Lisa Currier says

Even though all 4 stories were predictable, they were still entertaining. LLM has the ability to write characters that are generally interesting and keeps the story moving along.

Christel says

Not bad!!! I really liked all 4 of these and I really am not a fan of combining stories but this one works really well

karen says

Not as good as Parable series or creeds or McKettericks. Not sure how I feel about this series.

Jazmine says

I usually stay away from books that have multiple stories in them, but I took a chance since I adore Linda Lael Miller. I'm glad I took that chance! All 4 stories came to life on the page with lovable characters, a little bit of action, and, of course, some romance. Definitely looking forward to finishing this series!

Another great one by Miller!

Judy says

Good easy summer reading. I enjoyed these stories. They are a nice break from the 2015 reality. Good boat/beach reading for sure.

Nolan says

This book is actually a compilation of four short stories that are very loosely connected. Perhaps the most significant commonality they have is that they are set in the fictional frontier town of Springwater, Montana.

Young single Rachel responds to an ad for a schoolteacher in Springwater. She is from the East, and she has some pretty rigid ideas about how things ought to be. The last thing she intends on doing is falling for the part-owner of the local saloon. Predictably, that's what happens here.

Savannah's story begins a year or two after Rachel's concludes. She's not a prostitute, but she does own a part of the saloon in which Rachel's husband is invested. Convinced she'll never marry because of the

town's assumptions about her career, she prepares for a relatively lonely all-business life, but the town doctor, himself a misfit with bad memories of the recently concluded Civil War, finds in her qualities that heal his own life and that could be used to help heal others.

Miranda is an unwed mom who hits town a few years after Savannah and the doctor marry. She has no real goals, no future, and only one idea—to escape where she's been and start somehow somewhere new. She, too, assumes her status as used-goods will mean no marriage. But there's a widower in town with decidedly other ideas. He's quite ok with her baby if she can learn to deal with his young hellion sons.

Jessica hits town intent on saving her deceased brother's newspaper and making a home for his twin baby girls. His brother's wife had also died, and the children were orphans. One of the folks she deals with early in Springwater is an attorney, about whom her brother had warned her. But the two ultimately find love despite her brother's warnings.

liked it

Kasey says

I love the Springwater girls! I can't get enough of them. Months after I read this book I am still thinking about the stories and how I would love to read them other! If it just weren't for all the other books I plan on reading I would! Highly recommended!!

Wendy says

Though I liked this book, I didn't feel that it was up to the same caliber as her more recent books. The Stonecreek series is much better, but you can see where LLM has really grown as a writer.

There is four different stories in this book and each one centers on the town of Springwater. Each woman comes to town for different reasons and ends up finding love.

I had to set this aside for a couple of weeks and read something else before I went back to it because I lost interest.

I give this book 3 out of 5 stars.

Janice says

All of Mrs. Miller's books are a GREAT read!! Always worth read over again!

Cathy Leadabrand says

Pleasant, like reading a Hallmark movie.

Kimberlie says

This was a good book, but not wonderful. I enjoy reading series, so having 4-in-1 was perfect! The characters were fun and the stories were well written. A couple of times I felt like portions were cut out or severely edited for length, leaving the story a little lacking in spots. Still recommend, just not exuberantly

Azteca Yo says

Tasteful romance for those who want something to just wrap a blanket, grab a cup of hot chocolate and read on.. Linda Lael Miller has always been one of my favorite authors. Her books are always tasteful. This one in particular is a History romance novel. Has four books in one! So, I am serious when I say grab a blanket and hot chocolate! :) Enjoy!!!

Peggy McKinstry says

Love this Book. I had them individually but I like getting the set in one book. Great reading. A little too much sexual stuff but I always skip over that. It's 4 different women with different backgrounds ending up in the same town. I have read several of her books. Very good Author.
