*A cold case is reopened, placing a witness in the crosshairs—and a bodyguard by her side...*

Charlie Winters has caught security expert Mike Strong's attention. A member of his self-defense class, she seems to need to know more than just how to protect herself. After a little digging, Mike discovers that the cute redhead has a reason to worry—she may have witnessed a murder. Using all of his connections, Mike tries to solve the cold case. But as Charlie's memories from the past begin to resurface, her future seems marked for death. Offering up his skills as a bodyguard, Mike promises not to leave her side. And Charlie's obvious relief at not having to fight alone convinces him there's much more to this mystery he has yet to uncover.

### N.N. Light says

Ten years ago, Charlie's best friend is killed in a hit and run accident. Memories are haunting Charlie and she starts asking questions. Someone is following Charlie and everything points to murder. Charlie signs up for a self-defense class just in case and piques the interest of ex-Marine Mike Strong. Mike offers to be her bodyguard and help her solve her friend's murder after a few attempts are made on Charlie's life.

Mike has never met anyone like Charlie and the more he's around her, the more he craves her company. But someone is out to get her and Mike's instincts kick in. Just when things are heating up between he and Charlie, the murderer gets reckless and goes after Mike. Will they survive this killer or is Charlie just The Girl Who Cried Murder?

I really loved this romantic suspense. Filled with twists and turns, Graves does a magnificent job weaving in romance with suspense. I loved that Charlie is independent and from the wrong side of the tracks. Charlie and Mike are a fantastic couple, feeding off each other's strengths and nurturing each other's weaknesses. A superb read and can't wait to read more!

My Rating: 5+ stars

You can't go wrong with a book written by Paula Graves. This was a quick, easy read and the storyline was intriguing. It kept my attention the entire way through. I like books where the female is not some scared rabbit depending on the big strong man to save her and Charlie is far from being that woman. I liked the way the relationship between Charlie and Mike developed; I was rooting for them. Give this book a try; you won't be sorry.

Charlie Winters has started to experience memories of the night, ten years ago, when her best friend was killed in a hit-and-run accident. Feeling like she's being watched, she enrolls in self-defence classes at Campbell Cove Academy. She catches the attention of instructor Mike Strong. Good thing, too, because

that's when someone starts threatening her and trying to kill her!

This took me a long time to read. And not because it was bad. In fact, I enjoyed it. It was a good, simple murder mystery. But the previous book I read Navy SEAL Six Pack was so utterly, utterly, utterly awful that it totally put me off my reading game! So I could only read this category romance in fits and starts. Normally, I'd take points off for a book being repetitive, as this one was, but it actually benefited me this time around, as it reminded me of what had happened previously! Nothing remarkable, but better than a lot of what Paula Graves puts out, it was a diverting mystery tale, and hopefully now that I've finished reading it, I can get back into my reading groove!
