## **Meanwhile Back at the Ranch** Kinky Friedman

Private dick extraordinaire Kinky Friedman has his hands full, fitting two new cases into his already busy schedule of solo boozing and misanthropic musing. First, there's the missing young autistic boy from New York. He's on a menu of medications, has a knack for picking stock-market winners, speaks only one word, "schnay" -- and Kinky is the family's last hope of finding him. But a second mysterious disappearance takes Kinky deep-in-aharta Texas, where Lucky the three-legged cat -- and unofficial mascot of the Utopia Animal Rescue Ranch -- has apparently been kittynapped. The owner is convinced the feline is in the hands of some nasty neighbors, a satanic cult, or aliens -- and she wants Lucky found before he becomes coyote chow. Sleuthing in two states, with two very special specimens at stake, Kinky is going to have to think (and "drink") harder than ever to save the day not once but twice....

## **Meanwhile Back at the Ranch Details**

## **From Reader Review Meanwhile Back at the Ranch for online ebook**

### **Francesca says**

A bit short on plot but full of laugh-out-loud funny quips from an assortment of colorful characters. A short, diverting read.

---

### **Vonn New says**

Quick, amusing read. Nothing entirely profound, but some one-liners that made me laugh and an overall irreverent attitude that I enjoyed.

---

### **Carrie says**

My first Kinky book. Hilarious. He has the ability to be a character in his own fiction books and make it work. The main character is a Jewish, country singing, New York detective, enough said...

---

### **Adventurer Rich says**

This is the second Kinky Friedman book that I have read. When I finished "God Bless John Wayne", I felt like it was a pretty good quick read. Reading "Meanwhile Back at the Ranch" was more enjoyable. It took reading a second book for me to discover how much I like Mr. Friedman's characters and how much I really enjoy his writing style. I guess he kind of grows on you. I'm actually really looking forward to reading more of his work. The mysteries aren't exactly nail-biters, but you develop an interest in their outcome, and you may find that Kinky has actually touched you just a little bit in the end (and I don't mean he's touching your butt... although I think he would like that :)

---

### **Beth says**

I read this mystery novel because a friend recommended the series to me and told me it was funny. I did not find it to be funny, just lame. Also, the story was very minimal, with little detecting actually going on and with lots of padding from irrelevant asides. I won't be reading any other Kinky Friedman books.

---

### **Ljuke says**

Enjoyable yet very slightly racist.

---

**Carol says**

Not his best but still very good.

---

**Christina says**

i've been in a bit of a reading slump lately, so this little mystery hit the spot. It was a short easy read, with some laugh out loud moments.

---

**Caratstick says**

I don't want him for my governor, but this book is funny as hell.

---

**Harry Addington says**

Could not get into this book. Gave up after 20 pages.

---

**Wanda says**

Stupid & not very funny.

---

**Jean says**

Nothing much happens in this book, but is is strangely addictive anyway.

---

**Virg says**

Randomly came across this book at a book swap, and had never heard of this author before. Very entertaining read! Glad I found it. Still not sure I fully understand who Kinky is, or how he makes a living, but this semi-detective cowboy living in New York has a writing style I like.

---

**tcbntx001 Hardin says**

What can you say about Kinky but nuts?
