Love Profound

Kelly Elliott

Love Profound Kelly Elliott

I write about love, but I've never experienced it. Sure, I've been with guys that I cared about. Even thought I found 'the one'. He turned out to be the frog and not the prince.

A few Frank Sinatra songs and a wildly handsome cowboy who calls me Darlin', will have me second guessing everything I ever thought I knew about love.

Does happily ever after really exist...or is it only something I write about in books?

Love Profound is book two in the Cowboys and Angels series.

Joelle says

Loving this Series !

The more I read this author the more I like her writing. This is the the second installment and I really enjoyed Amelia's story as I loved her in the first book.

I really enjoy stories like these where the main characters have a slew of over protective brothers who are always in their little sisters business and love life threatening any man who even tries to approach her as they always threaten to pound the heck out of who is even brave enough to attempt seduction. It makes for some really funny interactions when Amelia stands up to them and gives them shit right back. Amelia is a bit of a spitfire so you can just imagine how frustrating and funny these situations are. For all their protectiveness and bullying you can see just how close all these siblings are and how much they love one another. I really love that.

The more a read about this family of brothers and sisters is that they all have their own demon's and own insecurities but when they fall they fall hard and Amelia was no different.

I loved Amelia as she was funny quirky a spitfire, speaks her mind, is someone sexy and beautiful at yet doesn't flaunt it or really even own it .She is just a girl comfortable in her own skin and in touch with her needs and wants when It comes to her own sexual needs.

Wade omg! , what a heartthrob I have to say I fell head over heels for him myself just for the kindness and sweetness her showed Steeds and Paxton's daughter Chloe and how they were friends. Favorite and one of those ah moments is when Wade gives Chloe flowers when picking Amelia up for a date so her feeling weren't hurt saying it was best friends day so she wouldn't feel left out. My heart swooned right then and there. I found Wade to be compassionate and kind and caring and just a super sweet fun loving cowboy with a really big heart.

This was a real cute and fun quick read for us. I loved the characters especially Amelia's brothers and her sister Waylynn they were fun and engaging to read about. I loved the chemistry that Wade and Amelia had between them it was hot as hell as they gave off sparks when they were in the same room together. The sex scenes were sweet and sexy and hot.

We have to give a shout out to Aunt V what a pisser she was. You had to laugh out loud every time she opened her mouth. She was really a funny lady and the things she spoke about were just outrageous and funny.
(Grinning)

And we loved Waylynn to as there is more than meets they eye with her. She lost herself for a bit but she's finding the self she buried and I can't wait to see the trouble she stirs up once she is back in full force. Looking forward to her story down the line.

I loved how Amelia wrote about love and romance yet never really experienced it herself and yet after meeting Wade and falling in love she will definitely have some racy new and sexy material finding it's way into her new books as she is now experiencing some of the things she only wrote about. I loved that Amelia was a risk taker and that bathroom scene with Liam proved just that.
(grins)

What a light fun romance read that we really enjoyed reading cover to cover and we can't wait to read the next book in its series.

Amelia can finally say she definitely got to ride a cowboy and it was amazing and life changing and she loved it !

Recommended read to all!

5 stars from us Arc copy provided for honest review Full Review @angelswithattitudebookreviews

Tricia Bartley (iScream Books) says

You know sometimes when you read a book and you think you know how it is going? You know who is going to be with who? What is going to happen next? Well you think you know...then BAM you are sooo wrong and then you are pleasantly surprised!!! Yess I really love when that happens!!! And Yess this will happen to you while reading this book!!! It is such a fun, HAWT, twists and turns kind of read and I loved it!!!

Ummm...I will be vague in my review. So here goes just a bit of info..lol This book is about Amelia. She is a Romance Author and she is having a bit of writers block. Love Profound is about her getting her groove back. I do have to say that I really do love reading books about Authors...I always think they are fun and always HAWT because the ones I have read in the past, they have fun inner dialogue in them that make me LOL.

I gave Love Profound 5 iScream Cones!!! Now onto book 3-Tempting Love. Just loving this series!!!

***Penny says**

Safety/Overview:

- ★He's been single for a while, his girlfriend left him when his family died because she couldn't emotionally deal with it.
- ★Explicit sex scenes with OM before meeting the hero.
- ★The heroine was engaged but her fiancé cheated on her, she found him in bed with two women.
- ★The hero goes on a date after meeting the heroine but the woman never showed up, the h sees him at the restaurant and when she finds out the name of his date she laughs and tells him that the woman is married and that she flirts and goes on dates with OM at least once a month with the intention of having an affair but she always backs out. --Even though the MCs felt instant attraction this didn't bother me because hours after they met the hero caught the heroine having phone sex with OM.
- ★She enjoyed ONS until she met the hero.

★It was good to know that he didn't love his ex the way he loves the heroine:

"She's an amazing woman. I've never felt this way about someone. Not Even Caroline. Not even close."

"I do love her. I've never loved anyone like I love Amelia. She's my everything."

➤ -1 star for the lack of epilogue. I might read the rest of the series to see what happens with this couple but tbh I'm not very excited for the next book, the guy is a manho and according to this book he slept with OW after meeting the heroine (it's obvious that he has feelings for her but he's not the "settling type" ugh) and the heroine has been celibate, I hope this changes in the next book and she gets some or I'm gonna be pissed...

➤ -1 star for the POV from the guy the heroine fucked at the beginning before meeting the hero, it was a pointless scene imo.

The Book Bee says

REVIEW: 3.5 STARS

"I wrote about love, but it seemed I was destined to never find it."

I really think I am completely invested in this family by now. I mean, I was after Lost Love and wanted to continue on, but after reading this book, I need to see the series through. I am really enjoying this Parker family! It's not some angsty, stomach-clenching, nail-biting read. It is an easy, giggle-worthy, smile inducing, heart-eye-making read. And each book brings us deeper into the Parker family, while we get to see each person's insecurities, their issues, their fears. I love the relationship this entire family has with each other. They are so funny, but caring. So protective, but genuine. I really like their dynamic as a family.

This one, we followed Amelia (Meli) Parker and her zest for life, but also we got to learn of her very structured walls around her heart. She was such a mixed character for me. And by mixed, I mean that at some points she was really forward, confidently so. Almost like that was her defense mechanism; to be outwardly confident and sexy, but when the intimate and sexy times hit, she was almost a bit awkward. I felt it very much. Was it intentional? I surely hope so because that's how she came off but it made her relatable. That would explain her awkward outbursts while they were getting close. Her journey to find her love was just as lively as she is. Meeting her in book one, she is the youngest and the most protected of the group, but it was fun to see her shock everyone in this story!

There isn't a lot I can say because it will give away some of the plot, but I was a little worried when it first started out. This one was written a tad bit differently than the first book, and I seriously got whiplash on the POV changes. Not in a bad way, but you'll see. When we went to NY with her....I didn't care for the

characters that surrounded 'him'. I was worried it was going to be unnecessary drama to cloud Amelia's HEA. I know I hate unnecessary drama, or drama for drama's sake, and I make no secret of that. I felt like that bit was going to turn me off from the story, but it didn't. It played itself out quite comfortably. That aside, just know that this reads as a back country, down home, easy going read. The proper thoughts of Texas mixed with the lively actions of the residents. I liken this series to good ol' southern cooking vs New York style, high priced, two piece, decorated plate meals. It's just comfort food.....soul food. Not heavy. Not angsty. Not deep. Just a seriously easy read that you can get comfy by the fire and just read with a glass of wine. It's definitely an easy read.

--> And the next story? Tempting Love is going to Mitchell and Corina's book!!! Gimme, gimme!!! Talk about a broody man finally getting his woman! I am so excited. I have been looking forward to his story since Lost Love when we met them! I really enjoy how the undercurrent of the other characters' stories are embedded in the subsequent books. I love how they play into, roll into, each other.

"Sometimes....we have to walk down the darkest path before we can see the light through the trees."

ARC provided by author in exchange for an honest review

Love Profound by Kelly Elliott is a deeply profound beautiful romance that had all the makings to make readers fall in love with love. Boy oh boy, did my heart go pitter patter as Elliott will have you in a puddle of mush as this book was filled with every element of raw emotions, sweetness and Southern charm. I will not say much because this book truly surprised me as it swept me away with Elliott's visceral prose as she kept readers entertained with her character's charismatic personalities. With little drama thrown into the mix and playful banter, readers will be left smiling. A must read for any contemporary romance fans!!

Heather andrews says

I loved Amelia's brothers they gave her man lots of heck, "My eyes scanned across all five Parker brothers. Each of them staring, waiting for me to eff up. "Wonderful. I don't think I've ever been this happy." They all smiled." Amelia's family tends to overshare, "my mother just told me my father was a young stallion who could still get it up without Viagra." I loved this book, I loved Amelia and her family.

Bookworm Between the Sheets says

This second installment of Kelly Elliott's Cowboys and Angels has me throughly invested in the Parker Family and after reading **Love Profound** I cannot wait to see what she has for us next! I enjoy her writing it has plenty of laughable moments, sibling banter, and plenty of friends to help add in more drama.

In Love Profound, this book focuses on the baby of the family, Amelia (Meli), who happens to be a romance author.

*"If my baby sister is talking dirty to you, you best put a stop to that sh*t right now."*

Unfortunately for Amelia, she was seriously burned in the past and has built a fortress around her heart.

"I wrote about love, but it seemed I was destined to never find it."

I loved seeing older sister Waylynn and Amelia's sisterly love and friendship. Kelly really shines in this part of the story with Amelia being there to help her sister during a major low point in her life.

The POV of in the story is very interesting with being three voices instead of just two. I don't want to give anything away, but I enjoyed the change of pace! Amelia's cowboy is something else with his singing!

"I'm realizing that you hold the power to destroy my heart and that scares the daylight out of me."

Love Profound was a good, quick read and I really LOVED the part about Amelia's BFF and her UPS guy! The Parker family is very unique and I am looking forward to Book 3 in the Cowboys & Angels Series.

Lu Bielefeld *read.laugh.love* says

I liked it and the story kept me interested until the end. The hero is wonderful.

~ 5 Giraffe Stars ~

Well I will say it again....Kelly Elliott knows her stuff about Swoony Cowboys and heart throbbing romance stories.

Her books are always a fun, sweet, and sexy read. I always know that when I pick up one of her books I will be swept away with the characters lives and the stories she gives us. Love Profound was no different. I was lost in Amelia and Wade's story right from the beginning and I had a hard time putting it down.

I do have to make a small correction from my review of Lost Love (Book 1)...I originally thought this series was going to be a collection of standalone novels. And I can say that yes each book will focus on a new couple and they have their own storyline, but when it comes to the secondary characters, that storyline carries over into the next book. So my recommendation is to read the series in order. I believe reading this series out of order could spoil other storylines of previous books.

As I said before I am so glad Kelly has gone back to her cowboy roots. I absolutely love her family saga books. The Heroes are swoontastic and the heroines are sassy and can stand up for themselves. Wade and Amelia are no different. I want to find a Wade for myself. I also felt like I could be best friends with Amelia.

Love Profound is the second book in her Cowboys and Angels series. It is told in Dual POV and you could say it is a complete story. But I am sure we will see more of Wade and Amelia in future books. Amelia is the youngest Parker sibling. She is a romance author and has been hurt in the past so she believes that HEA's only happen in her books. Wade is the new ranch hand that her brother Trevor hires. Wade has also been hurt in the past and was on a downward spiral when Trevor found him and brought him with him to work. Can these two broken should find their way to each other?? Will they be able to drop their walls long enough to find a HEA?? Read this amazing love story to find out!!!!

Again...I'll say this is Kelly Elliott at her finest!!! I think the Parker family has won my heart.

This is another book/series I would 100% recommend to all readers. Don't miss meeting the Parker's and the ones who steal their hearts!!!

Allyson ?? says

Why is it over?! I need more!!!!!!!

I am so obsessed with this series, it's not even funny. I tried to tell my friend about it and I got all ready eyed cause I love it so much! #help #ihaveproblems ??

January 2018 reread: Preparing for Mitchell's books!

Still one of my favorites books!

Wade is my dream man. I need him. Where can I find him?!

Sarah Dale says

Kelly Elliott has done it again with another brilliant book in this **Cowboys and Angels** series! I was completely hooked from beginning to end.

I love this Parker family and after meeting Amelia I was looking forward to reading her story. She's the baby of the family and whoever falls for her has to be prepared to take on the wrath of her brothers! Amelia has got her heart looked up tight after it being broken and she only writes about love not really believing in it for herself.

Can I just say that Wade is totally panty-dropping, swoon-worthy! soon as you meet him and he is dancing with the hilarious and adorable Chloe your heart instantly beats faster and you want him for yourself!
<3<3<3

He is so beautifully vulnerable after the loss of his family that it was so beautiful watching him come back to life with Amelia and the Parker clan around him. His relationship with her brothers, especially Trevor is great, well when they aren't being traumatised or beating him up over his relationship with their sister.

I have to say this book had it all, I literally cried with Wade's pain, I cried again with laughter almost peeing my pants with some of the funny bits in this book (Chloe and Patches are comedy gold) and I totally swooned over the beautiful romance and pure love these two had for each other with their immediate connection.

I cannot wait to see what Kelly does next with this series. I am seriously glad Mitchell's book is next as I want to see him get his head out of his ass and finally get the girl. I am then torn on who I want next but I have to admit I think Cord's book will be the wildest ride with the way he is with the ladies so I am quite excited for his book.

I voluntarily reviewed an Advanced Readers Copy of this book in exchange for an honest review from the author and Inklinger PR

Tina Todd shobe says

Amelia is just awesome. I love her personality. She has such spunk. She's the youngest daughter in the Parker family. She lives with her family on their ranch. This book sucked me right in as soon as I read that Meli was an author. Seriously a book about an author. I didn't think it could get any better. I was wrong.

Wade, a good friend of her brother Trevor, comes to work on the ranch. I just want this guy to be mine. A cowboy, that sings like Clint Black and can dance ~heart is melting here~

I love when a book pulls me in that has me feeling that the book is taking place around me. Like I'm right there watching it unfold. I could actually invision Wade and Amelia dancing. It was awesome!

This book had sizzling hot sex, romance, ups and downs of relationships and humor. There was periods in this book that I had to stop reading because my eyes were too blurry to see. I was laughing so hard I was crying.

Aunt Vi is great. The stuff that comes out of her mouth is so funny. I love her take on life. Niece Chloe absolutely steals the show. What a darling that adds even more humor.

Love Profound is book 2 in the Cowboys and Angels Series. It is easily a stand a lone. In fact, I have not read book 1 and had no problem following along and thoroughly enjoying this book. I am definitely not missing the rest of the series.

Shelby (Book Lovers Have More Fun) says

I'm officially **OBSESSED** with this series!!! *Love Profound* was just as good, if not better, than *Lost Love*.

I already knew what the book was about, but I still had to pause a couple of times to read the blurb again while reading. I had to make sure I was reading the right book!!! I wasn't sure where Kelly was going with the story at first. Which I **LOVED**.

I **REALLY** liked that Amelia was a romance author. It was **ONE** of the reasons why I was looking forward to her story. I got a kick out of her researching for her books!!! Swoon was a word passed around between Amelia and Wade. Wade was **DEFINITELY** swoonworthy. Whenever Wade was around Chloe my heart melted!!!

I felt like the end cut off a little. I kept turning the page hoping there was more. Luckily I'll see those two again in the other *Cowboys and Angels* books.

I **SO** can't wait for Mitchell and Corina's book next!!!

Rebecca says

Everyone, regardless of age, gender, ethnicity, etc., deserves love – a kind of love where they can feel secure, cared for, and important, but sometimes, the choices people make force their hopes and dreams when it comes to their personal happily ever after to go askew, choosing a partner(s) who doesn't cherish or protect them because they are too busy looking out for themselves.

For Amelia Parker, a successful romance writer whose books exude passionate and all-in love, has stopped looking for her perfect mate because all of her choices, one in particular, have twisted her view on love and relationships. So, even though her writing doesn't suffer from her distorted view of love and commitment, personally, she doesn't know how to manage her past pain with her present and hopeful future.

Until a certain cowboy proves her wrong and shows her exactly what love in the most profound sense should be.

There are no better heroes than Kelly Elliott's cowboys because despite their 'alphaness,' there's also a gentleman underneath who knows how to treat people the right way and when it's the woman who owns his heart, there's no better man alive who can demonstrate through words and actions just how much his other

half owns him, body and soul.

Amelia and Wade's story is as romantic as it is steamy, and that combination makes for one heck of a fine read. Because the entire Parker family is showcased in the Cowboys & Angels series, Elliott allows readers to be an adopted member and as Amelia and Wade's romantic relationship takes off, readers are a part of every sensual and loving act and they also witness the Parker men putting Wade through his paces when it comes to their baby sister.

Kelly Elliott is a gifted writer because she effortlessly builds a setting and characters who spellbound readers because the world she creates is a pivotal part of her stories and the characters she constructs are truly multifaceted and easy to understand and connect with because Elliott illustrates exactly who they are and why they make the choices they do.

Bring on the next Parker!

4.5 Poison Apples (The Fairest of All Book Reviews)
