Book #1: **Shifters of Shadow Falls**

(Note: includes parts I-V of the *Offered to the Werewolves* serial.)

Every year Shadow Falls offers its young women to the werewolf shifters in exchange for the town's protection -- there's no refusal.

Ariana and Lizie grew up relying only on each other, finding their confidence and happiness in one another. Today of all days, they're relying on each other for strength. Today they are being presented to the Shadow Falls werewolf pack. It's law; Ariana and Lizzie have no choice. The werewolves haven't taken anyone in decades and the pair were sure this year would be no different. But as the day dawns, Ariana can't shake the uneasy feeling that something isn't right.

Devin, the Alpha, may keep his emotions in check when it comes to his pack, but he can't help the grin pulling at his lips when he sees his mate. His confident, strong-willed mate, Ariana, doesn't bow to anyone, but he's determined to win her over.

Betas Caleb and Dom have an even harder battle to fight with their shared mate. Lizie may seem wild and feisty, but she's terrified and for good reason. They have no idea that their mate has a secret she's been hiding for years. A secret so dark, she's never told a soul. But there's nothing she can hide from her mates.

Although not much is known about non-humans the town of Shadow Falls has a treaty with the local werewolf pack, the town gets protection from vampires, witches and other shifters and in return every year the town offers up all the women between the ages of 19 and 21 for the shifters but in sixty years only one woman has been chosen so even though Ariana and Lizzie have to attend they're not too worried, but they should have been because it turns out the pack alpha Devin scented his mate the previous year but she wasn't old enough and so he's had to wait for Ariana to be offered. Her best friend Lizzie is also chosen but Lizzie is keeping a huge secret.

Over the years I've read a lot of shifter books, most turn out to be very similar and usually end up being either average or disappointing.

I liked this book, I liked the idea and the characters it was too short but then the rest are all on KU so I'll probably continue with this at some point.

THE ALPHA GETS A MATE, AND THE TWO BETAS GET ONE TO SHARE!

This is my first book by Crystal L. Shaw. I chose to read it because I given "Claimed by the Werewolves" to read for a review. Since it was the third book and the others had ended in cliffhangers, I needed to read the first two. So I went and bought them to read them. Have to say that I was impressed with the authors take on the existence of werewolves, vampires, witches, and other supernatural beings. I think she really did a real good job in writing this first book. The book held my interest from beginning to end. I loved the way she was able to keep the different characters going through out the book and not confusing them in the story line. Work of a good author. I would definitely recommend this book to mature readers over the age of 18. Just know that the books have to be read in sequence to understand what is going on.

The Shadow Falls people have a pact with the Shadow Falls wolf pack for protection against the vampires. The town will offer its girls from the ages of 19 to 21 as offering for their protection. The girls must assemble at the stadium and walk the stage as their is called. If the werewolves want them they will take them then, if not they are free till the next year or till they reach 22.

Ariana and Lizie have been together as friends for years, relying only on each other, and finding their confidence and happiness in one another. Protecting each other as if they were sisters. Both girls came from broken pasts and carry secrets. Today is the day they are really counting on each other for strength. It is the day of the lottery and even though the wolves haven't picked a mate in decades, they do not know what today will bring. They are being presented to the werewolf pack today and no way to get out of it, it's law. Ariana and Lizie have no choice and are hoping that today will be no different than the past offerings. As she enters the place of the offering, Ariana can't shake the feeling she has that something isn't quite right.

The Alpha of the Shadow Falls werewolf pack Devin, has to keep his emotions in check so that he can keep a handle on his pack. When he sees his mate Ariana he can't help the grin tugging at his lips. He has known for year that she was his and he had been watching her without her knowing it. He knows that she will be a confident, strong-willed mate, who will bow to no one. He is determined to win her trust and love, can he?. Devin's Betas Caleb and Dom have their work cut for them with their mate Lizie. They have been fated with one mate for the two of them to share. Even though she seems wild and feisty, she is terrified of what is happening. She has a good reason and it is a secret she has been hiding for years, even from her best friend Ariana. The secret is so dark it has damaged her very badly. Can she hide this secret from her mates?

No spoilers. A very good read

The setting is quite interesting in this story. Human towns have treaties with werewolves. The werewolves provide protection from vampires, and the humans have to sacrifice a young woman each year. During the ceremony, the girls will line up and walk across a stage in front of some werewolves. The wolves will either select one or no one.

This year, Ariana and Lizie, were selected. They don't understand why they have been chosen. Ariana is afraid and angry, but she is also confused at the urge to have sex with Devin, the Alpha. On the other hand, Lizie has a secret. Her mates, Dom and Caleb, do everything they can so that she could trust them.

Even though **Offered to the Werewolves** is a quick read, it is **packed with hot sex**. The story continues in **Taken by the Werewolves**, and I can't wait to start!

Cliffhangers don't rate a review!

Carolyn F. says

Very good paranormal romance. There are a few errors in text but an editor could clean that up.

The story itself is about 2 friends who are chosen as mates during an annual event in their town. The world is made up of protected cities/towns and is protected by either vampires, werewolves or witches. At first the girls are scared because they don't know what to expect but eventually the love and care from the men turns them around.

I can't wait to read the next book in the series.

(Part 1-5) *** A new author for me, and I was not disappointed ! *** It is a terrific series ! We get a different view of pack dynamics, hot sexiness, and an interesting flow of the tale.

The town has an agreement with the werewolves, the town provides women, and the werewolves keep the townspeople safe from the destruction of the Witches and Vampires. The two gals are at the "Offering" this year. Arianna is more solid, and Lizie is insecure. The characters are a mix, because there are abusive childhoods, and unique wants and needs by some members of the pack. Devin, the Alpha and Arianna have great chemistry. Lizie is a tougher gal for her two guys to figure out, until she admits to her childhood traumas.

Even then, Betas Caleb and Dom have their patience and understanding tested.

This is a fun story, unusual, and holds the reader's attention.

It is a series, so yes, cliffhanger. ENJOY !!!

I was very pleasantly surprised by this one ;) The story drew me in immediately, I love the world this author created. This book is part of a series, this being book 1. It doesn't end on a huge cliffhanger, though it did leave me wanting more. I'm jumping into book 2 after writing this review.

This book has two heroines and three heros. At first I was a bit reluctant about this, but for this book it worked perfectly.

Lizzy and Ari have been best friends for a long time. Only having each other to rely on. They went to school together and now live together. Both these girls had a hard time growing up, although Lizzy's life so far, has been the hardest I think. The book starts with the two of them getting ready for a special event.

In this book, the humans know about the existence of vampires, witches and shifters. Humans don't really interact with them though. They actually fear them...and for a reason. Some towns however, have an agreement/treaty with werewolves. Shadow Falls is one of those towns. The werewolves protect the town and his habitants against vampires and witches and the like, in exchange for the towns girls. Every year, all the girls from the ages 19 to 21, are presented to the werewolves and they get to pick which ones they want

to take with them. Ofcourse all these girls are scared to death, not knowing what will happen if they do get chosen. This is the first time Lizzy and Ari are being presented and they are both a nervous wreck.. They are happy with their lives as is and they don't want to be apart.

Turns out...they both get picked and Lizzy absolutely loses it. Which in turn freakes Ari out. At first she doesn't even realise that she got picked too, because she was so worried about Lizzy.

The girls get separated during transport to their new home. Ari has been chosen by the pack's alpha, Devin. She is his mate and he has known for a year already. He had to wait until her presentation to take her. Devin is strong, handsome and understanding when he needs to be. He wants to tell Ari that she is his mate, that they are meant to be together, but he can't do that until Lizzy stops freaking out. Things get even more complicated when Ari goes into heat...not even knowing what's wrong with her.

Things for Lizzy are a bit harder. She didn't get chosen by one werewolf, but two. Turns out she is the mate of the two pack Beta's, Dom and Caleb. Lizzy however has a few secrets she has been keeping and Dom really scares the shit out of her. Which is pretty funny, because while Dom looks much more intimidating, Caleb thoughts are far from pure ;)

I really enjoyed this first book. It was funny, intriguing and damn hot ! These werewolves certainly know what they're doing ;) They had the dirty talking down to a fine art !!

Can't wait to see what happens next. The sidecharacters were very interesting and I hope there will be more of them in the next books.

4,5 stars from me

I received an ARC from the author for an honest review....Thank you Crystal L. Shaw :)

5 part seriallette box set, total length coming in at a mere 120 pages. I wondered at all the 5 star reviews, only to find out too late that they were "gifts from the author". Thankful I didn't actually waste any money on this.

Just because a preteen girl *can* upload her werewolf sex fantasies doesn't mean she should. Any actual wordbuilding to be found is all in the summary. Awful, just awful. That is all.

Thank you to Jeanne for the loan...

I received this series from the author in exchange for an honest review. In book one, I just had trouble following. The copy I was given did not have labels of who was the "I." It made it hard to figure out who the person was talking at times. I am not sure if it was editing in the copy or what. So I did not love the first one. Book 2: This was so much better than the first. It flowed better and it was a great addition to the story. Book 3: I loved this addition to the stories. I can definitely tell that the author was growing. This was well done and I hope I get a chance to read the next one.

The Book Junkie Reads . . . says

Holy shite. This one had not one but two relationships to put you over the top. One M/F and then one M/F/M. One alpha and his betas will get their mates this time. With cliffhanger in place.

Tink Magoo is bad at reviews says

Most of the book is told from Ari and Dev's POV which I liked but then you have her friend and her two mates POVs added in with their story.

For me it would have worked better to concentrate on the stories separately with more detail.

This could have been a great story, the sex scenes were good and so was the story line itself. However, it felt as if the story was not even finished.
