Sekirei, Vol. 1

Sakurako Gokurakuin

Sekirei, Vol. 1 Sakurako Gokurakuin

Minato Sahashi is a rounin, a two-time loser who's failed his college placement exams. Just as he's contemplating giving up and heading home, though, a chance encounter changes his life forever! Enter Musubi, a girl who literally falls into Minato's life! Musubi is a Sekirei, a modified human caught up in a game in which only one of her kind can be left standing. In order to be victorious in this contest, though, she needs to find her Ashikabi (her fated partner)...and guess who fits the bill??

Caught up in battle he barely understands, can Minato survive "The Sekirei Project" and emerge victorious? Either way, with his buxom new cohort by his side, his life will certainly never be the same!

myinon says

I remember watching the anime for this back in 2008. I'm glad that I now have the chance to finally read through the whole story from start to finish.

Karen says

It starts a bit like an echo of AMG. I'm still trying to figure out how it all works. ^^;

Rahul Balaggan says

Great start to a new series

I haven't watched the Sekirei anime at all so just based on Vol 1 and this story was great so far. The first book did well to set up the base storyline without giving away too much, the main characters Minato really seems like someone people can relate to. At one point everyone gets depressed and thinks it's all over, and they want to escape to a fantasy world. The Sekirei Project and Musubi is that escape for him. Fair warning every single chapter contained several aspects of fan service. That sounds like a lot, and it is but it plays directly into the story since this is a fighting/tournament Manga. (In a big fight between Gods with powers clothes will be shredded & burnt.)

Jessica says

I didn't think I would enjoy this as much as I did!! On to the next!!

Lydia says

I did start with the anime before reading this, but when I found out how different they are and saw how the second season did not really have a true ending, I had to start reading the manga from the beginning. I know a little more about Sekirei so I don't think the beginning is too confusing, but I do remember having a lot of questions when I originally started to watch. I do think it is weird how they are introducing parts of plot points and world building in the prologue that I didn't remember until later in the series, which might totally throw off new readers.

I can't really rate the drawing style or anything, but some of the panels portray the characters as more... chibi I guess is the word I want. It brings a lot of cute to the character Musubi. That being said, I also have to point out that the manga is RIDDLED with PANTIES and BREASTS so if that isn't for you, I wouldn't really recommend this. HOWEVER, I also know at least from the anime that Sekirei has a really interesting plot.

The cliff hanger at the end of this volume, provided the rest of the novel interested the reader, will definitely

make them want to see more.

Soul says

Though something different from what i usually read, this book make me realize that enjoyment to some extent is necessary in life. i loved this book it was well written and not to mention the art was simply great.couldn't put it down.

suitable for boys.(and girls if they r interested in girls)

;)

Sal Coraccio says

Synopsis, from Wikipedia, "One day, Minato meets a girl named Musubi, who literally falls from the sky. Minato soon learns that she is a "Sekirei" who chose him as her "Ashikabi", a human with special powers that allows them to have a contract with Sekirei. This binds the Sekirei to him and allows them to use their full power in elimination battles with other Sekirei. Made up of cute girls, buxom women, and bish?nen, the Sekirei fight in a competition known as "The Game" or the "Sekirei Plan" organized by Hiroto Minaka, the chairman and founder of the mysterious and powerful MBI Corporation.

Minato soon learns that being the partner of a girl is not all fun and games, especially when several other Sekirei choose him as their Ashikabi, each also forming a contract with him. Now, Minato must find a way to survive both the life-threatening battles of the Sekirei Plan and his partners' fierce competition for him."

Thomas says

The Beginning of wonderful action harem manga.

Sekirei is one of my favorite manga and one of the few harem stories that I truly do love. This first volume introduces you to the two main characters and sets the stage for the story moving forward.

Brandon Varnell says

My thoughts as of chapter 173.

I was originally going to give this three stars, but I have since decided to give it four because I've begun to unexpectedly enjoy it. To be honest, when I read the first two volumes, I really didn't think much of this manga. It wasn't until, I want to say, volume 5 or so that I began to truly enjoy it. Now, as the story is coming ever closer to its conclusion, I can say that this is definitely one of the better harem manga currently being published. And the reasons are simple.

A super awesome cast of strong female characters:

Epic battles:

Touching moments:

A main protagonist who actually develops a backbone:

Sekirei has been a surprisingly entertaining manga.

Mike says

Much better than an ecchi manga with cliched premise has any right to be. Good start.

Review: <https://derailmentsofthought.wordpress...>

Daniel DallaValle says

Surprisingly enjoyable. A good first volume that establishes and builds on the characters and hints at what's to come. The art is clean and easy to follow, it has a quirky sense of humor, a growing romance(s), likeable characters, and a few fight scenes. Yes, it's a harem, and yes, there is fan service throughout, but after a while it's easy to tune out most of the mild stuff. And, while unnecessary, it comes off as funny the way it's written. If that kind of thing doesn't bother you, it's worth a read.

Joey says

Alien love hina battle royale

That is the best way I can think to describe sekirei and if that sounds interesting than you'll likely love this book

Nick says

The parental warning on the cover is probably because of the large number of semi-nude women in the book, a few of which are due to actual plot points. Overall, though, the book is a weird mix of harem comedy and

SF combat story, as the "sekirei" are forced to fight by the weird techno-genius who found them on board what may have been a space ship. That part wasn't entirely clear, but neither was anything else in the story. The harem part comes from the fact that certain human beings are genetically suited to become masters for these sekirei. The problem is that you can become master to more than one, if you happen to run across them and you're suited for it. A second problem is that they're having a combat competition, and, you guessed it, there can be only one winner. Losers don't necessarily die, but they're supposed to be out of the running for the grand prize. Losing the combat also means that you have to leave your master, for reasons not yet clear. The main human character has failed his college entrance exams twice, but as it comes out, he's trying to get into a very difficult school, so he's not just a loser. The problem is that it takes a while for this to come out, within the story, so the reader gets the wrong idea at first.

My reason for not giving this a fourth star is the weird humorous pandering to the audience. The sekirei keep getting undressed for the viewing pleasure of the readers. They take a lot of baths, or get their clothes ripped or torn in battle in weird ways, some of them not at all believable. One character even makes a joke about this being for the benefit of the readers, but in fact sometimes it gets in the way of the story. Also, for reasons as yet not clear, the sekirei have a wide range of apparent ages. One of the ones appearing in this story looks like a pre-pubescent child, while others are fully adult. The childlike one spends less time naked, which makes it a little less creepy. Still, I'm not sure if I will continue to read this series.

Kurtis Burkhardt says

Not bad manga. great art, decent story, great action but this mangas like 95% Ecchi?????

Micheal C Northern says

Finally can read the manga!

It does not disappoint! For those that have been waiting on the 3rd season of Sekirei we can finally read the comic that was the inspiration for the anime. I just hope we don't have to wait forever for vol.2.
