her no good father all those years ago. But suddenly the hot bartender at Savage and Ink is catching her attention. For the first time in all those years she is feeling something and not just numbing herself enough to function everyday. When they both discover that they are each catching feeling for each other and didn't realize who the other was this book explodes and you better hold on because it is not a pretty or non bumpy ride at all. Lex after all doesn't want Jax to know that she is just like his mom that he fought his entire life to save. She is a addict. The one thing that Jax would never want her to be. This story tore my heart out multiple times. Lex has not had an easy life. Her father is absolutely horrible and should have been in jail for the things he did to and let happen to Lex. Oh how I hate that man with a passion. There is a lot that these characters go through and it will have you on the edge of your seat and reading like your life depends on it. This book is equal parts beautiful and just heartbreaking. Victoria Ashley has done an amazing job with this story of how imperfect life can be but how in this world there is this one person who is just perfect for you and can change your entire life. That person for Lex is Jax. I swear there is no one in the world who is more perfect for her than the fiercely protective, loves her from way down deep in his soul, Jax. If you only read on book this year, this is the one you want it to be. It's been days since I finished this book and I am still thinking about it every single day. To say these characters stick with you is an understatement. This has to be on of the most beautiful love stories that I have read in a long long time. But don't let that statement fool you into thinking it is a easy one to read. It is not. However it is true to live and one that I loved so much and am sure I will read many times over in the furture.

Beautiful savage is the 2nd book in the Savage and Ink Series

Hot Damn!!!

This book is fantastic! It's Raw, gritty, dark, and full of angst.

I Floved this book!

Boom!! Jaxon and Alexander are explosive these two have a love hate relationship, with undeniable chemistry. They will take you on an emotional rollercoaster that leaves you stunned at time. You will have a few WTF moments

Honestly this amazing book is a must read !!

Theresa says

Jax is a badass sweetie! The Jax from Royal Savage is obviously a small part of the real Jax. And I am in love w/the Savage & Ink men!! If you read Royal Savage (If you haven't, I highly recommend you do), these guys are very rough around the edges. They play hard, their best friends are family, and when Cupid shows up in their bar, they love just as hard, and are the fiercest protectors. Big time swoon factor for me.

The history that Jax and Lex have goes back to when they were kids. They both had family troubles, and dealt with them differently. I felt so protective of them both, and just wanted good things for them. I fell for Jax pretty early in this book, and it just got deeper as the story went on. It wasn't always a pretty tale--some parts were very tough to read--but it was their story, and I absolutely loved it. I cheered, cried, cussed a lot, laughed (mostly at Blaine and Madison), and squirmed (Victoria knows how to write a dirty scene!).

I can't wait for the next book in this series!

KITTY KATS CRAZY ABOUT BOOKS

BEAUTIFUL SAVAGE: is the second book in Victoria Ashley's 'Savage & Ink' series. Spoken in 'Dual Perspectives' Does flit from past and present but the transition is done fluidly and perfect for understanding these two characters backgrounds.

In this we meet our heroine Alexandra Adams and our hero Jaxon Kade, their's is not a pretty story, it's ugly, it's raw, it's heartbreaking, it's dark and gritty but amongst all that is a beautiful second chance friendship, a romance with a slow burn of angst, and all the feels that came at me full speed.

These two were childhood friends, a bumpy friendship, an ugly side of what drugs can do when it's in the clutches of someone so lost, a tight friendship like no other.

Both raised in sad circumstances, he feels a need to protect her from his father and she wishes she could protect him from his drug induced mother.

Until their friendship was ripped away from them, it's been at least thirteen years since they have been apart, but not forgotten, Jax has had a hard time putting the past behind him, that all consuming need he felt for Alexandra is still simmering away in the background, he's not been able to move forward.

She's slipped into a dark orbit, seeking anything that will dull the pain, dull feeling, dull every day life.

Until she meets the eye of a hot guy on a bike that just for a second makes her feel alive.

Jax is finally ready to put the past behind him..

Until a stranger comes to town, she's feisty, sexy, tough, he's inexplicably drawn to her, like a storm brewing he has an over powering urge to protect her just like he did when he was younger and it was Lex he was trying to protect.

Could this be his beautiful damaged Lex? Will he be able to save her all over again?

This book is nothing like what we're used to by this author, she's gone that extra mile and given us a high octane ride of pure angst, grittier and darker, dirtier than ever before, a page turner of epic proportions, I'm bleary eyed and craving my bed because I read this one from start to finish, I couldn't put it down.

Tammi says

I swear this authors stories just get better and better! This one hit on some tough subjects and she nailed them perfectly. Child abuse, drug addiction, depression are not things you normally want in a steamy romance but they enhanced this book. Gave it layers as we watch childhood friends reconnect after years apart and become lovers.

Jax that man! Damn I want to find me a Jax. He protected and loved her more than life itself.

Lex this girl lived a life of HELL! She was tough as nails but so broken. I just wanted to hug her and make everything better.

This is the follow up to Royal Savage which was my favorite but this story may have taken that spot. A fantastic story that I couldn't put down and hated to see end.

Melinda Parker says

Victoria Ashley...you've outdone yourself!

Jax is simply put, a real man, in every sense of the word. From a child caring for his sick mother to a boy thrust into a world where he protects the women and family in his life. His greatest endeavor was in his friend Lex. He loved and protected in some sense from the moment they met. Unfortunately, Lex lived with demons no child or grown woman should endure. Once Jax was ripped from her life, she spiraled out of control. She'd lost her safety net and coped in ways that made her forget...everything. But a chance meeting leads the couple back to each other. Her easy going Jax had become a savage, one she couldn't and wouldn't resist. For Jax, Lex was the one thing he'd go all in for.

Jax won my heart with his protective nature and his willingness to never let Lex go it alone. All in, never backing down. The strength Lex showed in overcoming her demons made for a powerful tribute to survival. Her struggle with her demons was real but she'd found a savior worth fighting for. Redemption was close at hand.

I voluntarily received this ARC. This is an honest, personal Review.

Stephanie Seay says

It's taken me no less than a week and no more than a dozen attempts to write this review, but ONLY because this story is THAT AMAZING and I can't figure out the best way to articulate what/how to say what I feel needs to be said! (Hence the reason, that I am a fabulous reader only, NOT a writer!)

I loved the first book in Savage & Ink series, and was slightly concerned that the next in the series would not compare to the experience that I had with Royal Savage. I should have known that VA would not steer me wrong. The story of Jax and Lex is explosive. It's emotional, it's raw, and it takes you on an angst filled journey that consumes you completely.

Jax and Lex are filled with pain and hurt and running from the past and together they have a backstory that neither of them immediately realize. Jax is a typical Alpha male. He is fierce, protective and possessive. Lex is filled with so much pain, sadness, hopelessness and denial. Together they are heartbreakingly perfect, yet the damage they each have inside is great. You must one click this book today and read Jax – he will take you on an epic adventure!

BookSmacked says

Beautiful Savage is Book 2 in the Savage & Ink series and OH MY WORD !!!!!!!!!!!

Talk about Alpha Hotness, jax is a powerhouse in this book, he's got an Alpha mentality and is commanding, sexy, and possessive he does what he has to to protect what he loves.

Jax and Lex's story is heart breaking, these two ripped apart from one another when they were too young to do anything about it. Years later they find one another again. What I will tell you about their reunion is it's hot as fuck !!! I mean dayummmm I've said it before I will say it again, Victoria writes those steamy reads that will melt your kindle. Hot hot hot and not only that she had me freaking out a bit when they first reunite thinking OMG these two ... when they ... find out (you will know what I mean when you read it)

This was a beautiful yet dark story, their pasts are riddled with pain and heartbreak, their story is full of angst and their passion is so intense that you will need to ensure you are wearing something light i suggest shorts and maybe a tank top cause your gonna burn up.

I need more from this series and these characters in it. I hope Blaine is up next.

ARC received in exchange for an honest review

Whew. Wasn't that a hell of a synopsis. So I guess Ill try and keep this short and sweet.

While this is the second in the Savage & Ink series, it can be read as a standalone.

Don't you just love a cover with a big ol shirtless guy giving you 'come and sex me' eyes? lolololol. But thats good ink tho, so...

My god, Lex was a hot mess. That girl has some raging demons. It's been a while since Ive read something with a girl THAT messed up, but Victoria Ashley gave it to me.

And Jax, oh, hot as sin Jax. *Sigh* So protective, I loved it. He's all 'you honked at this woman on the road, lemme bash your head into your steering wheel.' Like, thanks...

Beautiful Savage was raw, gritty, and sexy. Jaxon was a hell of a alpha protective, not even an asshole, just, an ass to everyone but Lex. Him and Lex were made for eachother and it was obvious.

Ashley set us up for more stories in this series, and here's to hoping that they come sooner than this one did!

MissPetiteBrunette says

Jaxon is the bartender at Savage&Ink bar. He has never forgotten about the little girl he tried to save thirteen years prior but he knows he has to try and move on. Then one day he bumps into a woman with vibrant red hair and a personality to match. He has the urge to protect her as he once did Lex and has no idea why. Could she be the girl from his past? Jax never truly stopped caring about Lex but is she to damaged for them finally be together? Alexandra only had one person to protect her from her abusive childhood but even Jax couldn't save her. When she returns home after thirteen years, things get interesting when she meets the "sexy bartender" as she has named him. He seems so familiar but it can't be who she thinks it is, can he? They don't recognize each other at first but their feelings never diminished. Will Lex's past haunt her from moving on? Can Jax truly protect Lex this time or will he lose her again to her demons? Told in dual POV, This takes place at the same bar from Royal Savage and Royal and the rest of the gang all have cameos! Standalone

"I can't breathe as I stand here looking at her She's so painfully beautiful...I want the rest of the world to know I'll protect her until my last breath..."

Jax is alpha hotness, angry, growly, possessive and I loved every second!! The banter between these two before they even knew who each other was intoxicated me and had me inhaling the pages. It was so hot!! The backstory sucked me in, made me fall right along with them, but not with out like a million obstacles to overcome and kept me glued to the pages!! I thank the Author for providing a copy to review!!

Can we just take a moment to appreciate how fucking well Victoria Ashley writes beautiful, slightly fucked up Alpha males. It needs to be recognised that they are in a league of their own!!

Now it's no secret that the wait for Beautiful Savage (book 2 in the Savage & Ink series) has been a long one. I've been hanging on for this, from the second I finished Royal Savage but let me tell you EVERY SINGLE SECOND OF WAITING WAS WORTH IT!!

The minute I started reading I was dragged back into their world like I'd never left.

I won't go into the plot, I never do. I hate giving anything away. I can tell you though Victoria has blown it out of the water again. Every book she writes knocks me on my ass more than the last and I love it!

Beautiful Savage is gritty and raw. It's the perfect mix of love and hate. It's dark, dirty and full of angst. It's one hell of a fucking rollercoaster.

Jax and Alexandra are perfect together. The minute they're together they explode.

It's completely different to the first book, honestly my expectations were ripped to shreds because it's everything I expected and more.

Every second of this story gripped me, Jax and Lex held me hostage from the second they met. Their story isn't an easy one, but it's worth the ride!

♥???THE LOVE STORY OF JAX AND LEX IS BEAUTIFUL AND FOREVER!!!♥???

I have liked Victoria Ashley's books and her style of writing since I read her WALK OF SHAME SERIES...BUT...It took ROYAL SAVAGE, Book 1 of her SAVAGE & INK SERIES to honestly see how versatile her writing is and how much talent with which this author is blessed...It also proves how blessed we are to have the opportunity to read her work...♥???

BEAUTIFUL SAVAGE, Book 2 of Ms. Ashley's SAVAGE & INK SERIES, gives us another hot, intense and gorgeous Uber-Alpha, Jaxon Kade, with whom we will all fall in love...His never ending love for his childhood friend, Lex, is both beautiful and scorching hot.... Both were broken as children, and both always knew they needed the other's love to be whole .. ♥???

Victoria Ashley's talent grows with each book she writes, and up to this point, her SAVAGE & INK SERIES is my favorite...I hope she has books already in the works for Blaine & Madison or Blaine & Tessa, Mark & Madison or (gasp) Blaine, Madison & Mark....I know, for sure, the books to come will be hot, intense and keep me from putting it down....♥???

This book had me hooked from the first sentence! I seriously couldn't put it down. The struggles that two face are heart breaking. Then to see them win in the end was perfect. I can't wait to see what happens in the next book!
