Its a great book, making you almost wish to have been born in Pre-Independence era in this southern plateau of INDIA. Simply put yet enthralling tales and managing to earn respect for the King Cat despite ominous kind it deals with it.

The chapter of Tales of the Supernatural is one of the coolest pieces about black magic practiced in Indian folklore. The chapter creates a perfect atmosphere of the gruesome darkness before Anderson narrates the absolutely thrilling story of the ghost at the haunted ancient Temple!

Enjoyable read..

Years ago,I found many of Kenneth Anderson's books in a library and enjoyed them a good deal.Recently,I

---

found this book again. Anderson is a skilled writer, more so than another famous hunter, Jim Corbett. He brings the South Indian jungle to life through his descriptions of its sights, sounds and smells. There is plenty of suspense and tension as he describes his encounters with man eating tigers, leopards, elephants and other inhabitants of the jungle.

What did i feel when i read this book? was it just reading? Not at all! The author magically transports us into the incredible and fascinating world of the Indian jungle and its wonderful inhabitants. Prepare your backpacks and get ready to encounter the wild, as you set foot into the forest, page by page.
